TANKS ARE THERE BUT FUEL IS LACKING

Forest Lake—While driving behind the common gasoline trunk, one usually expresses how satisfied he would be had he to his disposal the fuel contained in the large tanks of the truck. It is quite likely that the pro and con of such a desire was given much consideration by George Mittleman, Red Crown dealer, who was driving his fuel truck to town recently. The motor started to cough and George soon found that the truck's tank was more empty than he had figured. The vehicle was completely out of gas, and George had to hitch back to town.

Good luck has a habit of always butting in while a man is hard at work.

STATE OFFICIALS ARE TO CONTINUE MARGARINE FIGHT

Stassen Wires Protest to McNutt on Threat to *Dairy Farmers*

With the application for a postponement and rehearing on the federal oleomargarine regulation turned down by Paul V. McNutt, federal security administrator, Minnesota state officials and dairy leaders who have been carrying on the fight the past month to obtain revocation or modification of the order indicated that they will not quit, that the fight will be carried to the floors of Congress if necessary.

The order, promulgated by McNutt, prescribes a definition of oleomargarine which allows manufacturers of this product to include coloring, flavoring matter and other ingredients that make it an almost exact imitation of butter. With the appeals to McNutt from Minnesota and other midwest dairy and farm states denied, the order became effective Saturday.

Governor Harold E. Stassen immediately wired McNutt upon announcement of his decision urging him to reconsider and grant the dairy farmers and agricultural states an opportunity to present evidence of the harmful effects of the ruling. Should this fail, R. A. Trovatten, Minnesota commissioner of agriculture, said that the fight against the order will be carried to the people and action sought in Congress. Trovatten headed the Minnesota delegation in a series of conferences between officials of the dairy states and the cotton states, arranged by Governor Stassen in an effort to obtain postponement and rehearing in the order.

"The fight will be carried to Congress if McNutt sticks to his position," Trovatten said. "If this order stands, the manufacturers of oleomargarine will be able to take over markets for butter that have been developed by our farmers over many years. Income of our farmers here in Minnesota, priticularly, will be tragically reduced, and our co-operative creameries will be imperilled if not destroyed. This is the most serious threat that has faced our Minnesota farmers in a generation."

STORM DAMAGES SOO LINE SHOPS IN MINNEAPOLIS

One Man Killed, Buildings Damaged, Freight Cars Overturned

Violent wind with gusts of 75 miles per hour velocity, ripped through the Minneapolis-St. Paul area at the noon hour Wednesday, leaving two men dead, a 9 year old boy missing and feared drowned, and sending more than 40 persons to hospitals.

Carl Anderson, machinist at the Soo line railroad's Shoreham shops in northeast Minneapolis died in a hospital of a crushed chest and head injuries.

Anderson and about 40 other workmen were showered with steel and wooden beams, bricks and other debris when the powerful blow collapsed roofs on three large railroad car repair barns. Anderson was one of 35 workmen pulled from the wreckage and carried to hospitals in a fleet of ambulances.

Hardest hit in the Twin Cities area was the north and northeast sections of Minneapolis with the brunt borne by the Soo line shops. One hundred fifty railroad cars on shop side rails were overturned. Long strings of cars were pushed several feet down the rails.

The new coach section of the car shops was a total wreck and other portions — the blacksmith shop and store room baldy damaged.

Workmen said the storm struck with a tremendous "woosh." Bricks began to fly and steel beams buckled. When the roofs collapsed many of the 100 employes in the building flung themselves under railroad coaches and escaped.

THE RECORD .... Facts That Concern You No. 20 of a Series

A BAD ONE *DOES* TURN UP ONCE IN A WHILE!

Good weather and a bumper crop! Even then one finds a poor stalk once in a while.

The retailing of beer is something like that. Most beer retailers operate respectable law-abiding establishments. Occasionally one finds an exception — a man who tries to beat the law or who permits anti-social conditions.

The beer industry wants this type of undesirable retailer stamped out. Your cooperation will help us in our clean-up efforts.

The beer industry brings important benefits to the community. Here in Minnesota, beer provides employment for 34,573 persons, supports an annual payroll of $29,866,962 and contributed $1,926,921.61 last year in state taxes.

Minnesota, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from over 100 other industries.

You can help us protect these benefits in two ways. First—patronize only the reputable places where beer is sold. Second—report to the proper authorities any law violation you may observe.

F. D. R. EXTENDS USE OF NAVY ON AXIS RAIDERS

Issues Strong Warning in Address to Nation Thursday

FOES TERM SPEECH WAR DECLARATION

President Does Not Define Areas to be Protected by U. S. Ships

In blunt, uncompromising language President Roosevelt barred vast reaches of the seas today to "rattlesnake" raiders wearing the flag of the Rome-Berlin axis, and backed up the no-trespass order with the guns of the United States navy.

Foes of the administration's policies immediately chorused that this constituted "an unauthorized declaration of war," "an engraved invitation to trouble."

But there was no disagreement as to what the president meant. His instructions to the fleet, effective at once, were specific — strike first without waiting whenever axis raiders are encountered hereafter in the "defensive waters" of the United States.

That, in brief, was the burden of the address which the chief executive delivered by radio last Thursday night to the nation, to the axis powers and to the other countries of the world.

It represented the president's considered reply to the recent series of sea incidents—a previously undisclosed attempt to torpedo an American battleship, the clash between the U.S.S. Greer and a U-boat in the north Atlantic, and the sinking of three American-owned merchantmen.

"The sole responsibility rests on Germany," said Mr. Roosevelt of the future.

"There will be no shooting unless Germany continues to seek it.

"But let this warning be clear. From now on, if German or Italian vessels of war enter the waters, the protection of which is necessary for American defense, they do so at their own peril."

There was an echo of a bygone shooting war when Mr. Roosevelt flatly accused Germany of waging "ruthless . . . unrestricted submarine warfare." It was the resumption of unrestricted submarine warfare early in 1917 that brought the severance of diplomatic relations with Germany which preceded the United States entry into the World war.

As for the "unrestricted submarine warfare of 1941," President Roosevelt said the United States was ready to deal with it in defensive waters "no matter what it takes, no matter what it costs."

The speech contained only the vaguest indication of what parts of the sea were held to constitute "defensive waters." It made no mention of any decision to seek repeal of the neutrality act, and it was completely silent on the subject of the third axis power, Japan—a silence some thought was significant.

In speaking of "defensive waters," Mr. Roosevelt made only one point clear—that the seas immediately surrounding all American outposts were so considered.

$2,660 in Food Stamps Bought Here in August

Ward Store Manager

G. A. FRAHM

Who recently came to this city from Menomonie, Wisconsin, to assume the post of manager of the Thief River Falls Montgomery Ward store, succeeding M. G. Peterson, who was transferred to the management of the company's Grand Forks store.

One hundred and thirty seven Pennington county families purchased $2,660.00 in orange food stamps last month and were given free an additional $1,330.00 in blue food stamps, for a total August food stamp transaction of $3,990.00.

This means that extra farm commodities worth $1,330.00 were distributed in Pennington county during the month through the food stamp plan of the United States Department of Agriculture to 655 persons, John X Lynskey, executive secretary of the county welfare board, announced today.

Mr. Lynskey called attention to the fact that blue stamp dollars represented new dollars in the community because they were used to purchase supplemental foods made available to participants in the food stamp plan without added cost.

The total case load of eligible cases for Pennington County is 327 cases and participation to date is 41 percent. Mr. Lynskey stated that the goal of both the state welfare department and the Surplus Marketing Administration is 100% participation in this county.

NEW OUTLETS FOR DEFENSE STAMPS CREATED IN CITY

Several Local Stores Volunteer Aid in Savings Program

Cooperating with the national administration in "Retailers-for-Defense" Week, now being observed thruout the nation, a number of Thief River Falls stores are joining in the sale of national defense stamps issued by the United States treasury department, it was announced today by E. B. Benson, chairman of the merchants committee of the Civic and Commerce association.

The stamps, heretofore sold locally only at the postoffice, come in denominations of 10c, 25c, 50c, $1 and $5. Booklets are provided for saving them, and when as much as $18.75 is accumulated they are exchangeable for defense savings bonds, which draw a substantial rate of interest.

It was explained that the purpose of the defense savings program is three-fold: The money invested in bonds and stamps is used to buy essential equipment for the armed forces; buying bonds will help to prevent inflation; and after the war the savings will provide a cushion for the period of readjustment.

Postmaster Andrew Anderson today expressed appreciation of the part the stores are undertaking in the sale of defense stamps.

"A high school romance ended in matrimony on Sunday, August 24, when Lt. William H. Mattison of Fort Monmouth, N. J., and Miss Peggy M. Shea, daughter of Mr. and Mrs. Charles D. Shea of Brookings, exchanged nuptial vows at the Star of the Sea church, Long Branch, N. J., in a military wedding. The Rev. Attendants were Lt. and Mrs. John Ramey of Long Branch. Mrs. Ramey, a cousin of the bride, wore a black street-length frock and a gardenia corsage.

Immediately after the ceremony a wedding luncheon was served for the party at the Garfield-Grant Hotel. Lt. and Mrs. Mattison then left for a wedding trip to New York City. They will be at home at 135 Elmwood Avenue, Long Branch, N. J. after September 1.

Lt. Mattison, son of Mr. and Mrs. M. A. Mattison of Brookings, formerly of this city, is with the Signal Corps of the United States army. He attended grade schools in Thief River Falls and Brookings, high school in Brookings, and graduated from State college in 1940.

Microscopic Eyes

One of the strange cases of unusual eye development in a human being is that of John Hertop, who lived about half a century ago in Birmingham, England. He suffered an affliction which impaired his eyesight. Nature, in attempting to overcome the handicap, caused the cornea of the eye to become greatly enlarged, with the result that he had almost microscopic vision. Possibly his eyes grew to be somewhat similar to those of birds, whose well-developed corneas are chiefly responsible for a sharpness of vision 100 times greater than the visual acuity of human beings, comments the Better Vision Institute.

A group of grand lodge, grand encampment, department council and Rebekah assembly representatives met at Warroad this week to outline the winter's activities of all of these branches of the order in Region No. 4 which comprises that area lying north of Mahnomen and west of Cass Lake.

The meeting was called by C. Herb Jung, district deputy grand master of district No. 35 by request of the grand lodge. The district deputy was accompanied by Mrs. Arno Steinhauer who represented the Rebekah assembly, and Mrs. Jung and Mrs. Iver Bugge.

She will be at Thief River Falls on Thursday evening September 25th when she will visit the local Rebekah Lodge.

Newspaper Reading

Some psychologists say a person's interest in life can be measured by his newspaper reading habits. If he finds at least one story of interest to him on each page, he probably lives a "well-rounded life."

Production Increased

In the textile industry's five main branches, said Emil Rieve, president of the Textile Workers union, mechanization has reduced employment 20 per cent in the past 20 years, while production has increased 25 per cent. To illustrate his point, Mr. Rieve testified that since 1919 machinery has increased the productivity of each employee in the silk and rayon industries by 145 per cent; in knit goods, 86 per cent; in woolens, 77 per cent.

RAINY WEATHER CONTINUES WITH .87 INCH TOTAL

Heavy Damage to Unthreshed Grain Results from Long Wet Spell

With rainy weather continuing in this locality again this week, heavy damage to unthreshed crops in the area due to the long-continued excessive moisture is assured. An estimated one-third of the crop remains to be threshed, and wheat, oats and barley standing in shocks have deteriorated materially.

Precipitation in a series of showers during the week aggregated .87 inch. Rain fell Friday, Sunday, Monday night and again last night, the heaviest rainfall of .68 inch being recorded Monday night on the power plant rain gauge.

Heavy storm clouds passed over this locality Monday afternoon and again in the evening, without effect here. However, the Hallock community was visited by a severe hailstorm that afternoon accompanied by 1.20 inches of rain, which caused further crop damage.

At the community meetings next Monday night, three community committeemen, two alternate committeemen and one delegate to the county convention will be elected. Each farmer has been notified by the county committee where their community meeting will be held.

Grows Lavender, Aids Neighbors

Through the experiments of an industrialist, Hubert D. Bennett, a new industry may spring up in islands in Lake Erie. He bought one of the islands a few years ago, and began experimenting with the growing of lavender. And the plants grew. He knew that the United States imported about $1,000,000 worth of lavender from France, but he also knew that the people living on the islands could not compete with the French who harvest the lavender by hand. So he invented a harvester and kept the people who were gradually moving away (grape raising and farming were on the decline) on the islands. The neighbors on the islands are now checking the yield for quality, quantity and its possibility for commercial use.

LOWER HOUSE OF CONGRESS PASSES RECORD TAX BILL

Nearly 5,000,000 More Persons Will File Income Tax Returns

The lower house of Congress approved a $3,553,400,000 compromise version of the new, record-breaking defense tax bill Tuesday and sent it to the senate where final passage Wednesday appeared certain.

By approving without a roll-call vote the recommendations of a joint senate-house conference committee which worked out an agreement on changes made by the senate, the house members avoided going on record regarding the senate's action in lowering personal income tax exemptions from $2,000 to $1,500 for married persons and from $800 to $750 for single persons.

The reductions will require 4,930,000 additional persons to file income tax returns but only about 2,275,000 will be taxable. They will contribute about $47,000,000, the treasury estimated, but the lowering of the exemptions will boost the bills of present taxpayers by about $256,000,000.

Football Expert Picks Gophers as Top Eleven

Minnesota is picked as the top team of the coming football season by Francis Wallace in his fourth annual "Pigskin Preview" appearing in the current issue of The Saturday Evening Post.

"Bruce Smith of Minnesota will be the back of the year," says Wallace. "With an even break in luck, he may be regarded as a better all-round back than Harmon."

Coach Bernie Bierman and the Gopher powerhouse get a big play from Wallace as he attempts to outline for millions of Post readers what is going to happen this fall and early winter.

BEAM CRUSHES ANIMALS, BUT BOY'S LIFE SPARED

Fergus Falls—Otis Symonds credits a mule's collar with saving his life. During a recent storm Otis was in the barn when the structure gave way. One of the large beams rested on the mule and a nearby horse. It was really the collar of the animal that kept the timber from crushing him to death. The fact that the animals were being crushed to death was more terrible to the young lad than the pain he actually suffered.

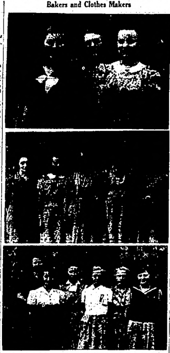
DAUGHTER FINDS MOTHER SHE NEVER KNEW BEFORE

Columbia Heights—Imagine the joy experienced by Mrs. Joseph Duray when recently she met her mother for the first time in 36 years. The reunion took place at the Duray home and climaxed years of effort spent by the lady, who wrote to numerous sources in an attempt to find her mother. Mrs. Duray was adopted at the age of five—having not since that time been able to learn her mother's name.

DRAIN IN HIS BUSINESS, BUT A VALUABLE ONE

Lindstrom—Ray Horton, Lindstrom business man, lost no time in calling a plumber when recently his eyes centered on a drain in his ice cream fountain. His alertness was well rewarded, for plumber Albin Tornell opened the pipe and found $2.90 in change right in the neck of the drain. Roy promptly paid Albin a dollar for his services, rang up the other $1.90 in the till and happily continued his work.

Bakers and Clothes Makers



Leaders and members of the Benville and Big Grass 4-H Clubs were recognized for their achievements at the Grygla celebration Saturday. In the top picture are Helen Rasmussen, Beltrami County's 4-H representative in the bread baking contest at the State Fair, Mrs. C. M. Lunde, Benville Club leader, and Adeline Nygaard, who represented the county at the State Fair in the cake baking contest. Incidentally, Adeline was Beltrami County's health champ this year.

In the center picture, left to right, are Mrs. John Thieling, leader of the Big Grass 4-H workers, and Angela Anderson, Bette Thieling, Adeline Mattson and Shirley Bush, wearing the dresses they had made in their sewing project.

In the lower picture are some of the Benville Brigadiers, Mrs. Alfred Rasmussen, leader, and Marion Bush, Alla Mae Dalen, Audrey Hylland, Phylis Teigland and Inger Nygaard, wearing the dresses they had made in their sewing project.

CALF BORN AT CLARISSA ONE OF WORLD'S SMALLEST

Clarissa—A Holstein heifer calf weighing only twenty-six pounds and about the size of a small dog was born recently on the C. M. Wahdahl farm north of Clarissa. The animal is still thriving and is thought to be one of the world's smallest living calves. It can go on record as one of the lightest to be born in this vicinity, and is undoubtedly the smallest ever seen in this part of the state.

The "average" North Carolina farm of 1939 had a live stock population of a mule, a milk cow, four hogs, and 33 chickens.

Kitty's Komments

Mrs. Smith was seething with anger—positively boiling over with rage. And she couldn't lay a hand on the culprit. She was blaming herself—yet she had not committed the deed!

Oh! What a mess! All her best white linens blotched with spots of bluish black! She felt like sitting down and giving way to a good cry. And the little fellow who had thrown Daddy's old black work sock in the wash with the linens (when mother's back was turned) didn't know what to think of Mummy's tight-lipped countenance and angry manner. Why, he had only meant to help Mother with that horrid old wash!

And so it was Mother sat right down with her little helper and told him he must never put anything in the washer (which she should have done before), but that he could help her by sorting the clothes.

By the way, the linens lost every black stain by going through a bleach.

MINNKOTA PLANT DIRECTORS ACT TO BUY 3 NEW DIESELS

Make Plans for Dedication of Grand Forks Plant October 18-19

Officers of the Minnkota Power Cooperative were authorized to sign contracts for three additional Diesel engines at the first meeting of the board of directors in the new genearting plant in Grand Forks Tuesday night.

The board also authorized a contract with C. F. Lewis, construction foreman, for the installation of the new engines.

Plans for dedication ceremonies of the Minnkota plant here October 18-19 were outlined by Manager A. L. Freeman. A dinner for directors of cooperatives served by the plant and others connected with the organization is set for the night of October 18, with formal dedication program the following day. Speakers at the program will be headed by Harry Slattery of Washington, D. C., REA administrator.

Registrants Asked to Prepare for Army Life

"Consult your doctor and your dentist to correct any remediable physical defects before you are called for examination by your local boards," Lt. Col. Richard H. Hullsiek, state medical director of selective service, urged all Minnesota registrants today. Statistics compiled by national selective service headquarters show a high rate of rejections of registrants for remediable physical disabilities. Consequently, it was suggested that registrants awaiting call for military training should endeavor to fit themselves for acceptance not only as a patriotic duty in a period of national emergency, but also in the interests of public health and personal well being.

Technological Changes

Technological changes have taken the jobs of 78,140 coal miners in the past 15 years, said Thomas Kennedy, secretary-treasurer of the United Mine Workers. Improved machinery, he said, was one blade of an "economic scissors," which reduced the number of men needed to mine a ton of coal. The other blade was "greater efficiency in heat engineering and competition from other energy sources," which reduced industry's requirements for coal. Between 1923 and 1938, he said, anthracite consumption had been reduced 47,200,000 tons a year, and bituminous consumption 119,000,000 tons.

son of Mr. and Mrs. C. M. Lunde, entertained the celebration audience at Grygla Saturday with the recitation that won him fourth place in the class B declamation contest at the State Fair where he represented Marshall County 4-H-ers. It must have been an elephant that stepped on his foot.

Carrie Nation Jailed 33 Times

Carrie Nation was the daughter of George Moore of Kentucky. She was married twice, the second time to David Nation, editor of a weekly newspaper. Her first campaign against the sale of alcoholic liquors was made June 6, 1899, when she wrecked a place at Kiowa, Kan. She became known as "Smashing Carrie Nation," but her followers called her "Loving Home Defender." She traveled throughout the United States, Canada, Mexico, England and Scotland and was jailed 33 times. Her last raid was in Union Station, Washington, D. C., and she died soon afterward at the age of 65 years in 1911.

NATIONAL LEGION TAKES AGGRESSIVE POSITION ON NAZIS

U. S. Convention in Milwaukee Asks Neutrality Act Repeal

The American Legion national convention in Milwaukee, by voice vote, Wednesday indorsed the foreign policy of the president and congress and urged immediate repeal of the neutrality act and removal of all geographical limitations on movement of the United States troops.

The delegates swept aside a minority report which sought to forbid the national administration from giving lend-lease aid to Soviet Russia. A roll call vote—first of the convention—showed a count of 874 to 604 in favor of tabling the report.

The defeated minority report oof the foreign relations committee resolved: That the American Legion reiterate its oft stated position on Communism and definitely go on record as opposing aid to Russia under the lease-lend act."

The defeat of Adolf Hitler is "our present national objective" the convention decided, and then voted a demand that "if fighting is necessary to defend the United States, we insist upon being prepared to do the fighting outside of the United States."

EXCESS HAY PROVES COSTLY AT PRESTON

Preston—Martin Sathre purchased a load of hay in the country for six dollars, but soon found out that all in all the transaction made was not such a bargain. By the time he had hauled the hay to town, Martin had invested double the original cost. As he entered town, he was fined by the highway patrol for carrying a load wider than the law permits. Innocently he paid the fine and left the court a much wiser man.

A round of cheers to the organizations and the individuals who are building a community dock. A boat landing will do much to encourage boating on the river and boating on the river will do much to create interest in the possibilities of river development. The building of a public dock is an important community development.

It is the unusual that makes the most interesting news and so we pass along to our readers the information that it didn't rain yesterday. Several of our operatives observed that highways were dusty and one spy reported that threshing rigs had gone into action during the afternoon. This morning, however, the ground had its usual wetness. The wet season seems to be still with us.

Senator Nye thinks the movie makers should be impartial and should give us a picture now and then that would present Hitler's point of view. O. K. Senator, let's try it out and see how it works. Send a film up here to Thief River Falls that builds Quisling up as a Norwegian hero. We are not sure of course how it would be received. With adequate police protection it might be possible to run it through twice. Our guess is that that would be the limit in any one show house. After that there wouldn't be any theater left. You may be right Senator and we may be wrong. If you really believe we can be taught to love Quisling Thief River Falls would be a fine place to make the test.

Saturday will be 4-H Achievement Day at the fair grounds, an important event to the youngsters who participate in the competition. It is important too because by this competition we are developing better future citizens. We can think of a lot of reasons why we should be worried about the future. We can prove conclusively that the country is going to go to the bow-wows. But when we get out among the young people and see them at their work and at their play we know that the dreadful things we think might happen just aren't going to happen. And that is why we are glad Achievement Day is here again. It's going to enable us to help ourselves to an extra big portion of encouragement again. A couple of hours out there on the lot with the kids is going to serve as a tonic that will keep us cheerful for weeks to come.

The sidewalk crew is at it again, which reminds us that most of the sidewalks in the business section of the city are now in excellent condition. Not so a few years ago. There was a time in the not too distant past when Thief River Falls sidewalks were about as easy to walk on as a frozen stubble field. Now there are only a few spots that should be marked by a red lantern on dark nights.

Herbert Hoover says we should give all possible aid to the democracies but we should be careful so as not to get involved in the war. That sounds a lot better to us than Lindberg's advice but it still doesn't make sense. It is impossible to help the democracies without offending the dictators and giving them assistance in any form might conceivably involve us in a shooting war. Lindbergh urges Hitler's opposition to quit struggling. No use fighting, he says, because Hitler is going to win anyhow. In other words, according to Lindbergh, we might as well start heiling Hitler right now. But Hoover hates Hitler; says he is a bad guy that can't be trusted. We shouldn't be angry with him however—at least not let him know we are angry. If we understand Hoover correctly, the crafty thing for us to do is to make Hitler think we love him but at the same time try to sneak a few supplies over to his enemies. Well, somehow, that just doesn't appeal to us. As far as we are concerned, Hitler is either a force to be feared or he is not a force to be feared. If he isn't dangerous then why all this arming for defense. If he is dangerous, then the quicker he is checked the better for all concerned, and if we fail to do anything that we possibly can do to help check him then we are plain stupid. War is not a pleasant thing to anticipate but we'll take it in preference to slavery.

TWO SETS OF TWINS BORN IN SAME MONTH

Milaca—To witness the birth of a pair of twin calves is a thrill in itself, but to have the same procedure happen twice in one month is a rarity. Nick Johansen, Pease farmer, will vouch for this. Two sets of Holstein twin calves were born on his farm during the 31-day period. This is the third set of twins born on the Johansen farm in three years.

A STRANGE SITUATION BUT ALL IS SOLVED

Preston— County Attorney Clarence Perkins is quite depressed, considering the fact that he purchased a new automobile, which he later found was too large to fit into his garage. In fact he measured both the vehicle and the garage, and found that there was approximately 18 inches about which something would have to be done. All turned out well and good, however, for a carpenter was summoned and the garage now supports a bay window.

GET PRIZE CATCH, 500 POUND BEAR

Grand Marais —Although the leaves are changing to a golden hue and winter is rapidly approaching, bigger and better fish stories are being told every day. Take, for instance, the case of Jess Friedhelm and Olaf Bjerken who were fishing and snagged something heavy. They towed the catch ashore, only to find that their efforts yielded a dead bear whose weight was estimated at 500 pounds. Game wardens were called and disposed of the carcass.

FINDS LOCKET LOST IN 1920 CYCLONE

Grey Eagle—In the year 1920 a cyclone destroyed the Jay Wilson home, taking with it a locket belonging to the mother of a certain Charles Wilson. Recently, more than 21 years following the occurrence, the locket was found by Charles in a cornfield. The article was still in good condition, although a photograph which was enclosed in it was badly faded.

SELF-CONTROL

Jones had not been himself for some time. So he hied him to a practitioner and explained all his aches and pains. Having listened through a long tube for interior disturbances, the doctor delivered himself thus:

"Liver's all wrong. You must live by system for a few weeks. No fat meat, no tea, salmon, potatoes, or sugary substance, and no whisky. Small chop, a very little wine, one cigar a day. You can make it a big one, but never more than one."

Jones departed only to return in a week looking pale and wan.

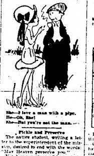
"How now!" said the doctor. "Have you followed my instructions?"

"Oh, yes. I have managed to restrict myself to the chop and the wine, but that big cigar a day has done for me," replied Jones.

"Oh, nonsense! You must try to control yourself," counseled the doctor.

"Control myself! I should like to see you control yourself if you had never smoked before!"

NOT THE MAN



She—I love a man with a pipe.
He—Oh, Rae!
She—But you're not the man.

Pickle and Preserve

The native student, writing a letter to the superintendent of the mission, desired to end with the words: "May Heaven preserve you."

Not being quite confident of the meaning of "preserve," he looked it up in a dictionary. When the letter reached the superintendent, it ended with the words: "And may Heaven pickle you."

Saddest Cases

Attendant (in the padded room at the asylum)—And this room contains the saddest cases of all: the old time auto mechanics.

Visitor—But I don't see anybody in the room at all. Where are they?

Attendant—They're all under the beds, working on the springs.

Anne and Mabel

Groom-To-Be—And now, Doc, that I've told you I'm going to marry Anne, there's one thing I want to get off my chest.

Doc—You just tell me about it, my boy.

Groom-To-Be — A tattooed heart with the name Mabel on it!

Farm and Implement News

YOU ARE INVITED—

We are happy to announce the new 1942 NASH and STUDEBAKER cars are here.

We have set Friday the 19th as our special day for showing of these new cars.

This is your invitation to come and see the most beautiful cars ever produced.

These new Nash and Studebaker cars are especially the outstanding preference for these times when economy is so important under our National defense program.

These new beautiful cars will give you from 25 to 30 miles to a single gallon of gasoline.

They are outstanding in every way and we want you to call and get the whole story.

We shall be looking for you and if not on the 19th, come later. We know you will be more than pleased as well as greatly surprised.

USED CAR CLEARANCE

That's just what we are going to do, clean up and make room for the new business on 1942 trades.

We have some wonderful values in late model cars—1936 to 1941 models and prices cut to make each an outstanding value.

Yes and we also have cars as low as $25.

Quite a few trucks, pick-up models and large trucks, from $75.00 to $625, and that $625 truck has a new motor and is a 1939 truck that looks and is like new.

If you are looking for something in the best bargain on used cars or trucks, we have them.

USED TRACTORS AND MACHINERY

Only 5 used tractors on hand now: 2, 10-20; 1, F12; 1, 114 and a 15-30, all McCormick-Deering. Several tractor plows, 1 used Field Cultivator, 2 Disc Harrows, a Potato Digger and some other machines of fall requirements and we are in a position to place bargain prices on all.

Topics of the Times

By N. A. H.

It may be out of date to make a forthright declaration of war, but President Roosevelt's address last Thursday evening was reasonably accurate facsimile.

After nosing out the Red Lake Falls football team by an elephant's nose, the Lincoln school Prowlers have aroused big expectations in local fans.

Here's hoping there will be at least one prairie chicken for each hunter.

It all depends on whose ox is gored. Now the Nazis characterize as contemptible the RAF bombing of German cities.

Paradox: A sign has been noted in a hospital maternity ward reading "No children allowed".

The stage is all set for the annual festival of falling leaves.

A British society is promoting a home for aged golfers, and a colleague wants to know how old a golfer has to be before he becomes interested in a home.

The sad fact remains that the drastically higher federal taxes now in prospect will scarcely make a dent in the treasury deficit.

Hitler seems to have found his diet of Russian bear meat unexpectedly tough.

When butter, eggs and other farm commodities go up a few more notches, the honeymoon between labor and the farmer will be over.

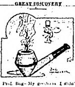
They'll soon have to stage a cleanup in Crookston. That town has ordered 20,000 rolls of serpentine for a carnival night early in October.

Gopher Coach Bernie Bierman is again confronted with his pre-season task of discounting fans' expectations of another championship football team.

PLAYER PAYS DEARLY IN FREAK MISHAP

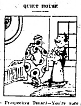
Springfield—Following the manipulation of a pinball machine in an effort to reap a profit, Charles Hillesheim discovered that it was not the machine but rather he that paid, and paid dearly. When Charles reached in the payoff box to claim his winnings, a bystander gave the drawer a shove, and the sharp edge of the box took off the end of the players finger. The digit was amputated slick and clean. Moral of the story is that a pinball machine is sure to get its "Out", be it by fair means or foul.

GREAT DISCOVERY



Prof. Bug—My goodness, I didn't know there were any active volcanoes around here!

QUIET HOUSE



Prospective Tenant—You're sure this is a nice, quiet house?

Owner—Madam, this is a well-behaved house—I've never heard it make a sound in my life.

Looking Backward

1931—TEN YEARS AGO

A disastrous forest fire east of Grygla ravaged farms and woods in the Fourtowns area, causing heavy property loss and claiming two lives, the dead being Marvin Myrold, 20, and George Vogen, 65. Local people and various agencies brought relief to 25 homeless families. —Roy Oen, student at the University of Minnesota, was a likely candidate for the Gopher football team.—The county fair association added to its holdings by buying four additional acres of land from Mrs. Anna Barzen.—The board of education reduced the school district tax levy one-half mill to 44.7 mills.—Rev. Harry L. Sjogren of Lafayette was installed as pastor of the Augustana Lutheran church.

1921—TWENTY YEARS AGO

The Thief River Falls Tribune will be taken over October 1 by J. S. Arneson.— W. W. Prichard, sr., was elected president of the Pennington County Public Health association.—M. C. Burns is out again after having been confined to his home for several months by injuries sustained in a fall from a ladder. —Bernard Barzen returned to Milwaukee to complete his studies at Marquette University. —A number of local hunters who went out in quest of prairie chickens brought back the limit.

315,260 AT STATE FAIR VISIT TOURIST BOOTH

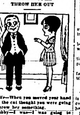
Practically half of the record crowds which thronged the Minnesota state fair this year viewed and admired the state tourist bureau's mammoth display, records kept at the conservation department's building reveal, Victor A. Johnston, bureau director, reports. These records show that a total of 315,260 persons passed before the tourist booth in the conservation building, during the 10 days of this

Early Morning Talk

Horace—Well, good night, Mazie. I hope I haven't kept you up too late.

Mazie—Oh, no, Horace, not at all. I should have been getting up soon anyway.

THROW HER OUT



Wife—When you moved your hand then the cat thought you were going to throw her something.

Hubby—I was—I was going to throw her out.

Some Hope

Patient—But, Doctor, suppose this operation is not successful?

Doctor (trying to be cheerful)—Oh, don't let that worry you. If it isn't a success you won't know it—and what you don't know won't hurt you.

Serious Mistake

Friend—And have you ever made a mistake that had serious consequences?

Specialist—Just once. I cured a millionaire in two consultations.

Misnomer

Miss Talkalot seated herself between two men and exclaimed: "A rose between two thorns."

"No," replied one, "say rather a tongue sandwich."

Types of Farming

Prof—How many kinds of farming are there?

Elmer—Four—pretensive, extensive, intensive and expensive.

Turned Over Something

Mrs. Fink—Did your husband turn over a new leaf New Year's?

Mrs. Brink—No, but he turned over a new car.

On the Funny Side

GUARANTEED DEPOSIT

An old Indian, down in Oklahoma, hard up, went to the bank to borrow $100. The banker said it would be all right, provided he had some security. The deal finally was made, the Indian giving a mortgage on 20 ponies.

Not long after that, oil was struck close to the Indian's allotment, and he sold his oil lease for a lot of cash, so he stepped into the bank and peeled off a $100 bill to pay the loan.

"That's fine," remarked the banker, when the business was completed, "but you don't want to carry all the rest of that money around with you. Better leave it here with me."

"All right," replied the redskin, "how many ponies you got?"

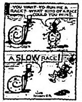
Fast Talkers

Two men in a car went past the traffic lights when they were red, and were stopped by a policeman.

"I'm sorry, officer," said the driver, thinking quickly. "I happen to be a doctor and I'm taking a patient to the asylum in a hurry."

The policeman was suspicious—but the passenger was just as quick. Looking up at the constable with a seraphic smile, he whispered: "Kiss me, darling!"

They got away with it!



YOU WANT TO RUN ME A RACE? WHAT KIND OF A RACE COULD YOU WIN?
A SLOW RACE!

Innocent

With a wild lurch, the motor-car swung round the corner and crashed into a lamppost.

Then six men, who had obviously been celebrating, climbed out of the wreck and stood eyeing it owlishly.

Up came a policeman to take particulars, but the spokesman of the party forestalled him.

"Sall right," he said; "no one's fault. There's no-hic-one to blame. We were all riding in the back seat."

Reason Enough

The summer boarder asked: "Why is it that old hog keeps trying to come into my room? Do you think he has taken a fancy to me?"

Little Willie explained it. He whispered: "Why, that's his room during the winter."

Here's Why

Mettler—How do you account for it that Milt hasn't said a word about the fish he caught on his last trip?

DeLancey—For once, he had good luck and he caught so many that he knew nobody would believe him if he told about it.

MIGHT BE WORSE

A woman put her head over the garden wall and addressed her neighbor.

"A family has moved into the empty house across the way, Mrs. Jones."

"Yes, I know."

"Did you notice their furniture?"

"Not particularly."

"I wouldn't give a five-dollar bill for the lot. Carpets! I wouldn't put them in my kitchen. And the children! I won't allow mine to associate with them. The mother looks as if she had never known a day's happiness in her life. The father drinks, I expect. Too bad that such people should come into this neighborhood. I wonder who they are?"

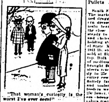
"I know them."

"Do you? Who are they?"

"The woman is my sister."

There has been trouble in that street ever since.

UNKIND, INDEED



"That woman's curiosity is the worst I've ever seen!"

"You shouldn't speak of her husband that way."

Swallow That One

Heard at soda fountain:

Youth (after lamenting that he wasn't married so he could have his breakfast at home, instead of in a drug store)—"Gimme a cup of coffee and—

"Cream doughnuts?" ventured the attendant.

"No."

"Jelly doughnuts?"

"No, I'm sick of cream doughnuts and jelly doughnuts."

Feminine Customer (at far end of counter)—"Fry him a hard-boiled egg."

Next Department, Please!

Spinks, who runs a small village store, had spent a day touring the large shops in London. He returned with several new ideas for his own small business.

A customer entered and asked for a penny packet of postcards. Spinks took his shop-ladder, mounted to a high shelf, fetched down a box full of stationery which he placed at the other end of the counter. Then he said, briskly: "Now, madam, if you will just step up to our stationery department . . ."

Less the Better

A teacher was explaining fractions to her class.

"Now, John," she said, "which would you rather have, one-fourth of a gooseberry pie or one-half of a gooseberry pie?"

"One-fourth," replied Johnny.

"Tell us why," answered the teacher, somewhat chagrined.

"Because I don't like gooseberry pie," was the answer.

South St. Paul, Minn., Sept. 16, 1941: The market for slaughter steers continued draggy, further losses in the eastern dressed beef market acting as the main bearish influence. Compared to the close of last week, values were steady to 25c lower, only strictly good and choice yearlings and light steers holding steady according to the Federal State Market News Service. Choice 1041 lb. steers and choice 968 lb. heifers sold at $12.50 to establish the week's top. Bulk of the steer supply consisted of medium and good grades which brought $9.50 to $11.00. Good grass fat steers reached $10.75, heifers were steady to 25c lower and while canner and cutter cows held steady, beef cows definitely favored the weak side. Bulls and vealers held steady, stockers and feeders were steady to weak, instances 25c lower. Good to choice yearling feeders brought $11.25 and good stock calves reached $11.75.

The downward trend which had its beginning late last week in the hog division, sent most barrows and gilts tumbling 15c to 25c with spots off 40c on light lights, while sows, taking a more severe pounding, lost 25c to 40c, the heavier weights showing the most loss. Tuesday's top was $11.80 with the bulk of the good and choice 180-270 lb. barrows and gilts selling in an $11.35 to $11.80 range. Heavier weights were scarce, scattered lots ranging from 270-300 lb. moving at $10.85 to $11.60, and some extreme heavies down to $10.50. Most 140-170 lb. averages brought $10.65 to $11.10. Good sows under 400 lb. sold from $10.00 to $10.25, while heavier weights ranged from $9.75 to $10.15.

All classes in the sheep division sold on a steady basis. Western spring lamb arrivals totaled 69 cars for two days with some of these removed from the market and forwarded. Good to choice range springers sold at $11.50, while similar grade natives cashed from $11.25 to $11.35. Choice slaughter ewes were taken up to $5.25. Range feeders scaling 68 lb.-76 lb. brought $11.50, while natives sold around the $10.60 mark.

Seven Years Bad Luck

The curious and widespread notion that to break a mirror brings seven years of bad luck originated with the Romans about the First century of the Christian era. They believed that the health of a person changed every seven years, and since the mirror reflected the health, or appearance, of the person, to break it meant to break the health appearance for seven years. Hence grew the belief in seven years of bad luck.

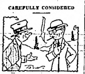
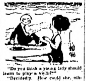
CAREFULLY CONSIDERED



His Friend—I hear you married an old maid. Why didn't you pick a young girl or a widow?

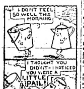
Mr. Multiwed—Not for me. A young girl's too flighty and a widow's too bossy while an old maid's always thankful and eager to please.

A NECESSARY ART



"Do you think a young lady should learn to play a violin?"

"Decidedly. How could she, otherwise, require her husband to dance as she fiddles?"



I DON'T FEEL SO WELL THIS MORNING
I THOUGHT YOU DIDN'T—I NOTICED YOU WERE A LITTLE PAIL!

"Blue Blood" Pedigree

Those with "blue blood," who boast of their Norman pedigrees, are with few exceptions wrong, as there is hardly a family in England whose pedigree goes back to the Norman conquest. Most of the pedigree faking, according to science, dates back to the time of Queen Elizabeth when many newly rich persons wished to prove how noble their families were. To meet this demand fake trees were compiled.

LAVERNE RONDORF GOES TO FORT LEONARD WOOD

Laverne Rondorf, Pennington county selectee who recently went to Fort Snelling, was assigned Tuesday to the engineer replacement training center at Fort Leonard Wood, Missouri.

Crookston H. S. Will Meet Prowlers Friday

The Lincoln high school Prowlers opened defense of their conference football championship with a convincing 24 to 0 win over Red Lake Falls in the season's inaugural game played here Friday night. The Prowlers will meet another conference opponent when the Crookston Pirates invade Lincoln field for a game under the lights.

Friday night's game saw coach Harry Newby's boys play a surprisingly fine brand of ball for an early season game. The Prowlers, with Luther Fjelstad calling a tactical game at quarterback, set up their plays smartly and ably fulfilled their blocking assignments. The Prowlers tallied their first touchdown midway in the opening period. An early scoring threat, when the locals received the kickoff, and with Morris "Mouse" Efteland leading the attack, had reeled off three successive first downs, had been stopped when a 15 yard penalty set the Prowlers back to mid-field, and forced Fjelstad to punt.

Red Lake Falls, from their 25 yard line, lost five yards on their first running play, with end Roman Paulson crashing through to spill Maurice Guerin for the loss. Guerin was injured on the play and forced to leave the game. Red Lake Falls punted out to their 40 yard line. "Guernsey" Gjernes slashed off right tackle for 9 yards; Fjelstad powered through right guard for a first down on Red Lake's 27 yard line; Efteland knifed through tackle for a 10 yard gain, to the 17 yard line; "Mouse" picked up 2 yards on a dive over left guard and Don Olson; taking the ball on a reverse, out-ran the Red Lake Falls flank-men to score on a 15 yard sweep of left end; Fjelstad's try to the extra point was blocked.

Thief River's second touchdown was scored early in the second period. The Prowlers recovered a fumble on Red Lake Falls 35 yard line. Gjernes picked up 12 yards around right end; Don Olson, on a reverse, made a 21 yard gain around left end, carrying the ball to the Red Lake 5 yard line; Efteland nudged the line for 3 yards; and Fjelstad, on a push through center, scored the touchdown; Fjelstad's try for the point was partially blocked.

The Prowlers third touchdown was set up in a similar manner, with Orrin Pederson recovering a Red Lake Falls fumble on the 35 yard line. Eddie Chommie, playing at left half, made 5 yards on a run through right tackle; Don Olson ran his ground-gaining specialty, a reverse, for 23 yards, around left end, to the Red Lake 16 yard line; Chommie whipped a pass to Luther Fjelstad, who took the ball on the 6 yard line and scampered across the goal line for the touchdown. Fjelstad's try for conversion was made.

The Prowlers scored their final touchdown a few minutes after the kick-off in the second half. Red Lake Falls received the kick off, but after failing to gain punted to Gjernes, who made a five yard return, to Red Lake's 40 yard line. Gjernes circled right end for 7 yards; and added 7 yards, and first down, on a drive through [illegible] tackle. After receiving a five [illegible] penalty for off-side the Prowlers sent Don Olson around left end for a 20 yard gain. A pass, Gjernes to Fjelstad, was completed on the Red Lake Falls 8 yard line; and on a delayed off-tackle smash, Gjernes went over for the touchdown; for the extra point was low.

Handicapped greatly by the loss of Guerin, their left half, who suffered a fractured ankle in the first period, the Red Lake Falls attack was ineffective, and only in the waning minutes of the first half, when coach Newby had a number of Prowler reserves in the line-up, was Red Lake Falls able to cross mid-field and penetrate Prowler territory, reaching the Thief River 27 yard line.

Outstanding in the play of the locals were backfield men Orlin Gjernes, Luther Fjelstad, Morris Efteland, Don Olson, and Ed Chommie; and line men Don Berg, Roman Paulson, Orrin Pederson, Johnny Dahlow, Connie Geston, Pete Michalsky, John Berry, and Doug Snelling.

The line-ups:

T. R. Falls (24)	Pos.	R. L. Falls (0)

Keeping Score

.... With BUCK OLSON

I'm Still a Skeptic

I'm somewhat doubtful about believing that the Prowlers are as fine a ball club as their performance against Red Lake Falls would indicate. I'll withhold judgment on the boys until they've passed the Crookston game tomorrow night, the East Grand game on the 26th, and the Bemidji game on Oct. 3rd. If the Prowlers handle those teams with the same finesse with which they "took" Russ Munson's team I'll be convinced that the locals are beter than a fair-to-good outfit, and agree with Warren's Herschel Lysaker (who scouted the game here Friday) that the Prowlers, this year's edition, are one of the best teams Thief River has had.

Of course Red Lake Falls was handicapped greatly when Maurice Guerin, their ace left half, was forced out of the game early in the first period when he suffered a compound fracture of an ankle. Guerin's loss did hobble the Red Lake attack; but it was the Prowlers offense that surprised me. Consider these figures—"Moose" Efteland, playing fullback, carried the ball 10 times and picked up 64 yards, or an average of 6½ yards a try; "Guernsey" Gjernes made 9 runs and collected 63 yards from left half, or a 7 yard average; and Don "Half mile Ole" Olson, right half, lugged the ball but 6 times, on reverses, and gained 85 yards, for a 14 yard average. And it was the blocking up in the line that made these fine gains possible. Watch Geston, Michalsky, Paulson, Dablow, Pederson, Snelling, and Berg go to work on their assignments tomorrow night.

"Bones" Stadium Helped

By the way, when you notice the crisp charge of the Prowler line, don't forget to give "Bones" Stadum due credit for some able line coaching.

The Prowlers received bad news when it was learned that tackle Bob Wright will be lost for the season. Bob's right elbow, injured in a scrimmage last week, was diagnosed as a fracture.

And the Prowlers received some good news too when it was learned that a squad of 23 or 24 will be taken, by bus, to Minneapolis on Oct. 18th, the day after their game with Warren, so that they can witness the Minnesota-Pittsburgh game. The Prowlers will be given transportation and lodging, so all they'll need pay will be the 55 cents admission and a couple of meals. It's hoped that such a Minnesota trip can be established as an annual event.

And here's a note to the School Board: Several of the paying customers have hinted that they would appreciate the installation of north side bleachers.

Chuck's Doing All Right

"Chuck" Dostal, manager of the city's Arena roller skating rink, states that starting Sunday, and every Sunday thereafter, there will be afternoon skating, from 2 to 4:30, for the kids, with the charge being a dime. "Chuck's" been a pretty busy fellow keeping those 328 pairs of skates in condition. The average attendance on skating nights has been about 175; with the high being 256. Frankly, the city officials are pretty well-pleased at the manner in which "Chuck" is conducting the Arena roller skating.

The Hunter's Warm-up

1,025 shot-shells were fired in the merchandise shoot at the Fair Grounds Sunday, and it is expected that several times that number will be shot today and tomorrow when the first annual "Hunter's Warm-up" is conducted. There'll be prizes for every entrant; and the event which should prove to be the most attractive is the "Hunter's Special". The "Special" will be 50 targets at a 16 yard rise, with the shooters being classed in four divisions—A, B, C, and D—according to the number of targets broken. For example, if a 100 shooters participate the shooter breaking the most targets will lead the class A, the shooter in 26th place will head class B, the shooter in the 51st place will head class C, and the shooter in 76th place will head the class D shooters. Such an arrangement should give every shooter a chance at the larger prizes; and don't forget that every entrant (in any of the events on the program) will be given a ticket to the Hunter's supper that will be held Friday evening at the Palm Garden.

There have been conflicting reports about the chicken hunting prospects. Some scouts say that there are as many grouse, and more Huns, than there were last year; while others report that there are about 10 or 15% less chickens this season. But all agree that it will be more of job to secure limits this year, for the reason that the summer's heavy rain has caused thick growth of "cover".

Miscellany

I wonder how many times Hans Chommie has played in the finals of the city golf tournament. He's in there again this year—Virgil Roby and Don Bohmer, two of the state's top-ranking golfers, will play the local course Friday. They will be up here for the opening of the chicken season.

Three Local Young Men Assigned to Army Duty

Following their recent induction into the U. S. Army at Fort Snelling, William R. Halvorson and Lloyd Overvold, selectees from the Thief River Falls community, were assigned last Thursday to service in the medical replacement training center at Camp Grant, Illinois. Kenneth Finstad of Hazel was assigned to the engineer replacement training center at Fort Leonard Wood, Missouri.

Plummer Ball Team Defeats Leonard Nine 2 to 1 On Wednesday

Harold McCrady's single in the 8th inning, with two men away, a steal of second base, and scoring on Bob Snyder's base hit to center-field, broke up a 1 to 1 tie and gave Plummer a 2 to 1 decision over the Leonard team of the Paul Bunyan league in a game played at Clearbrook last Wednesday.

With the exception of the 2nd inning when Leonard bunched two singles, and with two fielder's choices, to tack up their one score, Lefty Hovanac pitched steady ball for Plummer, scattering 8 hits and collecting 13 strikeouts.

MINNESOTA PLAN TO END DEFICITS STIRS INTEREST

Will Make Study to Inform Neighboring States of Achievement

Improvements made in Minnesota's state government in the reorganization of 1939 were given new recognition this week when it was announced that administrators of the Spellman Fund have made a grant of $85,000 for studies of methods of operation of the state's new central financial control plan.

Governor Harold E. Stassen, announcing news of the grant, said that the Spellman Foundation desires to acquaint other states with advantages of the Minnesota plan and cooperate with Minnesota administrators of the plan in seeking ways to improve details of operation and procedures. One project under consideration by administrators of the Spellman Fund, he said, is to bring to Minnesota heads of central financial control plans that have been established in other states. Minnesota officials in this way would receive the benefit of improvements developed in other states, and the visiting officials would be able to see at first hand the Minnesota financial control plan, now regarded as the best in the country.

The Minnesota plan was set up in the reorganization act of 1939 at the request of Governor Stassen. Under it, Leslie M. Gravlin, commissioner of administration, is required to pass on all allotments to state departments quarterly and must reduce the amounts appropriated by the legislature if it appears tax receipts are not going to be sufficient to pay them. No purchases can be made from any fund unless there is money in the fund to pay for them. The plan was devised to require the departments to live within income and prevent the accumulation of deficits, which had risen to huge sums prior to 1939.

Evidence of the success of the plan is afforded by the fact that the commissioner of administration in the last two fiscal years has cut approximately $2,000,000 out of budgets of state departments as granted by the legislature in order to bring expenditures within receipts and so effected a saving of that much instead of allowing deficits to accumulate.

IT HAPPENED SO FAST, BUT SNAKE IS CAPTURED

Benson,—As Henry Cates, Jr., 14, was raking grass along highway 59, one of the horses led by the lad suddenly stopped and reared back. Upon investigating, Henry noticed a snake with its head in the air waving back and forth, making a rattling sound. At this moment an approaching automobile stopped, the driver captured the reptile and claimed it. He carefully put it in the back of his car, but gave the boy no information that might explain who he was or to whom the snake belonged. Henry has reason to believe, however, that the dangerous creature escaped from a circus show, where it was probably on display.

State Draft Board Gives Rules Governing Young Men Attending College

Registrants who contemplate resuming attendance at schools this month should first consult their local boards to ascertain approximately how soon they may be called for military training, J. E. Nelson, state director of selective service, announced today.

While deferments from military training are being granted students who are preparing to enter certain occupations in which shortages of manpower exist or are indicated, there are no group or blanket deferments. Unless a student can qualify individually as a "necessary man" under selective service regulations, he is liable to be called for induction when his order number is reached.

However, it was asserted that the policy of the selective service system is to be as lenient as possible within the law in cases of young men who are earnestly pursuing educational opportunities. Sympathetic consideration will be given to allow students actually enrolled and attending classes in colleges or universities to finish the quarter or semester they have begun.

Traffic Safety Drive Goes Into Final Month; August Death Toll 67

Sixty-seven persons met traffic deaths on Minnesota streets and highways during August, an average of more than two traffic fatalities a day, according to preliminary reports to the State Highway Department. This, however, was a saving of 12 lives, with 79 fatalities recorded during the same month last year.

During the 12 months of the campaign completed on September 1st, 579 traffic deaths have been recorded, as compared with 628 for the previous corresponding period before the "Save 100 Lives" campaign began. The editors had set their life-saving quantity for this 12-month period at 538, so 41 more deaths have occurred than were anticipated, but this shortcoming of the campaign goal is counter-balanced by the fact that traffic deaths had been reduced 59 below the previous 12-month period.

As safety leaders concentrated on saving lives in September they had set their allowable quantity of fatalities for the month at 45—a proposed saving of 10 lives less than the 55 who perished in traffic mishaps last September. This goal suffered reverses at the very beginning of the month because of a calamitous Labor Day week end, but Mr. Walters, the retiring chairman, refused to be discouraged asserting that "the success of the final month of the campaign depends on how Mr. and Mrs. Minnesota, as motorists and pedestrians, drive and walk during the remaining fateful days of September."

DOG SAVES FARMER FROM CERTAIN DEATH

Sacred Heart—Although his pet dog recently attacked one of his children, Herman Freiborg has temporarily given up the idea of having the canine disposed. While working on the farm, Freiborg was struck down by a mad bull, and would have been gored to death had not the dog fought off the beast. The dog is credited with having saved its master's life, and undoubtedly redeemed itself for having previously attacked the Freiborg child.

HILLBILLY WEDDING WAS HUGE SUCCESS

The Hillbilly Wedding, a home talent play, which was sponsored by the Plummer Future Farmers in the Plummer Municipal auditorium was very well attended. The auditorium was packed both nights with an audience that was intensely interested in the acting ability of local friends and neighbors.

Harold McCrady, master of ceremonies, capably led the program from start to finish. Howard Hofius (captain Henry and Carl Kankel (the bride) held the audience spellbound with their contrast in size and feelings. The dimpled darlings, James Jackson, Albert Lemieux, and Art Wichterman, were stunning with their attire, rhythm and sweetness.

No judge could have so capably tied the nuptial knot and for so little cash as did Mr. Fellman with his little goatee. Arnold Arlt (Aund Ada) and Gust Kraft (little Milford) brought laughter to the audience when little Milford played his antics. Harold Norby (the Lone Ranger) had a comical well trained horse in Howard Hofius and Dean Schoenauer. Mr. Holte (grandpa) and Mrs. Olson (grandma) took us back to the good old days with "The Old Gray Bonnet". Mr. Dreca (Punklewortz) with his daughter put on an act that was very entertaining. Clifford Skime, with his gun, and his daughter, Dale Page, nearly put the marriage ceremony on the rocks, much to Mr. Kankel's disgust. Arnold Wichterman, the telegram boy, really surprised the whole array of wedding guests. The bridesmaids, Alvin Morlo, Donald Hesse, Mr. Hovanac, and Vergil Merril were truly appropriate and entertaining in their attire. Donald Page and Vernon oyes, as train bearers had a real job on their hands.

The square dancers, Mr. McCrady and Mrs. James Ford, Mr. and Mrs. Kenneth LeMieux, Mr. and Mrs. James Jackson, and Albert LeMieux and Mrs. St. Louis could really entertain with their lively steps and old fashioned dress. Art Wichterman proved to be a good caller for the lively group, accompanied by the Groom Ramblers and their peppy music.

A fine musical selection was presented by the Showboat Sweethearts, Miss Doris Skatvold and Miss Alvina Hell accompanied by Miss Lorraine Fouquet. The tap dancers, Betty Sorenson and Theresa Mack, accompanied by Miss Pauline Schoenauer really thrilled the audience with their ability. Estelle Hovland and Lorrie Hovland each sang vocal selections which any audience could enjoy to the fullest extent.

The Plummer Future Farmers of America wish to express their thanks and appreciation to all who in any way helped them to have such a successful affair.

The first meeting of the Whist Club was held last Thursday evening at the home of Mrs. Peter Doran. High score was won by Mrs. G. A. Krueger and second high by Mrs. James Jackson. QUICK THINKING ENDS CHANCE OF DANGER

Baudette.—After refilling a kerosene lamp, Mrs. Jack Manweiller noticed that the coloring of the fluid did not appear quite right. She called her husband's attention to the fact, and he immediately extinguished the flame and hurled the lamp's contents out into the night. Mr. Manweiller acted wisely by doing so and undoubtedly prevented from what might have been a serious affair for the pink colored liquid was not the usual lamp fuel, but gasoline.

STATE DIVISION TRAINS LEADERS IN RURAL EVENTS

District Training Session to be Conducted Here November 4-5

Plans for a state-wide recreation program for Minnesota rural communities are rapidly taking shape again this year under the sponsorship of the Minnesota Agricultural Extension Service. District training schools have been scheduled throughout the state for representatives who will assume leadership in reviving music, dramatics and folk games in their home counties.

Nine district training meetings will be held this fall beginning October 8 at Morris. Sessions will be held at Slayton, October 10; Eshquaguma, October 14-15; Brainerd, October 16-17; Rochester, October 21-22; Mankato, October 23-24; Thief River Falls, November 4-5; Detroit Lakes, November 6-7; and University Farm, November 14-15. Meetings will be conducted by Mary Anne Mather, in charge of recreation for the Agricultural Extension Service.

Objectives of the program are to stimulate interest in home and community leisure time activities, to train leaders in planning and directing recreation programs in their own communities, and to give special emphasis to music, dramatics, and social recreation.

The general theme of this year's program will be "Pan-American Culture," emphasizing music, folk dances, games and customs of American countries.

New Law Shows Effect as 398 Drunken Drivers Lose Permits in August

Drunken driving, one of the chief causes of traffic deaths, resulted in 398 revocations of driver's licenses during August, according to a report of the Driver's License division made to M. J. Hoffmann, state highway commissioner. Twenty-nine other revocations were enforced, bringing the total to 427, the highest in any one month in the 8½ year history of the license law's existence.

This great increase, according to E. P. Lee, head of the Driver's License division, is attributed to the operation of the law passed by the last legislature which provides for the automatic revocation of a motorist's license upon being convicted of drunken driving. Heretofore revocation was dependent upon the recommendation of the court; the new law removes this discretionary power of the courts and requires the commissioner of highways to order revocation.

In addition to this record number of revocations, 188 other motorists had their driving permits suspended during August. Heading the list of offenses were speeding, 70; reckless driving, 51; failure to file proof of financial responsibility, 14 and incompetency, 12.

A RARE OCCURRENCE. SCORES HOLE-IN-ONE

Windom—The ambition of every golfer was realized by Robert Ernest, former principal of the Windom high school. Mr. Ernest stepped up to the 190-yard-long hole of the Windom course, cautiously placed his ball, and unleashed a smooth but terrific swing. The ball landed on the green near the cup, and the former principal proceeded to follow the ball and resume play. When he reached the hole he was amazed to find the ball tucked snugly away in the bottom of the cup. The joyous player had scored a hole-in-one, a rarity in a golfer's life.

MINNESOTA HISTORICAL SOCIETY

U. OF M. TO OPEN ITS 73RD YEAR ON SEPTEMBER 29TH

Advance Estimates Indicate Enrollment in Excess of 14,000 Students

Fast approaching the three-quarters of a century mark, the University of Minnesota will begin its 73d year on Monday, September 29, when classes will start in both the regular daytime and evening extension courses. Advance estimates of registration place the probable enrollment in excess of 14,000 students by the time registration in the graduate school is completed. Despite the national emergency, the campus will lack the intensively militarized appearance of world-war days, when all men students were put in uniform as members of the Students Auxiliary Training Corps and had their fees paid by the government.

Dr. Walter C. Coffey, for twenty years head of the far-flung agricultural activities of the University of Minnesota, has assumed his post as acting-president and will be at the head of the institution to which he has rendered so much valuable service as dean of the Department of Agriculture. His long administrative experience and intimate knowledge of the problems of higher education, general as well as agricultural, will simplify for him the task of managing one of the largest and most representative educational institutions in the entire world, a university that has carried the fame of the state of Minnesota to every corner of the globe.

Home Football Schedule at "U" to Start Oct. 11

The University of Minnesota's home football season will start about two weeks later than is usually does, due to an unusual set of circumstances. On the first Saturday of the season, September 27, the Gophers will play the University of Washington at Seattle. The next week will be an open date, with no game at all. First home game will be that with Illinois on Saturday, October 11. Minnesota has not played Illinois since 1924, in which year the Gophers won in the first game ever played in Memorial Stadium.

Dunwoody Institute in Minneapolis Offers to Train Ambitious Youth

Dunwoody Institute in Minneapolis announces that its day school is now open and its evening school will open September 22nd. Both novices and experienced mechanics are trained in the day school and experienced mechanics in the evening school. Students may enter the day school on any date for which "reservations" have been made and enter the evening school at any time.

In the day school, training is given through twelve departments for 30 occupations and in the evening school for 130 occupations. Dr. C. A. Prosser, Director, says that "virtually every last year student who was ready for employment has been placed on a job and the heavy demand for Dunwoody men is beyond the number available. Several large concerns with government contracts will gladly employ large numbers of machinists as fast as we can train them."

Dr. Prosser also says: "Because of the grave shortage of experienced mechanics in machine shop and welding work, the United States Government will pay all costs of evening school training for these two lines. All workers in these two occupations will be served without charge. They may take either shop or class work or both and may attend as many evenings each week as they desire."

Those who are interested should write, call or visit Dunwoody Institute, Minneapolis, for further information.

Oklee Plans Erection of Municipal Building

Preliminary preparations have been completed for erection of a new municipal building in Oklee this fall, says the Oklee Herald. The new building will be a one story structure, 37x78 feet, and will be built of brick. The west end of the building will house the fire fighting equipment, with the doors opening onto Second avenue. A council chamber will be located in the southeast part of the building. Also in the south half will be a record room, two jail cells and a furnace room. The rest of the building will be occupied by the municipal liquor store.

It is interesting to note how personal advantages change one's ideas of government.

BIG INCREASE IN JOB PLACEMENTS HERE LAST MONTH

Employment Office Here Assists 391 Persons in Finding Work

In assisting 391 persons to find jobs during August, the Thief River Falls employment office of the Employment-Security division showed an increase of 254 (185.4 per cent) job placements over the figures for July, of this year, according to the monthly report made by C. J. Sjolander, manager, to Victor Christgau, director of the division.

Mr. Sjolander states that while August placements show a great increase due partly to harvest activities, initial claims for job insurance during August show a decrease of 85.7 per cent in comparison to figures for July, of this year, indicating the continuance of the upward employment trend in the area.

Mr. Sjolander's report includes activities in Pennington, Kittson, Roseau, Marshall and Red Lake Counties, and covers the full time office at Thief River Falls, and part time offices at Hallock, Roseau, Warren and Red Lake Falls.

Trapping Regulations for Three Fur-bearing Animals Are Announced

Statutory trapping regulations were announced today by the department of conservation for three fur-bearing animals.

Mink may be taken November 1 to January 31; racoon, November 1 to December 1 and skunk, October 20 to March 1. All dates are inclusive. There is no bag limit on any of these species.

Seasons on beaver and muskrat may be established later, on the basis of a state-wide population census of those species now being conducted by the department. Badger, fisher, marten and otter may not be taken under the law.

The bear season coincides with that on deer in even-numbered years and is from April 15 to May 15 in odd-numbered years. On the basis of hunter's reports on the 1940 season, the Department estimated 602 bear were bagged, with slightly more than twice as many males taken as females.

HOLDS TITLE OF LUCKY CLOVER CHAMP

Frazee—Adolph Neske of Toad Lake is the latest undisputed lucky clover "champ." While walking through a field he picked 37 five-leaf clovers and 47 four-leaf clovers, all gathered from a single root. His find outnumbered that of an Elysian resident who recently picked 15 of the lucky blooms. It is little wonder that Adolph asks, "Can anyone beat this record?"

LIBRARY NOTES

The Carnegie Public Library is open each week day, continuously, from 2 P. M. until 9 P. M. It is closed on Sunday.

The anxiety caused by leaks in the roof of the library is being removed. This makes it possible to plan for future improvements in service. A separate department for children in the grades is imperative in order to insure for them the attention they need. The reading interests of no group is more important and it is hoped that in the near future, the problem may be solved in a satisfactory manner.

Interest and activity in the rural school section is apparent. Teachers are availing themselves of the book service beginning from the day that school opens. The fee is the same for all or for a part of the school year. An adequate supply of books is assured at all times.

Machine Age

Cyrus H. McCormick, grandson of the inventor of the reaper, and vice president of International Harvester company, pointed out that machinery was shortening farm hours and lightening drudgery. This, he said, tended to hold agricultural families together and make life more pleasant on the 6,800,000 American farms, of which a majority are family-operated.

Valve Grinding

The remedy for a loss of power is not always valve grinding, according to the American Automobile club. It is even simpler and less expensive having the spark timing adjusted, together with valve timing. This will work wonders for restoring the power of the average engine.

A sad message was recently received by relatives here telling of an accident in which Kennet Rud, 15 year old son of Mr. and Mrs. Hans Rud, lost his life. According to a clipping taken from a Seattle, Wash., newspaper, "Kenneth Rud of Mount Vernon, Washington was instantly killed at 11:30 on Sunday evening, September 7, when a car struck his bicycle on the highway near his home. His brother Stanley 16, who was beside him on another bicycle was also injured. The car was driven by a Seattle man.

"According to Patrol officers, the boys who were returning to their home from Mount Vernon, were on the right side of the road when they were struck from the rear by the car. The driver told the patrol officers that he had dimmed his lights because of oncoming cars and failed to see the bicycles until he was within a few feet of them. He pulled his car hard to the left, striking Kenneth's bicycle directly in the rear and sideswiping the other bicycle.

"Kenneth flew up and hit the windshield, killing him instantly, according to patrol officers. Both boys were rushed to a hospital where Stanley spent a few days. He was suffering from shock and minor bruises."

Kenneth Hans Rud was born May 3, 1926 at Antler, N. D., and he came with his parents to Grygla at the age of three years. The family lived here for ten years, leaving here almost two years ago. Tomato Soup

The good old tomato season is with us again. Every woman likes to can tomatoes, they are so easy to prepare, so easy to keep, and so delicious and healthful to eat or drink. Whole tomatoes, tomato juice, chutney's and catsup are the general method of canning them. But a perfect "must" on the tomato canning list is tomato soup. This soup is wonderful. It is exceptionally good with hot dishes and is pretty close to being like the soup you buy. In the cold blustery days it's a treat to go down in the basement to get a can of tomato soup to have only to heat it and serve. Here it is—very simple: Chop together a pail of tomatoes, one small red pepper, one bunch of celery, six medium onions; then add one fourth cup of salt and cook all this for forty-five minutes or so. Now run mixture through a sieve and return to the stove. Cream one cup of butter, one cup of flour and one half cup of sugar together, add enough of the juice to make a smooth paste and stir into the tomato mixture. Boil until thickened. Seal while hot and process jars for twenty minutes in hot water bath.

"BEER IS GOOD TO ME"

"Beer helps me to relax and enjoy life. I find that beer, when used with normal good sense, is not intoxicating. In fact, I never have any regrets over a pleasant evening drinking beer with my friends.

"I have noticed that 'beer is good' for the other fellows too. Good fellowship seems to go hand in hand with beer.

"I also understand that 'beer provides many economic aids' to Minnesota and the Nation. The manufacture, sale and distribution of beer gives employment to approximately 35,000 people in Minnesota alone. In addition, the Municipal, State and the Federal Governments collect millions in taxes each year. These are additional dividends I get from the use of beer."

ALL ON A SATURDAY MORNING

Saturday is baking day the year round. But what we bake, of course, depends on the season . . . and it must be in tune with our pocketbooks, too. What's more it must always be remembered that this Saturday baking is done to make Sunday an especially easy day for the cook.

So let's see what kind of a Saturday's baking we can plan for mid-July that will fit all three of these requirements. I asked a woman whom I knew was an expert at making a limited food budget produce meals that look like more.

Here is one of her pet mid-summer Saturday morning achievements:

Meat Loaf Sour Cream Cake (baked at the same time)
Bread and Coffee Cake or Cinnamon Rolls
(baked after the meat loaf and cake)
Vegetable Gelatin Salad in Individual Molds
(set in refrigerator to chill)

And here is the Sunday dinner menu that would follow this Saturday's preparation:

Meat Loaf
(Garnished with Tomato Wedges, Parsley and Radishes)
Creamed Potatoes with Chives
One Hot Vegetable
(Peas, Beans, Beet Greens or Spinach)
Molded Vegetable Salad in Lettuce Cups
Bread and Butter Jelly or Jam
Pickles
Fresh Fruit Cake
Coffee

MEAT LOAF

2 cups bread crumbs	½ tsp. sage
2 tbsp. flour	½ lb. beef, ground
2½ tsp. salt	½ lb. veal, ground
¼ tsp. pepper	½ lb. pork, ground
4 tbsp. onion, chopped fine	1 egg
½ tsp. paprika	1½ cups milk
¼ tsp. mustard	

Mix bread crumbs, flour, salt, pepper, onion, paprika, mustard and sage together and work into the meat. Add the beaten egg to the milk and knead into the meat mixture gradually. Pack into a bread loaf pan, well greased with meat drippings. Bake for 1 to 1½ hours in a moderate oven, 350° F.

SOUR CREAM CAKE

3 eggs	½ tsp. salt
1½ cups sugar	¼ tsp. soda
2½ cups sifted cake flour	1½ cups sour cream (35% butter fat)
or	
2¼ cups sifted all-purpose flour	1 tsp. vanilla
1½ tsp. baking powder	½ tsp. lemon extract

Beat eggs until light and lemon-colored. Beat in sugar gradually. Sift flour, baking powder, salt and soda together, and add to the egg mixture alternately with the sour cream . . . mixing with a slow beating and folding motion. Blend in the flavoring. Pour into well greased and floured 8-inch square pan (2½ inches deep). Bake 45 minutes in a moderate oven (350° F.).

Growing With Your Child

Institute of Child Welfare, University of Minnesota

Twins

"Aren't they cute! You can hardly tell them apart!" How many times do the parents of twins hear this remark. Admiring friends and relatives repeatedly remark on the identical characteristics of twins. Parents, themselves, foster this 'identity throughout the children's lives, feeling that severing this binding relationship would cause mental or physical difficulties. Consequently, it is not strange that "twin fixations" develop, which may be as dangerous as mother or father fixations, though not as much publicized. Parents mistakenly think that because children look alike and act alike that their mental ability and physical aptitudes are alike. However, tests, such as those described by Lillian Portenier in her article in the Journal of Educational Psychology, suggest that the above mistake contributes to the fact that growing up as a twin may be a handicap in making adjustments in society.

Intelligent supervision on the part of the parents can do much to lessen this maladjustment. Contrasts, rather than likenesses, should be emphasized. Twins should be encouraged to participate in work and play suited to their distinctive abilities. They should not want to do everything together; they should be taught to stand on their own feet. If possible, separate rooms should be provided; their individual personalities can not be developed if they are not given a chance to be alone. I do not believe that they should be dressed alike, unless they very much want to. Letting them choose their own clothing, especially where twins of the same sex are concerned, would help them to develop their own personalities.

A serious consequence of treating twins as though they were a single individual is that they do not fully develop, mentally and socially. They lean too heavily on one another and cannot lead lives as separate individuals. Therefore, parents should begin early to encourage dissimilar tendencies and to discourage too close an identity between twin children.

Kitty's Komments

We do not have to enter a war! We are in the midst of one—over 300 lives lost by 10 o'clock a. m. on Labor Day! Lives strewn on the highway—drenched in blood—crushed by the unfeeling Juggernaut, the car. It shouldn't be worse than that blind idol worship when humans threw themselves in front of vast car wheels to be crushed to death—Oh, no—in this day and age, it's much worse not idol worship—but plain unadulterated carelessness, Recklessness! That's the evil, we have to fight!

We have to weed out the ones who do not think! Such a cursed combination—the wheel in the hands of one who doesn't use the brains he was born with—or perhaps dulled by one drink too many!

It wouldn't hurt the world anything at all if it were only his life that fell by the wayside (good riddance) but no it's the poor innocents who get in his way that must suffer. They, too, must die, needlessly, unmercifully because the fellow behind the wheel was void!

No, we don't have to be at war to fill our hospitals, the morgue and the grave yard! We don't have to be at war to cause anguish, tears and aching hearts!

You're in the midst of one if you dare venture on a highway on a holiday. Your life isn't worth a tinker's darn!

MAKING 'EM ALL MAD

He—My love for you is driving me mad!

She—Say, I think you'd better cut it out—it's affecting the whole family that way.

Turtle—My, I wish I was nice and tall like you are.

Bird—Well, I wish I wasn't. I'd like to find a stream where I could get wet up to my knees, anyway!

Ornamental Plant

Vetiver is a perennial plant of the grass family, being introduced from the East Indies to the Gulf states prior to the Civil war, as an ornamental for plantations and because of its aromatic roots. These were saved, washed, and dried by the wealthy plantation owners to be stored with linens, lingerie, silks, satins and other feminine finery and household goods, on account of the attractive and enduring fragrance which they imparted to such articles. An oil was also distilled from the roots by homespun methods and after dilution in alcohol constituted one of the favorite ante bellum perfumes.

Moving picture houses close around 10 p. m. and taxicabs cannot ply their trade after midnight. All in an effort to conserve a shortage in electricity caused by a drouth in Japan the past winter.

'Spank' With an Idea

Spanking is an outmoded form of punishment for children—and it isn't democratic.

It should be abandoned just as society has given up the rack, the wheel, the Spanish boot and other medieval forms of torture.

This is the opinion of Dr. Frederick P. Woellner, University of California at Los Angeles educational professor who advocates:

"Hit children with an idea instead of a club.

"The so-called 'unspanked' generation of young men and women is one of the finest the world has produced.

"If this is true because the rod has been spared, then spanking is under heavy indictment."

NOT A SECRET

"She seems to have a secret sorrow."

"Don't believe it, my dear—every one in town knows about it."

Scientific Drunk

The question of when a motorist is drunk in the meaning of the law may soon be removed from the realm of controversial judgment to one of scientific certainty. A device, demonstrated recently in Lansing, Mich., is said to be able to do just that. It is a machine that tests the content of alcohol in the suspect's breath. This, scientists say, bears a constant relation to the amount of alcohol in the blood. Anything up to five-hundredths of 1 per cent would not justify a drunk-driving charge, but over that proportion, the charge would be laid, if other symptoms of intoxication are present.

Dear friends:

We take several magazines, prepared especially for our profession. The very highest ethical practices are advocated.

"A worth while business", says one editorial, "was never built on questionable business tactics."

Dishonesty doesn't thrive in the funeral directing profession any more than it does in other professions. If there were no other reason for it, honesty is simply a good business rule.

Respectfully,

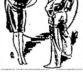
FAST THINKING



"To think this is our honeymoon trip and you went to the station and bought a ticket for only one."

"Well! Well! Now dearest, what do you think of that? I had forgotten myself entirely."

Three on a Match

The fact that it is considered unlucky to light three cigarettes with the same match had its origin on a battleship of the Boer war, where it meant something. The attention of an enemy sharpshooter was drawn one black night to the small spurt of a match flare in the distance. While the match was handed to the second man, he obtained his range and when it was handed to the third man, he fired. The poor fellow who was third to hold the match had his head blown off.

Russian Illiteracy

Partially completed Russian census figures reveal that 81 per cent of the Soviet population, above the age of nine, is literate, an increase of 30 per cent since 1926. Educationally, 8.36 per cent of the population have secondary school training and 0.64 per cent university background. According to the Russian second five-year plan, illiteracy should have disappeared at the end of January, 1933.

We've got a letter here from Pvt. LeRoy J. Luchsinger of Camp Haan, Calif. He says he and his pal, Pvt. Warren Pomplun, are getting pretty homesick and would like to get more mail than they do. LeRoy is 20 and Warren is 22, and they enlisted in the Minnesota National Guard a year ago. He wonders if we could contact some young ladies of about their ages and ask them to correspond.

There you are, girls. If you wish you can correspond directly. The address of both the young men is:

Speaking of bananas, here's slogan in behalf of Unity: "Consider the lowly banana—whenever it leaves the bunch it gets skinned."

We won't vouch for this, but a reader reports that he overheard two drunks who met on the street last Saturday night.

"Do you know what time it is?" asked one of them.

"Yes," said the second.

"Thanks," said the first and staggered away.

Did you hear about the cannibal who dashed into the dining room a little late and shouted: "Is everybody ate!"

IT'S WASHDAY AGAIN; SPUDS GO TO CLEANERS

Blooming Prairie—The invention recently introduced by J. L. Zimmerman would undoubtedly be of great benefit to our army boys while doing their kitchen police duties. The newly built machine washes 35 to 40 tons of potatoes per hour, prior to their being packed away for shipment. That the creation was a success was proven when the inventor himself received the distinction of selling and shipping out the first carload of washed potatoes. The United States government purchased the load.

PRESIDENT HAS SIGNED RECORD U. S. TAX BILL

All Citizens to be Affected by Provisions of New Measure

STILL HIGHER TAXES AN EARLY PROSPECT

Estimate 22 Million Persons Required to File Income Tax Returns

President Roosevelt Saturday signed the $3,553,400,000 tax bill, the largest ever enacted.

Designed to help defray the multiplying costs of the national defense and the lease-lend program, the legislation is expected to lift federal revenues above the $13,000,000,000 mark next year.

Even that total, however, would be only slightly more than half of the estimated expenditures for the current fiscal year and would fail to carry out Secretary Morgenthau's recommendation that government spending be financed two-thirds from taxes and one-third from borrowing.

To further increase federal revenues, another tax bill may be proposed later this fall or early next year.

In one way or another, the measure signed Saturday will touch virtually every citizen. It will require an estimated 22,000,000 persons to file income tax returns, of whom about 4,000,000 will be making out returns for the first time, and will impose numerous excise or "nuisance" taxes.

The increase in taxpayers filing returns will result from a provision reducing income exemptions from $2,000 to $1,500 for married persons and from $800 to $750 for single individuals.

Of the total additional revenue provided in the measure, treasury estimates said $1,440,800,000 would come from individuals; $1,382,100,000 from corporations; $179,200,000 from capital stock, estate and gift taxes, and $846,800,000 from excise and miscellaneous taxes.

The measure increases from 4.4 to 10 per cent the existing bottom-bracket rate on individuals and lifts the rates on all other income levels.

Corporations will have to pay new surtaxes of 6 per cent on net income up to $25,000 and 7 per cent on income over that amount. In addition, excess profits levies are increased 10 percentage points in each bracket.

Estate and gift taxes are increased in varying amounts estimated to raise an estimated total of $157,700,000.

FAIR GROUNDS TO BE SCENE OF 1941 RAM SALE OCT. 7TH

Opportunity Will be Given County Farmers to Buy or Swap Animals

The present favorable outlook for wool and lamb prices makes it all the more important for owners of farm flocks to use good purebred sires this year, says County Agent Ernest A. Palmer in announcing a county-wide ram sale and swap day at the fair grounds, Thief River Falls, on Tuesday, October 7.

At that time sheep men will get together to arrange for better rams to head their flocks for the coming breeding season. Good rams that have served their purpose in one flock can be brought in for sale or exchange, and there will also be on hand a number of high-quality rams consigned by leading purebred breeders.

The ram sale and exchange days are sponsored by local farmers and purebred breeders in cooperation with the extension service. W. E. Morris will be on hand from the University Farm staff to give demonstrations and also consult with sheep men who are selecting rams.

A good purebred sire will pay for himself in one year in growthier, earlier maturing, and better fleeced lambs, in the opinion of County Agent Ernest A. Palmer. This is one year, certainly, when it would be foolish to use a scrub buck and turn out an inferior crop of lambs.

Hunters Find Prairie Chickens Hard to Get

While a few lucky prairie chicken hunters, out for the opening of the season last week-end, returned with the day's limit after a few hours in the field, the big majority of the hundreds of hunters had indifferent luck, some not firing a single shot, while others got one or two birds.

Due to the fact that side roads were in bad condition following frequent rains, the nimrods had difficulty reaching the best spots, and a heavy growth of vegetation made it easy for the birds to conceal themselves.

In the only hunting mishap reported locally in the opening days of the season, F. C. Meyer lost the index finger of his left hand. The accident occurred when his shotgun discharged while he was unloading it with his finger inadvertently covering the muzzle of the gun. The wound was treated at a local hospital.

HMM!!! WHAT'S THIS? MUST BE A PORKER

Lake City.—Lake City boasts a real freak of nature in the birth of a pig at the E. L. Rutz farm. The animal has the bodies of two pigs, which have a joint head. The bodies are normal in every respect, including the eight legs. However, at the front feet the bodies join, tapering into one head. Mr. Rutz found the freak animal among a litter of nine healthy pigs.

Injurious Insects

A number of injurious insects are checked by breeding and using against them some of their natural parasitic enemies.

Growing With Your Child

Institute of Child Welfare, University of Minnesota

It's Not Too Late

"Oh, dear," sighed a mother whose children were ten and twelve. "I don't want to hear about how I should have brought up my children! I know I've made so many mistakes, and how can I ever make up for them now? They say it's the first few years of a child's life that are so important, and I can't go back!"

How short-sighted such a point of view is. Whatever wrong handling may have gone on in the past, so many of the impressionable years of her children's lives lie ahead that the study and thought she gives to ways of making their environment count a lot toward their happiness and usefulness will be immensely valuable. It is in the teen age years that some of the great misunderstandings of children by their parents often occur, and by looking ahead now, and learning something of what her boy and girl are to go through in the next decade, this mother may be able to take those often difficult years in her stride.

Suppose, for example, that her ten year old is shy and timid about meeting people, that his life so far has not provided him with the means of encountering social situations easily. How much his mother can do, if she looks ahead to his greater need of social adjustment in his high school years, toward making him self-confident. By encouraging some special hobby or ability she may widen his horizon, help him to become less self-centered and awkward. Whenever one knows a lot about even one thing, he tends to feel more self-assured.

Suppose her twelve year old girl is already manifesting the physical and psychological changes that will soon make her an adolescent. If her mother does not realize the meaning of this in the girl's life, she may deplore the girl's interest in boys, in her appearance, her loss of interest in some of the things that have hitherto been of moment to her, and unconsciously show a critical and irritated attitude, instead of being sympathetic toward and appreciative of the new impulses that are crowding her daughter's life.

No, it is not too late for this mother to make very good use indeed of information about children's needs and behavior as they pass through the teens. Instead of hating to look back and think of the things she might have done better, she would do well to look ahead calmly and constructively, so as to avoid having pangs of regret, when her children are 20 and 22, that she "didn't understand them" in their teens.

SADDLE PROVES RELIC OF CIVIL WAR DAYS

Red Wing.—Owner of a relic, a Civil War saddle, is Jim Van Guilder, manager of an antique shop at Red Wing. According to Jim, the saddle was issued to Corporal Henry Knipfel who rode with Seventh Illinois cavalry. Knipfel's home was at Hammond, Wisconsin, and it was near there that the antique was discovered. The saddle was made especially for government use in the year 1862, and has remained in remarkably good shape, considering that now it is 79-years-old. Completely equipped, the saddle weighs fifty pounds, three times as much as those used by the American cavalry in the last war.

JOHN P. DEVANEY, STATE DEMOCRAT LEADER, IS DEAD

Former Chief Justice State Supreme Court, Passes at Milwaukee

The body of John P. Devaney lay at his home at Minnetonka Beach Monday night awaiting funeral services Tuesday morning while his friends and associates in law and politics gathered from throughout the state to attend the rites.

There were brief services at the home followed by rites at our Lady of the Lake Church in Mound.

The body was returned Monday from Milwaukee, where the former chief justice of the state supreme court died Sunday of a cerebral hemorrhage.

Devaney, top member of the three-man Minnesota Democratic patronage committee, had announced only a few days ago his intention to run for U. S. senator next year. Active in politics throughout his long career, he was named chief justice of the Minnesota supreme court in 1933 by the late Governor Floyd B. Olson, then was elected to a six-year court term in 1934 but, desiring more active work in politics, he resigned in less than three years and since then had been a guiding factor in Democratic circles in Minnesota.

STATE EXTENSION SERVICE SUPPORTS 'MORE FOOD' DRIVE

Urges Greater Production of Milk, Eggs, Poultry and Meat

The Minnesota agricultural extension service has pledged its best efforts toward the attainment of the U. S. Department of Agriculture goal of more food for America and other countries resisting aggression, announces Director Paul E. Miller, who just returned from a 12-state meeting at Chicago where he and other agricultural leaders assured Secretary Claude R. Wickard that America's foremost farm states are ready to undertake the greatest production program in the history of this country.

Director Miller believes that the Minnesota goals of more milk, more eggs and poultry, more meat, and more garden products are not only attainable, but that Minnesota farmers have the desire and the resources to deliver the goods.

He has urged extension workers and volunteer leaders in Pennington county to place food production at the head of the list of aims for the county. As soon as the state and county defense boards have set up county goals, and AAA committeemen have conducted their canvass of farms to find out how much food can be produced, hundreds of volunteer leaders in extension work will have the opportunity to help in the food campaign.

"There will be a big premium on good farming practices in the coming months", says Director Miller. "That is especially true of good feeding and management practices which will get more milk from each cow, more eggs from each hen, and more meat from barket hogs and cattle. America has enlisted in the battle for freedom with food as its most important weapon. Food production is a job that we in Minnesota can do exceptionally well."

HAS MOTOR TROUBLE ONLY CHICKEN TO BLAME

Lindstrom.—It might have been all right had it been the goose that laid the golden egg, but it was only a stray chicken that caused Harold Moeschter's car to stop recently. Harold lifted up the car hood hoping to detect the source of engine trouble, only to have a hen fly out with such rapidity, that it barely missed taking his nose with it. Further investigation showed that the feathered saboteur, which left behind two freshly laid eggs in the motor loosened the ignition wires, which, consequently, brought the car to a halt.

Accepts Bid of Barzen Company for Tract Near Power Plant

The city council at an adjourned meeting Tuesday evening voted to accept the bid of the Barzen Mercantile company in the amount of $2,500 for the land the company had formerly held under lease as the site of its warehouse and office.

At the same time the company was granted a building permit in the amount of $12,000 covering the construction on the site of a new office and warehouse building.

The council accepted the bid of Danielson Brothers Electric company in the amount of $1,183 for an auxiliary oil butter heating plant in the new municipal power plant structure. Two bids on stoker installations also were received.

Favorable action was taken on the request of Frank Govednik, field representative of the NYA, for the use of office quarters in the basement of the Auditorium. The council also instructed City Clerk P. G. Pederson to contact the school board and terminate the lease on the former Central school building, used until recently as a NYA resident center.

Mayor W. W. Prichard, in a communication to the council, urged that steps be taken to eradicate the rats on the city dump grounds before winter sets in. Action on the matter was deferred.

MINNESOTA TWINS RANK AMONG NATION'S OLDEST

Mahnomen.—Edward Runyan of Langby and William Runyan of Bemidji, are believed to be one of the oldest pair of living twins in the nation. Both the men are 91 years of age, and seem to have come from a family of "giants." Edward is considered the smallest of the family as he only weighs 160 pounds, all other members of the family having tipped the scale at 250 pounds or better. The twin brothers are the only living members of the family.

FARGO MAN NEW U. S. COMMANDER AMERICAN LEGION

Lynn U. Stambaugh Elected National Commander at Milwaukee

Lynn U. Stambaugh, of Fargo, N. D., new national commander of the American Legion, took charge of the organization's affairs Friday with the statement he would carry forward the decision of the national convention to promote "unswerving support" of the government's foreign policy.

He is a 51 year old attorney who entered the World War as a private in 1917 and was commissioned a second lieutenant while serving overseas. He succeeded Milo J. Warner, of Toledo, O.

Stambaugh listed among the objectives of the Legion the defeat of Hitler, repeal of the United States' neutrality act and the use of American troops wherever the government needs them to keep war away from the United States.

He said that the Legion's refusal to go on record against lend-lease aid to Russia did not change its views against Communism, but resulted from a feeling that there should be no conflict with policy as determined by the president and congress.

Stambaugh was elected on the first ballot as the Legion's 23rd national convention in Milwaukee came to a close Thursday. Two other candidates, Edward N. Scheiberling of Albany, N. Y., and Raymond Fields, of Guthrie, Okla., joined in making the choice unanimous.

REGULATION OR RUIN

Secretary of the Treasury Morgenthau recommends a 100% tax on all corporation profits in excess of 6% and more rigid control of prices as a curb on inflation. The public response to these recommendations will be generally favorable. Most citizens will agree that everything possible should be done to guard against inflation. No one is in favor of anyone else making excessive profits out of the war. All see the need for some regulation of profits, wages and price levels. Few, however, will admit that they themselves should be regulated. In a general way we feel that controls are a splendid thing for the other fellow. There should be a ceiling on the prices of things we have to buy but when we sell, whether we are selling our services or our products, we resent any interference that affects us adversly. So while all will approve in a general way what Secretary Morgenthau recommends, no one will be satisfied if his recommendations are followed.

Nevertheless we think the Secretary's position is right and believe Congress should be guided by his suggestions. The alternative, as he points out, would be inflation. That would be a lot of fun while it lasted, but it is the primrose path that leads inevitably to ruin. Far better that we take the hard way now rather than the harder way later.

And the first step in such a program of regulation must necessarily be a low ceiling on the profits of corporations. It is necessary because if that is not done other groups will not submit gracefully to limitations on what they consider their own opportunities for bigger returns.

NOW SEEMS LIKE A GOOD TIME

Our country has been at war for many months. Our politicians have avoided a specific declaration of war. Nevertheless by the enactment of the lease-lend bill and other similar measures they have definitely committed the country to a program of participation that has made us an ally of all nations that are resisting the aggressors. No longer is there any question as to whether or not we should be neutral.

There can be no back-tracking. We have burned our bridges. We are pledged to do our utmost to destroy Hitler and the things he represents. If we fail in this then Hitler will destroy us and our country will become another slave state. Now is not the time to quibble about whether what we have done has been right. What has been done has been approved by a majority of our representatives. The problem that now confronts us is how best to proceed to accomplish our present purpose. And that involves the question as to whether or not we should now formally declare war.

The question as to whether or not we should formally declare war should be decided entirely by the probable effect of such a declaration on the nations of Europe now involved in the death struggle. A formal declaration would not materially change our position nor would it impose upon us greater responsibilities than those we have already assumed. A formal declaration at this time however might have a salutary effect on those people of Europe who now are wavering, uncertain as to which way they should go. And upon the decision of several European forces, still capable of making a choice, may depend the outcome of the struggle.

A formal declaration of war by our country would undoubtedly have a wholesome effect upon the thinking of the Turks who now, no doubt, are under tremendous pressure from the Axis powers. In North Africa there still is a large French army that could be an important factor in determining the winner. With a little encouragement they might be induced to resume the argument with Hitler. It is important to us that the nations now defending themselves should keep on fighting. At the present time the Russians are doing a magnificent job but there is a reasonable doubt as to how long they can continue. With a few bad breaks, peace terms might appeal to them. It would not be to our best interests to have them quit fighting. A formal declaration of war by us would encourage them to carry on. And in all the countries that are already conquered, the possibility of revolution is a serious threat to the invaders. The spirit of revolt would spread more rapidly if the people of those countries knew for sure we were not fooling them.

Considering the question from this angle, we have everything to gain by formally declaring war at once. And by a formal declaration of war there is nothing we can lose that we have not already lost. Certainly the war will be less costly to us in men and money if the aggressors can be stamped out in their own back yards, by the neighbors they have already attacked. We can see no merit in the argument that we should wait to defend ourselves until all the other victims have been bound hand and foot.

We are now approaching the season of frequent fires. Last winter, if you remember, the fire department was kept busy answering calls, especially in stormy weather, and most of the calls, 95% in fact, were for chimney fires. There may be an occasional chimney fire that is unavoidable but most of them are inexcusable and a sign of careless housekeeping. Now is a good time to have this annual chore attended to.

Can anything be done to get rid of the rats that infest the city dump? Probably the only way it can be done satisfactorily is to get rid of the dump itself. And toward that end members of the council are considering the construction of an incinerator where the city's garbage and rubbish can be destroyed in a sanitary way by burning. We think it's a swell idea and hope the councilmen get enough encouragement from all good citizens to justify them in taking definite action.

After all the wet weather we have had it's hard to believe it will ever stop raining but it probably will. At any rate it always has before. Some day the sun will shine again. In a few more days we are going to release a dove and if he doesn't return we are going to conclude that somewhere there still is a piece of dry land.

In the days when warfare was a man-to-man contest or even when a soldier had only a rifle or a cumbrous cannon to hold at bay a mass of people unarmed, it was difficult for a few troops to keep huge populations in subjection if they willed unitedly enough to resist. Today the Nazi plan depends on death-dealing machines to even the odds between one or two men and thousands, and until there is evidence that this plan doesn't work, it is too early to regard European unrest as formidable to Hitlerism.—Minneapolis Star Journal.

Topics of the Times

By M. A. H.

The high cost of living will be brought home to some folks shortly when liquor prices take a jump.

Whether or not one is of Scandinavian descent, you can't help admiring the spunk of the Norwegian people these days in refusing to cooperate with the Nazis.

A Minneapolis farm machinery firm is starting the manufacture of artillery shells. A case of beating plough shares into swords.

With shortages and higher prices in the offing, this year in particular it would appear to be a smart stunt to do your Christmas shopping early.

We can think of a foreign leader whose name begins with H who should be well pleased with Mr. Lindbergh's denunciation of the Jewish people.

A New Yorker is named Armand Hammer, but he doesn't seem to have anything to do with baking soda.

The old narrow roads on which cars used to collide, we read, have been replaced by broad highways on which six or eight cars can collide at the same time.

Remember a few years back when we were worrying about a permanent drought.

It sounds like an ideal arrangement down at Oklee where they plan to have the village liquor store and the jail in the same building.

It has been suggested that no one ever went broke using the installment plan to build up a savings account.

Looking Backward

1931—TEN YEARS AGO

A. J. Berry announced a $5,000 improvement project on his garage building.—Dr. and Mrs. O. F. Mellby and Miss Gladys Grindeland were confined in a Little Falls hospital for several days following an automobile mishap near that city.—The Peterson-Biddick company opened its new poultry plant in a building now being completed.—The county commissioners called a meeting of citizens to ascertain sentiment as to the proposed redistricting of the county.—Carl Kretzschmar of Lafayette, Indiana, arrived here for a visit at the home of his mother.

1921—TWENTY YEARS AGO

A trades and industries short course was being organized in Lincoln high school.—The Guernsey herds of Albert Johnson and F. B. Conklin won numerous awards at the Beltrami county fair.—Receipts at the Pennington county fair this year from all sources aggregated $9,716, Herb Fuller, secretary, announced.—C. H. Peterson, Sanders farmer, suffered a broken neck when a plow of which he was riding struck a rock.—Mrs. J. M. Bishop went to Roseau to organize a Legion auxiliary unit there.

PUBLIC OPINION

Editor the Times:

I happened to read in the last issue of the Times that not all that heard the Jubilee singers put their stamp of approval on their program. I just can't see how any person can criticize any part of their program. It would be good for all of us to take a trip to the South where they grow cotton and see these dear colored people working in the fields. I have seen them pick cotton and the sight of it almost makes one get down on one's knees because the slave period and the time of our beloved Abe Lincoln comes to one's mind. Surely the colored people have reason to rejoice and shout for they surely know what freedom means.

Roles are Reversed in Municipal Court Here

Municipal Judge Lincoln Arnold revealed today that the tables had been turned on him Wednesday, when he was brought before Special Judge Richard Mabey by Game Warden Miller of Crookston on a charge of having a ruffed grouse in his possession, contrary to state law. The law permits the shooting of pinnated or sharptail grouse, but not the ruffed variety. The judge paid a fine of $10 and $3 costs.

Prowlers Lose Friday to Crookston 13 to 6

A successful first half passing attack which netted two touchdowns gave the Crookston Pirates a 13 to 6 win over the Prowlers in a conference game played here Friday night. The Pirates were particularly effective in completing short "dunker" passes over the scrimmage line. The Prowlers meanwhile were experiencing an apparent let-down from the form shown in their opening game's play, for they were sluggish on offense and defense; and being outweighed, especially at the tackles, had difficulty in making yardage through the Crookston line. The locals have another strenuous game on tap tomorrow when they journey to East Grand Forks where they will meet George Wilson's highly-rated eleven.

Crookston's first touchdown came as the result of an intercepted Prowler pass on the 50 yard line. Off tackle smashes and cut-backs, and a reverse, carried the ball to the Prowler 18 yard line, and with third down and 8 yards to gain, Don Mortenson flipped a pass "down the middle" to Chuck Graham, who grabbed the ball on the 4 yard line and drove over the goal for the touchdown. Mortenson's dropkick for the extra point was wide.

A sustained drive from mid-field gave the Pirates their second touchdown, which was scored in the early minutes of the second period. The Prowlers had punted out to their 45 yard line, and Crookston, on their first play from scrimmage had been penalized 5 yards, bringing the ball to mid-field. Mortenson lost 2 yards on a reverse; a pass from Gene Hegland to Willis Swanson gained 8 yards; Mortenson added 4 yards at left tackle; a short pass, Graham to Kieth Thorson, a tackle who shifted to end for the play, made it a first down on the Prowler 30 yard line; Graham smashed the line for 5 yards; Mortenson was held for no gain; Omer Larson, on a quarterback "sneak", broke through for a first down on the Thief River 15 yard line; Willie Morlan made a couple of yards over left tackle; and Graham added 3 yards on a plunge into the line; then Graham tossed a short pass to Thorson who made the catch on the 3 yard line and went over for the touchdown. Mortenson dropkicked the extra point.

Don Michalsky recovered a Crookston fumble on the Pirate 27 yard line to set up the Prowlers touchdown. "Guernsey" Gjernes lost a yard on a cut-back attempt at right tackle; a pass, Gjernes to Lorentson, was complete for a 7 yard gain; on a buck into the line, Fjelstad gained a yard; Gjernes circled right end for 10 yards and first down on the Crookston 10 yard line; Don Olson, on reverse, ran his left end for the touchdown. The placement try for point failed.

Two 15 yard penalties, one for using the hands on offense and other for unnecessary roughness, halted the Prowlers attempts to score the tying points in the fourth period. Don Olson had made a first down on the Thief River 40 yard line when the first penalty was inflicted, seting the locals back to their 15 yard line. In the final minutes of play Olson returned a punt 25 yards, to the Thief River 43 yard line; Gjernes made 5 yards around right end; Olson, on a reverse, made a scant yard; a pass, Fjelstad to Gjernes, was completed on the Crookston 40 yard line for a first down as the game ended.

He fell, face down, in a shallow puddle of water. Bystander, J. E. Johnson, noticed what had taken place, and immediately summoned two men who applied artificial respiration for the sick man. In Case You've Wondered

The Crookston win Friday night was the first Pirate victory over the Prowlers, in football, since the autumn of 1932. In that year a Prowler team that had such headliners as Arnold Stadum, Johnny Kiewel, Kenny Pope, Wayne Kielty, and Paul Dahl on its roster, traveled to Crookston and dropped a 6 to 0 decision to the Pirates.

It isn't too difficult to explain away the Thief River defeat last Friday night. First, that Crookston team was one of the finest clubs that the Pirates have put on the field in many years; second, the Prowlers were a bit too over-confident, for they assumed that a win over Crookston was merely a matter of course; third, Crookston's coach, Walt Scheels, had a scout at the Thief River vs. Red Lake Falls game, and so was able to set up his offense and defense to the Pirates advantage; fourth, the "breaks" of the game went against the Prowlers, for example, that first period quick kick that mis-fired, and those two 15-yard penalties in the final period. But these reasons do not evade the fact that on the play of Friday night the Crookston Pirates had the better team.

Junior High Boys Out

Did you notice that several of Chet Nelson's junior high-school boys were in suits? Billy Nelson, Billy Bye, Earl Helle, Larry Jeffersen, and Jimmy Steen were the "juniors" that were given the honor of dressing with the "big" team.

And don't forget that there will be a game here Saturday afternoon; with the kick-off at 2 p. m., between the Crookston reserves and the Prowler reserves. The game, which promises to be quite a tussle, should be over by the time the Minnesota vs. Washington game broadcast goes on the air. Talking with some of the Prowler reserves I learned that they are going to tear the Crookston outfit apart. Okay, Harry, let's see you do it.

Another Tough Row to Hoe

Tomorrow night, under the lights at East Grand Forks, the Prowlers meet the team that is reputed to be the toughest stuff in the district. The East Siders, with Benny Larson, Pat Curell and Harold Harney, will have a bigger line than Crookston; and in stocky Ken Kennedy, a district point-getter in the sprints, the Little Green Wave has one of the league's best halfbacks.

Coach Harry Newby has been giving the Prowlers intensive drill this week and has revamped the line-up in an effort to secure stronger blocking for halfbacks Gjernes and Olson. One change, for play on offense, has brought big Orrin Pederson back to fullback, and placed Pete Michalsky at the running guard position. Pederson and Michalsky are the two most vicious blockers on the squad and it is hoped that they can crash the defensive ends and tackles so that "Guernsey" and Don can break away for some sizable gains. Taking Pederson's place at the left tackle spot has been John Berry.

By the way, don't you think that it would have helped Coach Newby considerably if LaRue Andy Anderson were still in school and playing Prowler football?

They Were Hot Shots

Trapshooting champions from far and near—Otto Nelson, Albert Lea, Minnesota's champion, and Otto Gullingsrud of Grand Forks, N. D. champion—participated in the Pennington County Sportsmen's Club first annual Hunter's Warm-up, which was held here Friday. Nelson shot a 25-24—49 to tie Dr. O. A. Norman, Fergus Falls, for first place in the Class A division of the Hunter's Special, and had rounds of 24-21-23-25—93 in the Jack Rabbit Shoot, for a fourth place. The day's best shooting, however, was done by Duluth's Gil Hartley, who powdered the clays, in the Jack Rabbit, with rounds of 25-25-23-25—98, for first place.

Hunting and Fishing

The upland game bird season opened on Saturday and I've been eating birds ever since—but they've been veal birds! I was out with Jesse DuChamp and Harry Newby on Saturday, but all I did was to wear my hunting cap and furnish an audience, for Jesse and Harry did all the shooting. They both got their four-bird limit, but only after covering most of the eastern part of the county. Jesse's average was four birds in 19 shots, which is his usual speed when he can't get pot-shots; and Harry knocked down his four birds in 16 shots.

But the fishing the last two weeks has shown great improvement. Harvey Egenes, fishing the pool below the dam, caught a couple of four-pound wall-eyes, and when you catch a wall-eye that size you have something. And some nice strings of crappies have been taken below the dam too.

1,690 Drivers Arrested, 7,708 Warned in August, Which Claimed 67 Lives

During August—when at least 67 people met death in traffic—the Minnesota highway patrol arrested 1,690 motorists for flagrant violation of the state's traffic safety laws and handed out "don't let it happen again" warnings to 7,708 additional motorists whose traffic behavior imperilled life in a lesser degree.

The monthly report of Patrol Chief Elden Rowe to Highway Commissioner M. J. Hoffmann, made public today, showed that during the month of August 361 drivers were arrested for speeding, 239 for careless driving, 153 for drunken driving, 207 for running through stop signs, 120 for improper and dangerous passing, 40 for driving in the wrong lane—that is, failure to keep to the right of the centerline—and 269 for operating motor vehicles with perilously unsafe equipment, chiefly faulty brakes and lights. Fifty-five motorists were arrested during the 31 day period for driving without driver's licenses, and 66 for operating a car without proper registration.

In addition to these arrests for gross offenses against the safety of the highways, Minnesota highway patrolmen issued 3,949 warnings, of which 2,662 were verbal and 1,287 were written, to erring drivers, and passed out "must repair" tags for illegal and unsafe equipment to 3,759 motor vehicle operators.

STATE DEBT CUT IN 2 AND HALF YEARS OVER 14 MILLION

State Auditor King Makes Report Together with Recommendations

Minnesota's indebtedness has been reduced $14,185,171 in the past 2½ years—the greatest debt reduction ever had for a comparative period of time in the history of the state.

Stafford King, state auditor, so advised Governor Harold E. Stassen in a comprehensive report, which reveals that the state's total indebtedness on June 30, 1941, was $116,312,012 as against $130,497,183 on Jan. 1, 1939. King reported that in 1937 the indebtedness reached an all-time high of $134,165,892.

Four specific recommendations, in which he explained his reasons, were made to the governor by the state auditor as follows:

(1) Credit should not be used by the state to subsidize private industry.

(2) Borrowing should be done slowly, and always with a long-range plan which should never carry repayment beyond the state's current ability to pay.

(3) The state should never borrow to establish a "loan fund".

(4) No state bonds or certificates should be issued for a longer period than 20 years.

Reviewing the history of the state's indebtedness since 1858, King pointed out that in 1918, during the administration of Governor J. A. A. Burnquist (now Minnesota attorney general) an all-time low of $1,050,000 was established. With the passage of the soldiers' bonus legislation, it jumped to $21,000,000 in 1920, and in 1933, when the state took over county highway bonds for reimbursement, it rose to over $54,000,000.

Questionnaires Must be Filed by Registrants Over 28, Law Requires

Although deferred by law from actual military training, selective service registrants who are more than 28 years old must conform to orders from their local boards or be liable to penalties prescribed for delinquents, J. E. Nelson, state director of selective service, warned today.

While the selective service act now prohibits induction of men who were 28 years of age or older on July 1, 1941, these registrants must live up to the other obligations imposed upon them by the Act.

Questionnaires must be filed at the request of the registrants' local boards. Any registrant who fails to comply with such requests may be considered as a delinquent and be liable to fine or imprisonment, or both.

When it becomes evident from information on the questionnaires that they are to be deferred because of age, they will be placed in the proper deferred classification by their local boards.

Hereafter registrants who are deferred by reason of age will continue to be classified in the same manner as other registrants, except that they will not be given a physical examination.

CALF SEEKS TITLE AS WORLD'S SMALLEST

Fergus Falls. — Roy Bjorklund, Henning farmer, has made it known that when it comes to small calves, he has a record-breaker in his possession. The animal, a Jersey heifer calf, weighed only 18 pounds at birth and was smaller than a great number of dogs. It has deservingly taken honors from a Clarissa born calf, which was considered one of the world's smallest; it's weight being 26 pounds, 8 pounds more than that of the new champion.

The dividing line between two school districts runs smack through his house, so that he eats in one district and sleeps in the other. N. W. SCHOOL WILL START FALL TERM MONDAY, SEPT. 29

Advance Registrations Indicate Big Enrollment This Year

Monday, September 29, will mark the opening of the 36th year of the Northwest School of Agriculture at Crookston. The school during that period, according to Superintendent T. M. McCall, has given more than 2300 diplomas and graduation certificates to boys and girls who have become farmers, homemakers, and professional men and women. During recent years an increasing percentage of the fourth year graduates are continuing their educational training in the University of Minnesota and the various colleges of the state.

Advance enrollment figures indicate that the attendance will exceed the enrollment of last year when 379 students are enrolled.

Every available dormitory room is being made ready for occupancy. The new girls' dormitory will not be available for use during the forthcoming school year. Construction work this fall will be dependent on the availability of structural materials.

The one major improvement made on the campus during the past two years is the steam heating tunnel which connects all school buildings. The tunnel, which is now complete, represents sponsor's contribution of approximately $36,000 with a W.P.A. allotment of about double that amount.

New staff members assuming their duties on September 29 include R. J. Halvorson of Roseau, Registrar and instructor in mathematics; Marjorie Ardell Hamlett of River Falls, Wisconsin, Junior English; and Mr. Bruce Robart of Wesley College, Grand Forks, North Dakota, special instruction in violin.

Four-H Conservation Project Winners Tell of Itasca Trip

(By Anne Hillyer)

This year I represented Pennington County as one of its delegates to the eighth annual 4-H conservation camp held at Itasca Park September 11 to 16. The camp was sponsored by Charles L. Horn, president of the Federal Cartridge Company, Minneapolis. As Mr. Horn was unable to attend this camp, his firm was represented by George M. McCullough, wild life technician.

One of our master of ceremonies said our coming to the camp had two main reasons: (1) to have a good time and (2) to be inspired to do more in this activity and bring back inspiration to other 4-H members who couldn't attend camp. Our stay at the camp was spent in studying how to conserve the fertility of soil, song birds, waterfowl, and forests. One afternoon was spent on a hike and we studied briefly the different types of trees and different kinds of plants.

Another afternoon was spent on a boat ride on Lake Itasca which we saw an eagles nest, the first geographical survey tower, wild rice and many different types of trees. We also went on a tour seeing the main points of the park. Among these numerous points of interest was the one and only one great Headwaters of the mighty Mississippi, which gives everyone a thrill.

Of all the exciting and interesting sights, which we saw, I thought was the scene of six wild elk grazing undisturbed by man on a meadow. The beauty and the graceful movements of these animals poised so stately against the horizon, you don't realize until you actually see it.

Although it did rain while we were in camp it didn't dampen our spirits and a good time was had by all. Each and everyone of us who attended this camp are greatly in debt to Charles L. Horn who sponsored this camp to 4-H Conservation members. So 4-H members, why not carry conservation as one of your activities. You may win this trip the same as I did if you practice and study it and take it from me, you'll never regret it—the camp is wonderful!

(By Vernon Scholin)

While attending the Northwest School of Agriculture I took a course in conservation. This interested me very much so I decided to take conservation as a project in my 4-H Club work. My exhibit placed in the blue ribbon group at the county fair and I was selected as one of the Pennington County delegates to the Minnesota 4-H Conservation Camp at Itasca State Park.

The camp opened with supper at the University of Minnesota School of Forestry Dining Hall on Friday evening.

At our first assembly program State Forester Parker Anderson gave us the history of the park. The name Itasca comes from the last syllables of two Latin words meaning "true head".

We went on several trips through the park to see such places of interest as, the headwaters of the Mississippi, Elk Spring otherwise known as the Fountain of Youth, Douglas Lodge and many others. One of these trips was a boatride on Lake Itasca, where we saw Schoolcraft Island where Henry Schoolcraft camped while making his explorations.

At our assembly meetings we heard several lectures and moving pictures on the different phases of conservation such as, the control of soil erosion and the conservation of control of soil erosion and the conservation of plant, animal and bird life. These lectures were given by members of the State Board of Conservation and other authorities on the subject.

I was especially interested in an illustrated lecture by W. M. Landess, Ast. Director of Agri. Relations Dept. of the T V A. In this lecture he showed how all life is dependent on rocks and water. Where these are not abundant there is no life.

Another interesting part of the programs are the reports of the club members on what was being done in their clubs in the way of conservation. Many of the clubs represented had made conservation a club project. The club as a whole would work on some phase of conservation such as forming a game refuge, making feeding stations for birds or beautifying school or church grounds. I think it would be well for the clubs of our county to consider this project when arranging a program of work for the year.

We also did a great deal of singing at our meetings. The singing was led by Miss Mary Ann Mather, who also organized a choir that sang at the Sunday morning service. This service was to have been out of doors at Preacher's Grove but because of rainy weather we had to meet inside. The sermon was delivered by Rev. Swindells.

Our final meeting Monday evening was closed with an impressive campfire and candlelighting service.

I think that a trip to the Minnesota Conservation Camp is a wonderful experience for any 4-H boy or girl because it is important that our young people know the value of our nation's natural resources and what should be done to take proper care of them in the future. I can think of no better place to have this impressed upon our minds than in Itasca State Park where plant and animal life have been preserved as nature had intended.

The people of America have taken for granted that our natural resources are inexhaustable and they have exploited anything that can be turned into cash.

The destruction of soil and the waste of timber, minerals, water and wild life have brought about the realization that there is a need for constructive conservation measures.

The governmental agencies have done a great deal along this line but real success depends upon the attitude taken by the citizens themselves.

Two women were discussing a third. Said one: "She has a very magnetic personality." "She ought to," the other replied, "Every stitch she has on is charged."

CONSTRUCTION OF STATE HIGHWAYS HITS $13,451,000

1941 Projects Aggregate Largest Program in Recent Years

With the economies effected in the reorganization of the department in 1939 releasing more highway funds for road building, Minnesota's state highway department this year will be able to place fully $13,451,000 of construction work on its trunk highways under contract, Governor Harold E. Stassen reported this week.

This is more than twice the total construction work for 1938, before the reorganization instituted under Commissioner of Highways M. J. Hoffmann, and represents one of the largest programs in recent years. Only once in its history has the department been able to do as much paving work operating on current funds without bond issues.

Total construction placed under contract up to August 22 was $11,091,880. Remaining projects are expected to bring the total for the year up to $13,451,000, compared to $5,756,166 for 1938, $4,965,751 for 1939 and $7,167,215 for 1940.

All purchasing now has been placed on a basis of competitive bids, rental of equipment has been reduced to a minimum and other economies effected to make available more money for roads.

Large sums have been saved, too, by the elimination of unnecessary employees. Employees in the last half of June this year numbered 4,451, compared to 7,046 in the same month for 1938.

Total paving in the 1941 program is 125 miles. Figures for recent years were: 1938, 46 miles; 1939, 21.5 miles and 1940, 57 miles.

ONE IN A MILLION SAYS OWNER OF PEN

Hancock. — It's unbelievable, thought Bud West, after viewing his fountain pen which had just undergone considerable hardship. The pen was left in Bud's shirt pocket when the garment was put aside with other laundry. Unnoticed, it was given a good scrubbing, put through the wringer three times, and finally starched and hung on the line to dry. By this time the pen was discovered, and strange as it may seem, it was still clipped to the shirt and apparently was none the worse for its trip through the laundry.

MISSED FISHING TRIP; NOW SINGS THE BLUES

Columbia Heights. —Ask Chet Galliford why he has been feeling so blue lately, and he'll give you sufficient reason. It seems that Chet, together with other members of the Anoka County Sportsmen's Association, were about to leave on their annual fishing trip. Chet had made arrangements to take time off from his job, and was feeling in tip top shape. All wasn't so rosy, however, when he discovered he had made plans for the wrong week-end. So when the sportsmen set out for Squaw Point resort, there was one Chet Galliford missing.

Kitty's Komments

The distant sound of "bang, bang" blasts another hunting season into the annals of up-land game history, a season, I think that should not have been.

There aren't many prairie chickens and Hungarian partridges around this vicinity, a fact which I'm sure is prevalent in many places.

The two storms last winter, especially the one on March 15th destroyed so very many of our game birds.

Last winter, ten of the biggest, fattest prairie chickens held their feeding grounds in our corn lot. They were real tame, much more so than their timid brothers, the Hungarian partridges that, too, used to come to feed when no human was in sight.

After March 15th, only one lone prairie chicken came to feed and of a covey of fifteen partridges just three appeared. The rest, undoubtedly had perished in the storm.

Then the heavy cold rain we had the first part of June came just when the game birds were hatching or had just hatched, and baby chicks whether wild or tame can't stand wet, cold weather.

It isn't fair for hunters to have to purchase a license, then tramp around all day and come back empty handed.

Of course, many find a big thrill in wandering over meadow and field in search of game, but the thrill is so much more when they can bag the limit, a fact, I'm sure very few will be able to do this year.

There should not have been a season on our highland birds this year. It may mean "no hunting" for next year and many years to come!

THE RECORD .... Facts That Concern You No. 31 of a Series

SOME PEOPLE NEVER LEARN... but most of them do!

There are always a few "smart alecks" who want to stand up and rock the boat. But most people try to keep out of trouble.

The same sort of thing happens in the retailing of beer. The great majority of beer retail establishments are clean, law-abiding and wholesome. But occasionally you may find a "smart aleck" retailer who violates the law or permits anti-social conditions.

We of the brewing industry want these anti-social retailers wiped out! Because they imperil your right to drink good beer...and our right to make it.

We want to protect the benefits that beer has brought to Minnesota—employment for 34,573 persons since relegalization, an annual payroll of $29,866,962 and taxes of $1,926,921.61 paid to the state last year.

This state, too, has an important stake in Beer's purchases from over 100 industries supplying the brewing industry with materials, equipment and services.

You can help us in our public-spirited program by (1) patronizing only reputable and legal beer establishments and (2) by reporting any irregularities you may see to the proper authorities.

[illegible]nance Drive for Boy, Girl Scouts Opens Oct. 6

The week of October 6-11 has been set aside by the Thief River Falls Council for the Annual Boy and Girl Scout finance campaign, Morris Bye, president of the Thief River Falls district, announced today, adding that every town in the Thief River Falls district is expected to rise to the support of the Boy and Girl Scouts of America in proof of its greatness as a character-building and citizenship training movement for the youth of America.

Romine Matthews has been added to the professional staff to serve the Minnesota territory located at Thief River Falls in connection with Boy Scout work.

Scouting, Mr. Bye pointed out, teaches a boy and girl to be trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean, and reverent. Scouting stands for justice and good will to mankind. It is non-sectarian, non-military and non-political. Scouting is America's answer to foreign movements that are designed to mold and regiment the boy and girls. Scouting here in America seeks to preserve individual initiative and self realization—to arouse and develop the best in the boy or girl that he or she may become a good and useful citizen. Scouting is the great American training school for character and good citizenship.

WORK PLANNED ON THE THIEF LAKE HUNTING GROUNDS

State Is Seeking Federal Approval for Five-Year Program

Tentative plans for large-scale development of the 10,000 acre Thief Lake public hunting grounds project in Marshall county under a $128,000 Pittman-Robertson federal aid project were disclosed this week by the department of conservation.

Frank D. Blair, state supervisor of game, said the project, if approved by federal authorities, would cover five years and will develop Thief Lake into the most efficient state-owned public hunting grounds in the nation.

Major points of the proposed development program: Planting 6,000 acres with thousands of trees, shrubs and vines as food and cover for wildlife. Planting of 10,000 acres to aquatic and semi-aquatic food plants for waterfowl. Operation of aquatic ponds for production of aquatic plants on the area, and the northwestern portion of the state.

Construction of fences, bridges and road culverts. Construction of firebreaks through the area. To remove five sets of farm buildings and fences from the refuge. Fencing around portions of the refuge. Landscaping large portions of the area.

Drained at the turn of the century to provide farm lands, Thief Lake was abandoned after agriculture proved unsuccessful. In 1933 the Department of Conservation restored the area with a dam on the Thief River. At present it is widely patronized public hunting ground.

FOUR SUSPECTS IN MIDDLE RIVER ROBBERIES HELD

Efforts Made to Implicate Quartet Arrested in Becker County

Attempts to link the Middle River burglaries with four suspects arrested at Audubon late last Wednesday afternoon by Sheriff Max Olson of Becker county, are being made by O. C. Toftner, Marshall county sheriff, following investigation says the Warren Sheaf.

The four persons, Charley Paddock and his wife, Margaret Paddock and Mr. and Mrs. C. E. Stearns were arraigned in Crookston by Polk county officials Saturday morning. A preliminary hearing for the four will be held on October 10 on charges of burglarizing five Beltrami places early on Wednesday morning.

The truck in which the four were traveling when they were arrested last Wednesday, was a 1½ ton panel job. Officials reported that they found in it, punches and chisels which were identified as a part of the loot taken in Beltrami. They also found a box containing narcotics which was identified as a part of the loot taken from the Berg Pharmacy at Middle River on Monday morning of last week.

Deputy Sheriff Art Johnson stated that when the Becker county officers found the truck at Audubon, two of the men were asleep in the truck under the influence of the narcotics and that the girls were in the beer parlor. They resisted arrest but were over-powered.

Ardell Teldeman of Grand Forks, N. D. was a week end guest at the C. Dave Gustafson home.

Lost Canadian Plane Lands at Gatzke

A British war plane, an Anson Bomber, now used as a training ship at the Rivers training station 100 miles west of Winnipeg, set down in a field on the Tale farm two miles north of Gatzke Thursday afternoon and because of the soggy ground was not taken off again until Saturday. The plane was on a training flight, Pilot B. T. Ashford, a Californian, at the stick, and a student crew of navigators directing the course. Their problem had taken them northwest of Rivers and a strong tail wind above the clouds had carried them beyond their base when they returned southeasterly. Pilot Ashford had landed to establish their position, expecting to take off again immediately, but he had not reckoned on the soft ground. Pictured above is the plane near the Tale buildings and below, in front of the plane, are Emil, Otto and Emil Tale.

The purpose is to strengthen the resourcefulness of the homemaker, and to help her to take better care of her home and family under normal conditions, as well as in illness or emergency, Miss Goodman explained.

The content of the course is as follows: Individual health and personal hygiene. Healthy home environment. Home care of the sick—care of the chronic, the aged, minor illnesses, and emergencies. Care of mothers, babies, and small children in health and in illness. Community health—prevention and control of communicable disease.

"Miss Marian Norby and John Dean Brown of Grand Forks, N. D. spoke their marriage vows at 10 a. m. on Monday, September 29 on the chancel steps in St. Mary's Catholic church in Grand Forks before Rev. John Smith. Given in marriage by her father, Oscar Norby, the bride wore a tailored outfit of brown wool with matching accessories and carried an arm bouquet of lilies. ENROLLMENT AT N. W. SCHOOL IS HIGHER THIS YEAR

Supt. T. M. McCall Announces Several Changes in Curriculum

The Northwest School of Agriculture at Crookston, with an enrollment ahead of the 739 figure for 1940, started classes for its 36th year on Tuesday, September 30. Freshmen and other new students registered on Monday and made tours of the campus and buildings on Tuesday morning, while upper classmen were being registered.

Superintendent T. M. McCall states "Certain curricular changes have been made to meet the demand in both science and farm engineering. Courses in foods, clothing, horticultural and farm crops, livestock and poultry will emphasize teachings in line with governmental suggestions of war economy. The work in electric arc and acetylene welding formerly a part of the farm shop courses will be offered as a separate course this year to meet the unprecedented demand for welding work. Applied chemistry, a continuation of agricultural chemistry, taught for the first time last year, has been made a regular course in the curriculum.

A full program of extra-curricular activities has been arranged for the school year with football and cross country running taking the spotlight until the final contest on November 11th. Coaches R. J. Christgau, R. F. Swan and E. F. Bennett are giving football and cross country teams intensive practice. The first football game will be played with the Central High team of Crookston October 3d.

State Potato Yield Is Twenty Million Bushels

Minnesota potato growers are answering the request of Secretary Wickard, and the Agricultural Department for more "Food for Defense," with an estimated 20,000,000 bushel crop of potatoes this year. Matching quality with quantity Minnesota growers in most sections of the producing area are digging potatoes this year that are as good or better than have ever been sent to the markets, according to H. F. Skyberg, President of the Farmers Cooperative Marketing Association.

"Our growers have steadily improved the quality of their potatoes during the past years," he said, "with the result that Minnesota potatoes are beginning to gain a highly favorable name for themselves in the country's markets."

"We have become increasingly aware of the importance of providing the housewife with potatoes that are clean and free from dirt, and many Minnesota growers and shippers have installed new washing and drying equipment this year that will greatly improve the appearance of Minnesota potatoes," Skyberg said.

He pointed out that last year Minnesota potatoes were shipped to points as distant as Texas, Alabama and Ohio, to name a few and that there was reason to believe that the state crop this year would reach an even wider market.

Skyberg said that potato digging already underway in the state would reach its peak this week, and depending on favorable weather be pretty well finished by mid-October.

Moving Day Invalidates 30,000 Drivers Licenses

Between 25,000 and 30,000 Minnesota motorists are risking arrest and prosecution because they have failed to obtain duplicate driver's licenses after having changed their residence addresses during the September 1 moving rush, the state highway department estimated today.

Estimates of transfer and trucking companies indicate that 38,000 individual licensed drivers moved during the week of September 1. Only slightly more than 9,000 of them, or about 25%, have obtained duplicate driver's licenses under their new addresses. This is required by law within 15 days of a change of address.

That means that 75% of those who moved during the first week of September are now driving illegally. The highway department attributes the laxity to negligence or oversight rather than to any deliberate willingness to risk arrest and a heavy fine for the chance of saving 35 cents. Duplicate license applications may be obtained from any county clerk of courts or his agent, or by mail or personal call at the traffic division of the State Department of Highways, 1279 University Avenue, St. Paul.

A note "mailed in a bottle" in the Brazos River in Texas, reached Milford, England, nine months later.

SO ST PAUL MARKET

South St. Paul, Minn., Sept. 30, 1941: Downturns continued to rule in the hog division. Barrows and gilts were off 10 to 25c, weights from 180 to 230 lbs. showing the most loss, while sows were 10c lower. Tuesday's top was $10.90, according to the Federal-State Market News Service, and was paid freely for Good and Choice 180 to 230 lb. barrows and gilts, with the bulk 180 to 270 lb. kinds ranging from $10.70 to $10.90. Scattered small lots of 270 to 300 lb. offerings turned at $10.50 to $10.75, while most 140 to 170 lb. averages were taken at $10.35 to $10.75. Good sows of all weights ranged from $9.25 to $9.95, the outside price usually paid for weights below 300 lbs. Feeder pigs were steady to weak, bulk of the limited supply selling from $10.50 to mostly $10.75.

No changes of consequence developed in the slaughter cattle trade. Buyers tried hard to lower costs on Canner and Cutter cows, but without success. Tuesday's trade even developed some activity on the lower grades of the cow class. Medium to Choice slaughter steers and yearlings bulked at $9.50 to $11.50, with several loads light and mediumweight steers at $11.75 to $12.00. The extreme top was $12.10 for a few head Choice 1157 lb. steers. Strictly Choice heavy bullocks reached $11.75. The practical top on heifers was $11.75, although an individual reached $12.00. Canner and Cutter cows bulked at $5.25 to $6.50, while Good western cows sold as high as $8.50. Medium to Good bulls brought $8.00 to $9.00. Vealers held steady, with a few strictly Choice reaching $14.00. Choice yearling feeder steers brought $11.00, the market on replacement cattle being generally steady.

Prices paid for spring lambs and sheep early in the week were mostly steady. Native spring lambs cashed from $11.00 to $11.35 with bulk of the crop going at $11.25. Several loads of white-faced range ewes were offered, these netting approximately 50 percent as breeders. Full mouthed range breeding ewes brought $6.00 and $6.75, two and three year olds sold at $7.00 while yearlings netted $10.25. Medium to Good native feeders sold from $9.25 to $10.25.

Nothing is more disconcerting to a confirmed liar than to be caught telling the truth.

Kitty's Komments

The sun has set. The faint glow of departing daylight paints the sky in roseate tints, spreading like a giant sea shell near the horizon. With a shining, steady gleam, the evening star blazes the coming night.

Like the pale lady of a dream, the moon rides in a crescent boat, shedding a ghostly light over all the land.

Trees cast dark silhouettes against the fathomless sky; where trees are heavy, it is like the blackness of rich velvet; with the thinning branches showing a tracery of exquisite black lace against the evening sky.

Buildings loom like dark hulks in a sea of wan moon glow with here and there the twinkling red eyes of lamp light, winking out at you.

The far-away sound of lowing cattle comes to you on the evening breeze.

Like the whispering of many corn elves, the faint rustling of dried corn in shocks comes to you from the tents of a corn encampment, bringing the message of the fulfillment of autumn.

The smoke of burning bonfires and the brilliance of straw stacks set ablaze—these inevitably follow an autumn evening.

Those who desire round figures should partake of square meals.—Andersville Progress.

THE PROSPECT NOT ENCOURAGING

Experts predict important developments in the war in the near future. The fighting this winter will extend from the Caucasus through the countries bordering the Mediterranean on the east and south. Turkey's zero hour is near at hand and she will be forced to yield to German pressure or fight within a few weeks. In the Russian campaign the Nazis have concentrated on a southern offensive in an effort to push through the Ukraine to the Caucasus and thus keep British and American supplies from reaching the Russians. Both sides have strengthened their north African forces and preliminary skirmishes have already indicated that a show-down in this area is near at hand. So read the reports from the experts.

How long it will take for the new thrusts to the southward to get started will depend on the duration of the resistance of Russia's southern armies. In central and northern Russia the Germans are expected to dig in for a defensive stand during the winter months, releasing large numbers of troops for the Near East and Mediterranean campaigns.

For the first time in the war it seems that the British strategists have correctly anticipated events long enough in advance to be at least partially prepared for an attack. The invasion of Syria and Iran has enabled them to establish contact with both Turkey and Russia and under the command of General Wavell a large army has been massed along these borders.

If the fighting on a large scale develops in these directions, and it seems reasonable to believe that it will, then our contribution of supplies will become increasingly important. More than 500 American light tanks have already arrived in North Africa. "Dozens of American pursuit planes and a sprinkling of bombers are arriving monthly at British bases." Thruout the winter a steadily increasing flow of equipment will have to be maintained.

The Axis powers have suffered heavy losses, especially in the Russian campaign but competant observers agree that they still have tremendous striking power. It will be another year before the combined production of Britain and the United States will exceed the Axis powers in output of war machines and until that time there is little prospect for an offensive drive by the allies.

All in all it is not an encouraging picture and unless the unexpected happens we will have to tighten our belts several times before we reach the end of the struggle. Between now and then we probably will have many unpleasant experiences. They will be easier to take if we are prepared to face them.

Imagine that — there are only seventy shopping days left before Christmas.

Well a couple of days of reasonably fair weather haven't been at all hard to take. There still is some salvage to crops now being threshed and it all helps. By the law of averages October should bring us thirty-one days of sunshine.

If you like hard fought football don't miss the Bemidji game here Friday night. When these schools meet in any kind of competition, regardless of the relative strength, there is always a contest that is made more interesting by a rivalry that is *as friendly as it is intense.*

We predict that it won't be long before all the streets of the business section will have the new lights that now brighten several of the side streets. The thing that makes people dissatisfied with what they have is the discovery that what they have is not the best.

If we are not all mixed up on our dates next week will be the sixteenth week of the Russian war, and that will be ten weeks longer than most observers figured it would take to drive Stalin back into Asia. Regardless of what may or may not be wrong with them in other respects, the Russian people must be admired for the bravery and fortitude with which they are defending their nation. They deserve respect—and all the assistance it is possible to give them.

We are about due to make an embarrassing mistake. We are sure of this because it has been so long since we have been called to task by an angry reader or advertiser. Our mistakes seem to run in bunches. We go along for months at a time without serious trouble and then all of a sudden everything seems to go wrong at once. That's why we are beginning to worry about what's going to happen. Things have been too peaceful hereabouts of late.

The 4-H clubs did well financially on their show venture last week, and the size of the cash balance is always important in a deal of that kind. Just as important, however, was the opportunity the performance provided for a lot of young people to demonstrate their ability as entertainers. Customers agreed that there's a lot of good talent around the county.

THE RAILROAD'S PROBLEM

(Minneapolis Tribune)

The defense burden that the railroads of the country are called upon to bear is a heavy one and the warning given by President Budd of the Burlington is timely. Those whose memories go back to the first World war will recall that the roads were unable to meet the demands that were made on them, and the result was government operation which was not a conspicuous success.

The railroads, like every other industry, are confronted with priority limitations on materials that go into the manufacture of rolling stock, and freight cars and locomotives are not to be produced over night. In the last 20 years the railroads have improved their equipment and their operations to the extent that all our peace time needs have been efficiently cared for. Larger locomotives, faster trains and better roadbeds have done away with the oldtime car shortages that were routine seasonal problems. They have done a good job but now they are called upon to do a bigger one.

The shipper, while he never appears on the scene, can do much to make our defense transportation more effective. Freight cars still spend about 80 per cent of their existence standing still. Prompt loading and unloading will in effect increase the number of freight cars available, and thereby lessen the chances of a repetition of the congestion that played havoc with our transportation in the last war.

HEN MAKES MISTAKE; LAYS "SIAMESE" EGG

International Falls.— To her absolute amazement, Mrs. Einar Sejenken recently found a "Siamese" egg laid by one of her full-grown pullets which heretofore had always produced normal "hen fruit". The egg was delivered in two parts, one containing only the yolk, the other the white. The two soft-shelled parts were joined with tissue and in appearance the unit resembled a miniature dumbbell.

Looking Backward

1931—TEN YEARS AGO

Paul Hanson, Land O'Lakes field man in District 17, passed away September 30, at the age of 35.—Sheriff O. L. Ihle, assisted by John Hanlewich, Marshall county sheriff, arrested 11 Pennington county residents on liquor law charges.—Verner Nelson was elected commander of Elmer J. Eklund post of the American Legion.—Arthur Tanem, manager of the local Gamble store, was appointed district appraiser for the department of rural credit. Miss Borghild Norbeck succeeded Miss Linnea Backlund as society editor of the Times.—Mr. and Mrs. Clarence Knudsen and son returned from Chicago, where they visited relatives.

1921—TWENTY YEARS AGO

"Doc" Kirby had one Jess Potar arrested for stealing a bottle of his magic medicine.—Local businessmen conferred with the division superintendent of the Great Northern railway, seeking the construction of a new depot here.—The new state road between Steiner and Holt will be ready for graveling this fall.—C. D. Gustafson was a Minnesota delegate to the national implement dealers' convention in Chicago.—Albert Lonsen succeeded L. A. Lampert as cashier of the Farmers and Merchants State Bank.—A survey revealed that the potato crop in Pennington county this year will aggregate 200,000 bushels.

MARE DAISY USED GOOD HORSE SENSE

Chisholm—It is often said that a man's best friend is his dog. Mrs. John Aho of Balkan township is confident her 11-year-old mare, Daisy, is her best friend. While herding cattle recently in a red jacket, Mrs. Aho was spotted by a neighbor's bull. He became infuriated at the sight of the red target and suddenly charged after her. Daisy, peacefully grazing in a nearby pasture, galloped to the rescue of her fallen mistress. Rearing up on her hind legs, Daisy warded the beast off and Mrs. Aho escaped with only minor bruises. Without Daisy's assistance she would probably have lost her life.

Hold to Light

One of the best ways to determine the quality of pottery is to hold a piece to the light. Even if it is comparatively thick, if it is of good quality one can see the shape of the fingers through the material.

ANCIENT CLOCK HAS TRAVELED MANY STATES

Redwood Falls—Among his possessions, O. L. Ford, treasures an old wooden clock, approximately 200 years old which has been moved through many states in its day. Originally it was owned by Mr. Ford's great-grandparents, his grandmother bringing it from Massachusetts to Illinois in a covered wagon during its early life. Later it was brought across country to Redwood Falls in Minnesota. It has ticked right along over the years, requiring small repairs occasionally.

Milaca—A lilac bush on the Norbert Berg town farm has performed a right about face trick. It is a general conception that lilacs bloom in the spring but this particular bush apparently became a bit confused for last week Mrs. Bergstrom picked a medium sized bouquet of lilacs from it.

For 1942—a Beautiful New
FORD
"6" OR "8"

In these unusual times we invite you to inspect an unusual new car—new in its beauty, its comfort, its choice of two fine 90 horsepower engines, 6 cylinders or 8.

See it and you sense at once that here is new style that will *stay* good for years. On a lower, wider chassis, we have designed new long, low, wide and modern lines.

Interior treatment is entirely fresh, distinctive, pleasing. The beauty of this Ford will more than hold its own in any company.

Inside, the car is *big*—wide across the seats, generous in knee-room, leg-room, elbow-room.

On the road this year you find the "new Ford ride" still further advanced in its softness, quietness, steadiness and all-round comfort.

At the wheel, you will find driving easier than ever. Steering, gear-shifting, action of the big and sure hydraulic brakes have all been made smoother and easier.

In quality, the car is sound to the last detail. Defense requirements have all been met without a single reduction in the basic and lasting goodness of the Ford mechanically. Some new materials have replaced old ones, usually at a greater cost to us, *but in every case the new is equal to or better than the old.*

If your family needs a new car, go see and drive this Ford. *For what it is today and for what it will be through the years ahead, we believe that you will find in it more and better transportation for your money than you have ever found before.*

In Memoriam

In loving memory of our dear son and brother, Melvin, who passed away five sad years ago today, Oct. 4.

Five years have passed since that sad day,
The one we loved was called away.
When the evening shadows are falling,
And within our thought we sit Alone,
To our hearts comes this longing,
If he only could come home.
But tho' our hearts are broken with sorrow,
With the grief so hard to bear,
We will meet you some bright tomorrow,
In the upper garden there.

Sadly missed by Mr. and Mrs. Tom Belland, Truman and Vernon. 40c

LARGE AUDIENCE ATTENDS PLAYS THURSDAY, FRIDAY

Production of "A Hillbilly Wedding" Acclaimed Big Success

The presentation of "A Hillbilly Wedding" in the Auditorium last Thursday evening under the auspices of the country 4-H club and rural youth organizations was acclaimed as an outstanding success, attracting large audience both evenings.

A highlight of the program was the marriage party scene, in which the bridesmaids, in fancy garb, marched down the aisle to participate in the wedding of Paul Lundgren, as Lizzie Zilch, the dainty bride, to Clarence Veves, as Cap Henry, the groom.

James Nordine presided as master of ceremonies over the program, in which a large number of local businessmen and residents of the rural areas participated. A number of specialty acts also were well received by the appreciative audience.

The sum of $140 was netted from the two performances, and it was announced the proceeds will be used by the county 4-H council in giving recognition to outstanding 4-H club members and their leaders.

Prowlers, E. G. F. 0-0 Bemidji Here Friday

The Prowlers play their season's climax game Friday night when they meet the Bemidji Lumberjacks in a contest which will be the feature of the Lincoln high school homecoming celebration. The game with kick-off time scheduled for 8:15, is expected to draw the year's largest crowd.

Showing considerable improvement over their preceding week's play, when they lost to Crookston, the Prowlers last Friday night battled a favored East Grand Forks eleven to a 0 to 0 tie in a game played on the chill, wind-swept East Grand Forks field. The Prowlers missed two scoring opportunities during the first half. Early in the first period, after receiving the kick-off, the Prowlers sent Don Olson around left and on a reverse and Don nearly broke loose for a touchdown run, picking up 25 yards before being stopped. A pass, Fjelstad to Gjernes, and a couple of running plays, carried the ball to the East Grand Forks 10 yard line, with first down and goal to go. Two successive fumbles set the Prowlers back to the Green Wave's 28 yard line, and the scoring threat failed. In the second period a long pass, Gjernes to Lenny Lorentson, brought the ball deep into the East Siders territory, but an "unnecessary roughness" penalty on the Prowlers halted the rally.

East Grand Forks, whose attack was spear-headed by the fine running of their belligerent little left halfback, 147-pound Ken Kennedy, made their most serious bid for a score in the final period. Slashing off the tackles and galloping around the ends Kennedy, carrying the ball on every play, picked up three successive first downs, to bring the ball from the Green Wave's 25 yard line to the Prowlers 20 yard line. Harold Harney, on a quarterback sneak, added five yards; but an intercepted pass gave Thief River the ball on their own 12 yard line, and "Luff" Fjelstad's splendid kick, into a stiff wind, drove the Green Wave back beyond mid-field.

The Prowler line out-charged the bulkier East Grand Forks line throughout the game, with the play of the Thief River ends, Roman Paulson, Lenny Lorentson and Don Berg, being especially effective. And the Prowler tackles, Orrin Pederson and John Dablow, played strong defensive games. The East Grand Forks team relied largely on Kennedy, and the speedy little halfback proved to be the most dangerous runner the Prowlers have faced this year.

The line-ups:
Thief River (0) — E. G. Forks (0)
Lorentson — le — Larson
Pederson — lt — Purcell
Berry — lg — Huff
Snelling — c — Worden

.... With BUCK OLSON

It's Homecoming

The Bemidji Lumberjacks will be the opposition; it will be the homecoming game; and it will be the final home game of the season. Such a combination should be enough to lure the season's largest crowd to Lincoln field tomorrow night.

It's getting to be a habit for the Prowlers to bump up against teams that have their attack developed around an outstanding backfield man. Last week the Prowlers had to stop East Grand Forks Ken Kennedy, and, even if they had to improve their defensive formations, they did a fine job of it; and tomorrow night they will have to stop Bemidji's Jack Vinge. Vinge will be remembered as the stocky forward who dropped in a one-handed shot in the final seconds of the fourth quarter of the Bemidji vs. Thief River Falls regional basketball game last spring, and which gave the Lumberjacks a 33 to 33 tie and sent the game into overtime.

Bemidji's coach, Red Wilson, will send the usual bulky Lumberjack team on the field tomorrow night, with a line that is bulwarked by two fine tackles. One of these tackles, Sid Nelson, is a Golden Glove heavyweight and an all-conference tackle, so Roman Paulson and John Dablow, whose duty it will be to keep him out of the Prowler backfield, are due for a busy evening.

Giving Me the Bird

I see that Homer Matheson, writing in the Lincoln Log, is giving me the bird for my two-touchdown East Grand Forks victory prodiction last week, and the Prowlers came through with a scoreless tie. According to Homer, if I continue to make such forecasts, I'll be picking Climax to win the regional basketball title. Well, there'll be a malted milk for Homer if the Lumberjacks don't score two touchdowns on the Prowlers tomorrow night. And as far as basketball is concerned the regional tournament is a long way off, but Cass Lake will be the team to beat.

The fact that Don Olson, the Prowlers hard-running right halfback, has been treating an abcessed left elbow this week and so was forced to miss a number of practice sessions, may handicap the Prowlers considerably. It is expected that Don will be in the line-up at the kick-off, but coach Harry Newby has given the Prowlers some new plays and Don has not been able to run through these formations.

The game will be the final appearance on Lincoln field for the following Prowlers, all seniors: Orrin Pederson, Roman Paulson, Orlin Gjernes, Connie Geston, Don Olson, Lenny Lorentson, Ralph Hunt, John Dablow, Doug Snelling, John Berry, Luther Fjelstad, Allen Andre, and Dale Hostvet. The loss of these players will put quite a crimp into next season's prospects.

They'll Begin Bowling Monday

The once-postponed men's league bowling on the Mint alleys will begin on Monday. And it should be an interesting season. The following should be some of the year's high-lights. Wally DuChamp to repeat as the city's high average bowler; Noble Drees to roll a higher average than the Pharmacy's Ed Carlson, and Ed to "blow" the 5 pin spare at least five times during the season; no one to get more fun out of their bowling than Paul "Body English" Muellenbach; that Walt "Cream and Milk" Peterson, with his new four-step delivery, won't have a 164 average after the first two week's bowling; that George Williamson won't settle down to steady bowling until after the duck season is over; now that "Streamline" Olson is working on a night shift, the Hartz Office team will have difficulty in defending their championship; that Walt Larson and Ole Engelstad will lose ten pins on their averages, to about 120, because they've each built a house this summer; that the Jack Sprat outfit will take up where they left off last spring, and will be tough competition; that "Dotty" Storholm will roll his usual split ball, and get strikes on it; Harold Eide to bowl a typical National League game, low scores and too much curve ball.

I Believe It

Here's a report that Wally DuChamp will deny and deny, but it still sounds plausible. Wally was out after chickens and Hungarians one day last week, and he spied a bird on a flax shock. It's usually meat in the pot and gravy on the potatoes when Wally gets a shot like that, so, after making a fine stalk, he opened fire with his 12 gauge automatic, and the bird toppled over. But imagine Wally's surprise when he learned that he had potted a meadow lark! Better not mention this as it's illegal to bag song-birds, but it just proves that a fellow has to be careful when he draws a bead.

He's Doing All Right

Did you notice that Austin Shanahan is playing left halfback for Joe Benda's St. John's college team, and that he threw a couple of game-winning passes in the St. John's win over Duluth Teachers Saturday? One pass, for 17 yards, scored a touchdown, and another, for 16 yards, set up the second touchdown.

NEW MINNESOTA EDUCATION CHIEF NAMED BY BOARD

H. E. Flynn Appointed Commissioner Succeeding Dr. Rockwell

A new commissioner of education now directs the state department of education and the work which it is doing for Minnesota's vast school system. Ending the controversy growing out of charges against John G. Rockwell, suspended commissioner of education, the state board of education, has ordered his permanent removal from the past and designated H. E. Flynn to take his place as commissioner.

Flynn has been acting commissioner since Rockwell's suspension. He has been connected with the department of education for 27 years, has held many important positions, recently has been director of high schools, vocational training and all junior colleges and for many years has been regarded by school men as one of the foremost educators in the state. He has been appointed to serve out Rockwell's term which expires August 1, 1943.

Winding up its consideration of charges against Rockwell, the state board at a meeting in St. Paul this past week drew up and made public its findings on evidence taken in the long Rockwell hearing. "The record in this proceeding shows," it concluded, "that the conduct of the department under Rockwell has been such as to cause confusion and inefficiency and to disrupt morale among its employees, to cause lack of confidence among school men throughout the state who are guided by its actions and to so impede and encumber the actions of the board as to make the performance of its duties almost impossible."

Hunter-Aviator Looking for T. R. Falls Lands in Error at R. L. Falls

Mistaking Red Lake Falls for Thief River Falls, C. Venables, a flying hunter from Winona landed his Piper Cub plane in the Earl Kirschman field west of Red Lake Falls about 4:30 o'clock Saturday afternoon, Sept. 20, but was unable to avoid hitting one of the haystacks in the field and the impact tore off the right wheel and supports and damaged the struts of the right wing. Neither Venables nor his passenger were injured says the Red Lake Falls Gazette. The plane had to be shipped back to Winona for repairs the damage being about $400 according to Mr. Venables. He said he was unable to find the name of the city painted on any roof in Red Lake Falls and he suggested that it would be a good move for Red Lake Falls to do this as well as to provide some landing field for the increasing number of owners of private planes. The accident did not deter Mr. Venables from hunting, however and he was able to bag one prairie chicken.

Former Local Citizen Succumbs to Burns When Gasoline Can Explodes

Burns which he sustained when a can of gasoline in his truck exploded early Thursday morning, proved fatal to Everet Taylor, 53, of Crookston, who died at seven p. m. Thursday in Wright Memorial hospital, Fergus Falls.

Mr. Taylor had been working on the carburetor of the truck and gasoline had spilled on his clothing. The gasoline can, which he placed in the truck cab, was nearly empty, but it is believed heat from a manifold heater caused it to explode, and that flames spread quickly over his clothing because of the gasoline on his garments.

Mr. Taylor was born in Downing, Mo., April 17, 1888, and had lived in Crookston for the past nine years previous to which he lived at Thief River Falls and for two years at Warren.

Surviving are his widow, six sons and seven daughters.

New Bus Service

Collapse of Europe's tourist traffic because of the war has given Romans a new fast bus service. The Italian Auto Transport company is employing idle luxury buses to run double-fare lines across the city at greater speed than that of the regular buses or even taxis.

DUCK HUNTING IS NOW IN PROGRESS OVER MINNESOTA

Effect of Ample Water on Supply of Birds Not Determined

With Minnesota's waterfowl season beginning October 1, hunters will find lakes, sloughs and potholes brimming with the greatest water supply in more than a decade.

Just what the unusual water conditions resulting from heavy late summer rains will do to the duck flight is a topic for conjecture among sportsmen. Conservation department technicians assert the increased surface water may spread the flight over a larger area.

Shooting hours for the season are sunrise to 4 P. M. daily. Limits are 10 ducks per day, 20 in possession, with the exception of redheads and buffleheads (butterballs). Only three of one or three combined of these species may be taken daily, and only six of either or both may be possessed.

The season is closed on wood duck, sandhill cranes, pelicans, Ross' geese, swan and Wilson's Snipe or Jacksnipe.

Waterfowl hunters must purchase, in addition to the small game license, a one dollar federal duck hunting stamp. The purchaser must sign his name in ink across the face of it.

The season concludes November 29.

Speed-up Ordered on Highway Work to Beat Rain, Fall Freezeup

With highway construction and maintenance operations in many sections of the state seriously impeded by continuous abnormal rainfall, blanket orders have gone out from the state highway department to speed up the work and complete as much of every important project as possible before the impending fall freeze-up.

M. J. Hoffman, state highway commissioner, it was disclosed today, has issued instructions to all district engineers, project engineers and contractors to take advantage of "every legitimate opportunity to expedite progress" before low temperatures suspend operations on certain types of work.

Commissioner Hoffmann's order carries with it a partial lifting of the ban against Sunday and holiday work, and empowers each district engineer, for the balance of the fall construction season, to issue special permits to contractors to work on Sundays and holidays wherever such a course appears necessary to complete work which has been held back by the unusual amount of wet weather.

The special permission applies to both maintenance and construction contracts, and may be for specific Sundays or extend for the balance of the season.

Commissioner Hoffmann cited as specifically affected such projects as stabilization of bases, bituminous surfacing, concrete paving, bridge building, and many other construction and maintenance contracts which are behind schedule because of weather conditions and therefore in special need of assistance if they are to be finished this year.

Moths Most Destructive

Moths are the nation's greatest and most expensive insect offenders, a recent survey by an expert discloses. They know no season, so housewives must constantly be on guard against them. One preventive step, says this expert, is to keep furniture and clothes spotlessly clean. Frequent brushings and airings in the sun will do much to destroy the moths. Before storing your clothes should be cleaned. Then seal them in air-tight bags or spray with a moth preventive. One excellent spray not only kills moths, carpet beetles and their larvae, but also mothproofs the fabric for a year.

CHANGES IN STATE JOB AGENCY WILL HELP EFFICIENCY

Branches to be Supervised Directly from St. Paul Headquarters

A series of administrative adjustments in the Minnesota Employment-Security division, designed to speedily meet increasing demands of the national defense program, were announced here today, by Victor Christgau, director of the state agency. Changes became effective October 1.

Instead of administering the agency's 37 full-time, 88 part-time, and 160 volunteer employment offices through nine district directors, as heretofore, local office managers will now be under the immediate supervision of the state office. The state has been divided into four areas, with a supervisor for each.

Stuart V. Russell, who has been district director for the northwest section of the state, with headquarters at Bemidji, has been transferred to St. Paul where he has been appointed, by federal authority, supervisor of the veteran's employment service.

Harry L. Allen, who has been a field supervisor, will be supervisor of local offices at Alexandria, Bemidji, Brainerd, Crookston, Fergus Falls, Little Falls, Montevideo, Moorhead, St. Cloud, Thief River Falls, and Willmar. Harold S. Snyder, present field supervisor, becomes an area supervisor.

State Road Department Engineer, Ends His Life at Brooks September 20

Russell E. Olson, 40 years of age, engineer employed by the Minnesota Highway department on the Trunk Highway 59 project at Brooks, died instantly from a 12-gauge shotgun wound in the heart about 5 p. m. Saturday, Sept. 20, says the Red Lake Falls Gazette.

Mr. Olson, who was residing with his wife in a trailer cabin at Brooks, is believed to have committed the rash act while in a fit of despondency. Mrs. Olson had just left the cabin to go uptown to get some ice cream for the evening meal, and had gone but a short distance when she heard the shot ring out. Rushing back to the trailer she found her husband in a pool of blood on the bed, the gun besides his lifeless body.

A physician was immediately summoned from Erskine, who pronounced Olson dead upon his arrival. Deputy Sheriff Al Huse and Coroner E. A. Troumbly were summoned to Brooks. Coroner Troumbly deemed no inquest necessary and stated that Olson came to his death by the accidental discharge of the 12-gauge shotgun or with suicidal intent.

Deceased was born at Litchfield, Minn., August 7, 1901, the son of Mr. and Mrs. Nels Olson. The remains were shipped to Willmar, Minn., where funeral services were held Tuesday afternoon.

Christmas Tree Cutting Started in North Area

It's a long time until Christmas but Christmas tree cutting is well underway in the Big Falls vicinity. The annual harvest on state-owned lands is handicapped somewhat at present because of recent heavy rains. Approximately 70,000 trees have been cut. Many of the areas which in other years were dry and in which cutting could be done without trouble, are swampy and inaccessible now, the division of forestry reported this week.

Gambling in Calcutta's Chinatown has been restricted to the Chinese, since the wives of Hindus complained that their husbands lost all their money at the gaming table.

Unit Furniture

The magicians haven't anything on some of the modern designers who plan furniture. Some of it can play music, serve you up refreshments, flip up a choice of games. But in a broader sense these trick talents of modern small-space furniture are of less practical importance than the unit design of the different pieces which makes it possible to fit them into any wall space you happen to have. If it's your destiny to move from time to time, this is a particularly satisfactory quality. You can get shelves, cabinets desks, even tables and sofas that can be fitted together in various combinations.

Made Possible by Decline in Amount Needed for Bond Retirement

TOTAL CITY BUDGET CALLS FOR $214,000

Tax Rate for City Purposes Expected to be Under Ten Mills

Receipts exclusive of taxes are estimated at $199,250. Included in the tax levy as adopted are the following items, comparable figures for 1940 also being given:

	1940	1941

Defense Needs Curtail Highway Striping; 5496 Miles Painted This Year

National defense needs, coupled with an abnormally wet summer, have seriously retarded the center-striping and hazard marking on Minnesota's trunk highways, according to C. L. Motl, maintenance engineer.

"Although a total of 5,496 miles have been striped with necessary marking," he said, "we are still far short of the mark we had every reason to expect we would have reached by this time. However, it has been impossible for the paint companies to secure raw materials necessary for the manufacture of centerline paint, due to the priority demands of national defense, and as a result deliveries to the highway department since August 1 have been very irregular.

"In fact, the supply we have received has been so curtailed that only one of the two painting crews has been able to maintain full-time operation. Beginning this week, however, we hope to secure enough paint to enable both crews to operate at full-time strength, and if we get any 'break' from the Weather Man, virtually all of the needed centerline and hazard striping will be completed this fall."

INTOXICATED BIRDS PUT ON NEIGHBORHOOD SHOW

Farmington — For two hours recently Mrs. Ward Young and several neighbors watched a pair of robins that they believed to be drunk perform on Mrs. Young's front porch. They said they thought that the birds had been eating fermented grapes. The birds staggered around on the porch rug, laid on their backs and looked cross-eyed. They acted silly just like a drunken person. After the "spree" they gradually sobered up and flew away.

GERMAN ARMIES STAGE DRIVE ON CITY OF MOSCOW

Nazi Forces Reported Within 125 Miles of Russian Capital

German armies storming toward Moscow in a great new offensive have breached Soviet defense lines, trapped several Red armies and are now fighting a vast battle of annihilation 60-125 miles from the Russian capital Adolf Hitler's high command reported Wednesday.

Thus sorely beset, the Russians openly urged Britain to attack Germany from the rear with an invasion of the continent.

Red Fleet, Soviet navy newspaper, estimated that the Germans had left 25 to 30 weak divisions—perhaps 375,000 to 450,000 troops—in France, with little artillery and few planes.

German front-line reports said Nazi troops had broken through positions which the Russians had fortified for the winter east of Smolensk.

These reports said good weather favored the German offensive, which began at six a. m., Oct. 2.

In the south, too, the plight of the Russians appeared to be growing more desperate by the hour.

Nazi military dispatches said the [illegible] wing of the Soviet army had been broken by a German drive which has already engulfed Osipenko and Mariupol, on the sea of Azov, and is threatening the Don river port of Rostov, gateway to the rich Caucasus oil fields.

German battle flags were reported within [illegible] miles of Rostov after a 250-mile advance from the Pruth river boundary between Rumania and Russia while the Nazi [illegible] [illegible] weeks [illegible].

PHEASANT CAUSES FREAK ACCIDENT

Blue Earth—Paul Mathews, a traveling salesman from Owatonna, was the victim of a freak accident on Highway 16 near Albert Lea. Mathews was traveling about 50 miles an hour when a pheasant flew up and hit the windshield of his car, scattering glass throughout the interior of the car. Some of the glass hit Mr. Mathews face, but he was fortunate to be at that moment wiping his eyes with his handkerchief so that the glass did not injure him. The shock was enough to send the car out of control but he managed to bring it to a stop safely.

OFFERS SERVICES; BUT MAN GETS STUNG

Preston — During the summer vacation some bees built a new home under the Antelope school near Island Lake. By the time school opened they had become very comfortably settled in their [illegible] [illegible]. It soon became obvious that something had to be done so Albert Pechvock offered his services. He spent a very busy week trying in a friendly way to entice the bees out of their habitat but found that his efforts were in vain. Since they wouldn't come to him he decided to go to them, so he tore out part of the foundation and crawled under the building. The bees came out—covering the body of poor Mr. Pechvock. He has been in bed since, but the bees have found a new home.

RECREATION HIGHLIGHTS

The recreation program is sponsored by the city council in cooperation with Work Projects Administration recreation leaders.

Hallowe'en Parties

Last year's Hallowe'en party was enjoyed by all who took advantage of the event held in the arena. Already plans are under way for a bigger and better event for this year. Unlike the ordinary party, too many attended the event last year. All this interfered with the smooth running of the games, etc. To get away from the congestion experienced last year, recreation officials plan to hold three different parties this coming Hallowe'en. All ages groups will be taken care of in order to show everyone a good time. During the afternoon in the arena a party will be held for small children. At night in the arena a party much like the one of last year will be held for intermediate children. Also at night will a Hallowe'en masquerade dance for high school students. Parents and children are asked to keep in touch with the paper for further publicity regarding these Hallowe'en activities.

Puppetry

At 4:30 o'clock this afternoon the "Vegetable Men" will be staged in the arena puppet theatre. Everyone is invited to attend the show. The next show will be held two weeks from today. They are being produced every other week this year, rather than every week as was the case in former years. Children interested in working with puppets are urged to take part in this activity. Camille Dostal is anxious to have new puppeteers.

Ping Pong

Ping pong is being played in the basement and upstairs of the arena. Three tables are available for all those enjoying the sport. The rooms are open afternoons and evenings. Numerous other table games are on hand in the game room upstairs. Chinese checkers, card games, checkers, and a lot of others are available.

Craft Shop

The arena craft shop has been a busy place during the past two weeks. And it's getting busier right along. Scooters seem to be in style now, as a lot of the boys are making them. A lot of other things are being constructed, not only by children, but adults as well. Monday and Friday nights have been set aside for adults. Response has been good, but there is room for many more. Anyone having a table to repair, a chair to paint, or something to varnish will find the arena basement a good place for that work. All the tools are on hand, and excellent supervision is provided.

Miscellaneous

Response to roller skating has been just about tops. But here again, there is room for many more. So far most of the participation has been children. Adults will find the sport very entertaining. For a family outing, a roller skating session is an ideal thing. For a healthy evening of clean, wholesome fun, take in the roller rink. Sunday, Tuesday, Thursday, and Saturday evenings are the skating nights. Sunday afternoons are also open for skating. Good news to all those making use of facilities at East-side park is the fact that equipment will be kept there for another two-week period. Handicraft, where you can use your hands, is another activity in the arena upstairs.

REINER

The Reiner Y. P. S. met at the church Sunday evening. A large crowd was present. Lunch was served by Mrs. Soren Hermanson and Mrs. E. Sigrud.

Miss Ruby Goodman, Red Cross nurse for Pennington County was at the Dist. 48 school last Wednesday for a check-up on the pupils. The mothers present were Mrs. Lloyd Taylor, Mrs. George Vraa, Mrs. Adolph Iverson, Mrs. John Grimley, Mrs. Morris Miller.

New seats have been bought for the school, as there are quite a few small children attending.

John Grimley who is employed at Thief River Falls, is home for a couple of weeks vacation.

Mr. and Mrs. Morris Miller and John Miller were business callers at Thief River Falls on Tuesday.

Mr. and Mrs. Arnold Hovet and son Bernard of Star, attended services at the Reiner church on Sunday.

The Reiner annual ladies aid sale will be held on Saturday October 25 at 1 o'clock in the afternoon. Lunch will be sold after the sale.

WHO'S AFRAID OF THE BIG BLACK BEAR?

Askov—It isn't very often that a bear drops in for an afternoon call but that is just what Ervin Krogh, a farmer near Askov, found in his farmyard about five o'clock one afternoon recently. He discovered the animal in pursuit of several calves so he promptly started for the invader. When the bear showed no respect for him, Mr. Krogh seized an ax from the wood pile nearby but neither adversary was willing to battle. The situation was finally called a draw when the bear retreated to the woods. Mrs. Krogh, who had gone to the neighbors for a rifle, arrived home too late for the final round.

Auxiliary Notes

All Auxiliary members are urged to attend the district rally Saturday to meet our state president, Mrs. Frank Morse of Mankato, and our district president, Mrs. Claude Carpenter of Crookston. A large representation from surrounding units are expected to be present. Members will meet in the Civic & Commerce rooms at 6 o'clock and dinner will be served at 6:30 after which a joint Legion and Auxiliary meeting at 8 o'clock will be held. This meeting will be followed by a social hour.

WHO SAID WOMAN'S PLACE IS AT HOME?

St. Peter—While Deputy Sheriff Martin Hahn had a few days vacation recently, his daughter, Miss Edna Johnson, maintained order at the county bastile. During the time in which Miss Johnson acted as sheriff she had full charge of the prisoners—four of them. There were no riots, no attempted jail breaks, nor were there any kicks on the food.

GOVERNOR ASKS MORE SPEED IN DEFENSE WORK

Stassen Addresses American Federation of Labor Convention

Addressing the sixty-first annual convention of the American Federation of Labor in Seattle Tuesday at the invitation of President William Green of the federation, Governor Harold E. Stassen frankly said "there must be more speed in building our defense and fewer strikes in defense industries."

"American Labor has a great responsibility," Governor Stassen said, "to do its full part in strengthening the country, to oppose intolerance, to clean out those who are not loyal to the country or who put selfish personal interests above the people as a whole or their own membership."

The Governor further emphasized the need of planning ahead for problems that will follow when the emergency has passed, "so that we can preserve our freedom and democracy."

Governor Stassen praised the record of the American Federation of Labor through the years of its development and its contribution to helping the working men and women of the country.

New Boys' Dormitory to be Constructed at Lake of the Woods Bible Camp

A fine new boys' dormitory is to be built at the Lake of the Woods Lutheran Bible Camp at Wabanica, six miles northwest of Baudette, as a result of a decision reached last week, says the Baudette Region. The building will be a commodious one and will be a welcome addition to the camp, which already has several attractive structures. Other improvements are also planned for the camp, which is located on a scenic spot on the bank of the Rainy river.

The election of officers resulted in Rev. C. B. Nervig of Roseau being named president; Rev. R. M. Runestad of Badger, vice-president; Rev. L. M. Larson of Stephen secretary; Obert Mammer of Badger treasurer and Rev. H. O. Aasen of Baudette, camp manager.

The association had one of its most successful years in 1941, and prospects for the future are even better, with hundreds of campers from all parts of the state gathering to take advantage of the recreational and religious program.

Revised Traffic Laws, Pocket Size, Published for Free Distribution

The state highway department announced this week that it has printed a revised edition of 100,000 copies of the Minnesota traffic laws, for free distribution in the cause of greater traffic safety.

The booklets, pocket-size, will be distributed to the schools through the department of education; to local safety groups by the Minnesota Safety Council; and to local officials and individual motorists, upon request, by the department of highways.

There was little change in the uniform traffic act by the last legislature except in the provision which made the revocation of a driver's license mandatory upon conviction for drunken driving.

The new booklets, however, in addition to the state traffic regulations, contain the provisions of present state laws governing unauthorized use of motor vehicle, crimes against public health and safety, regulations governing the scattering of refuse along the highway, causing injury to or obstructing or damaging a highway, and the laws regulating the use or sale of fireworks.

ATTENDANT "WASHED" STATION WINDOW

Redwood Falls—Hunting season wasn't open yet but Gib MacDonald of Redwood Falls thought it would be nice to buy a gun for his young son. He looked at a gun in a service station and remarked that it handled fine. Then Tom Tyson, the station attendant offered to demonstrate; he brought the gun to his shoulder and took a nice bead in the station window. Then he pulled the trigger. Gib, who was wearing shoes with slippery soles, slid to the floor with a shriek. Although he wasn't in the line of fire, Tom thought he had shot him. He hadn't. Upon investigation they found there were no corpse to be found outside either. The only casualty was the window but Tom had the pane and frame repaired. He also has another pane waiting for the next victim.

FISH CAUGHT—HOOK, LINE, AND SINKER

Royalton—Fish stories are very common but good fish stories are very rare. Dave Hall who recently fished near Langola tells one of the better variety. Dave's cast went across the river and caught in a tree. While the line hung over the branch it slackened and the bait slipped into the river. A pike immediately snapped the bait and Dave reeled the fish up into the tree. There was nothing left to do then but pull, so pull he did. The branch broke, and he reeled in hook, line, sinker, tree and fish.

Hitler has suddenly grown very fond of the English people. Their leaders are a bunch of dopes of course but the people are a fine lot of folks. So intimated the great leader of the superior race in his recent speech. Well Adolf, how about the rest of your neighbors, the Danes, the Norwegians, the Hollanders, the Belgians and the people of all the other little countries you have enslaved. Surely you don't expect to fool anyone very much until you get your foot off their necks.

Observers say that developments in Russia during the next few weeks will be of the greatest importance. Hitler is shooting the works in an effort to take Moscow. If he succeeds in this campaign he will announce that his purpose in Russia has been accomplished and his people will be directed to celebrate another great victory. This great prize, he hopes, will satisfy his followers and justify the terrific cost of his eastern war which now has raged four months. And it may work out that way. But if it should happen that the Russians do the impossible again and hold Moscow through the winter then Hitler isn't going to have a particularly Merry Christmas in Berlin.

Maybe you would be glad to have your chimney cleaned before cold weather sets in, but just don't know where to locate a man to do the job. Well that's easy. Read the classified section of the great family journal.

Another substantial reduction in the city's tax assessment for the coming year is the best news of the week. The levy for city purposes will be less than ten mills, an all-time low in the history of the municipality. Only $16,000 will be taken from the 6,000 inhabitants, or less than $3 a head. That small sum of course will not cover the cost of operation. Expenditures for the coming year will exceed $200,000 but the money to meet this big bill will come from other sources, mainly the light and water departments. It is not unreasonable to hope that the time is near at hand when it will not be necessary for the city to levy any taxes. Two years ago the city's levy was 25 mills. If you consider your property as an investment then the reduction of 15 mills in the taxes on that property has increased its value considerably. At present interest rates a reduction of $5 in taxes adds more than a hundred dollars to the value of the property as an investment.

George Christie and Horace Cutten are celebrating the silver anniversary of their partnership as publishers of the Red Lake Falls Gazette. To a couple of neighbors who have done a swell job we say congratulations and best wishes for many more years of useful service. Incidentally Horace Cutten is president of the Minnesota Editorial Association, a fair indication that the paper and the publishers are respected by the members of their own craft.

In seasons like this it is easier to appreciate the value of livestock and poultry as a source of income. In those years when grass seeds brought fabulous returns, messing around with cows seemed to be a foolish waste of time. Now that cream checks represent heavy folding money again it is nice to know that we are living in a dairy country.

The nation-wide argument about limiting *profits, wages and prices is continuing* with unabated fury. On this question, as on all others, people are inclined to argue from the standpoint of their own particular interests, which is natural. Those who seek higher profits want no limit on profits. Those who seek higher wages want no limit on wages. And those who seek higher prices want no limit on prices. The other felolow is always a blackguard. Our own motives are always simon-pure.

Maybe Charles Lindbergh is expressing a hope rather than a fear when he suggests that he may soon be denied the right to express his opinions. If he keeps on getting himself snarled up in silly arguments he may find himself in the unpleasant predicament of having no one willing to listen to him. No, Charlie, no one is going to try to stop you from talking. Americans have a great deal of respect for you as an aviator. Undoubtedly you are a great American and will always be favorably remembered for that daring flight across the Atlantic. But being an authority on one subject, does not make you an authority on all subjects. Don't feel too badly about this, son. Look around you and you will find many other men who are truly great along one line but who, when they get out of their own field, are sub normal.

The little Republic of Panama turned thumbs down on the idea of arming the merchant ships that for some time have been sailing under her flag. And properly so. It is one thing to be registered as a Panama merchant ship. It is quite another thing to fight as a Panama ship, flying the Panama flag. It is the difference between peace and war and as long as Panama is an independent Republic she should have the right to determine what uses her flag should be put to. The answer to this situation, as far as our government is concerned, is to face the facts honestly and not evasively. Let's do one of two things. Let's get all the way into this war or all the way out of it. We would favor getting all the way out of it if we were not sure that that is the road to ultimate defeat. The minute we withdraw our support from the nations that are resisting the agressors, that resistance will immediately stop. Our problem will then be to come to terms with a combination of dictators who control all the rest of the world. We can see no possible hope for our survival as a free people under those conditions. So we favor the other course. But let's do it honestly.

We have just deciphered a code message from our City Hall listening post and can inform you reliably that a drive is going to be made on speeders. THIEVES TAKE MELON BUT MISS $2000

Brainerd.—The honest or unaware citizens of Pine River didn't touch over $2000 in cash that Charlie Bjustrom of Hopkins left laying on the cushion of his unlocked car for 36 hours right in the business district of that town recently. Mr. Bjustrom had just purchased a farm for the United Farm Agency and stopped to visit some friends, forgetting that he had left the money in the car. When he returned 36 hours later he found the money resting gently in the car exactly where he had left it but a large muskmelon in the back seat had been "snitched" by somebody.

FOUND: "A STUMP-WITHIN-A-STUMP"

Benson.—The stumped residents of Camp Lake went to the farm of L. S. Gunderson to view a "stump-within-a-stump." Durward Quale was going to pull a stump out of the ground when he discovered that within the stump of a tree cut down about three years ago, was the stump of another tree. Both were oaks and the outside stump measured 20 inches in diameter while the "stump-within-a-stump" measured nine inches in diameter.

The contract for moving the barns on the fair grounds to a new location south of the grandstand was awarded to Bennie Ranum and Theodore Thompson of Rosewood. —Addressing the Commercial club, Congressman Selvig said there is a strong likelihood that a new postoffice building will be erected here in 1932. — The Lyle-Zuckerman company of Stockton, California, shipped out 28 carloads of Pennington county Burbank seed potatoes.—Rev. E. A. Cooke of Barnum succeeded Rev. John G. Lewis pastor of the Community church, the latter having accepted a Minneapolis pastorate.—E. A. Mostue succumbed to injuries sustained in an automobile accident a mile north of Holt.—The Women's club resumed activities for the season under the direction of Mrs. W. L. Carlisle, president.

1921—TWENTY YEARS AGO

Mayor John Bratrud and all city alderman announced they would file for reelection.—Mrs. H. W. Millar and daughter were routed from their home on Riverside av. when a blaze developed.—The University extension service will present a night course in business law under the direction of H. O. Chommie.—Dr. M. George Milan returned from the east where he had attended several tuberculosis clinics.—Miss Marie Knutson, Pennington county nurse, resigned her position to become affiliated with a Fargo hospital.

Food Disguised

Even Popeye wouldn't know he was eating his favorite food under this appetizing disguise. Assemble three eggs, one cup finely chopped spinach, one-half cup thick white sauce, one-half cup grated cheese and one teaspoon chopped onion. Beat the egg yolks until thick, then stir in the thick white sauce (with cheese added). Next add the spinach and onion, and fold in the stiffly beaten egg whites. Turn the mixture into a greased casserole, set in pan of hot water and bake in moderate oven about 50 minutes. Serve with tomato sauce.

Feeding Through Veins

An important new way to prolong life has recently been discovered. Food is now being given by vein to patients who cannot eat, because of excessive weakness at the time of an operation, or because the surgeon must cut some part of the alimentary tract, as in removing a tumor. Hospitals are already using the new method. It enables patients to survive digestive crises hitherto often fatal. A protein preparation, first tried out on rats, developed this method of feeding patients, according to experiments announced by Dr. Robert Elman and Dr. D. O. Weiner of the department of surgery, Washington university school of medicine.

UNUSUAL WEDDING GIFT FOR HONEYMOONERS

Sacred Heart.—One of the most unusual "plowing bees" was witnessed recently by more than 100 people near Sacred Heart. While Mr. and Mrs. Bennie Samuelson, a newly married couple, were honeymooning in Yellowstone National Park, their neighbors gathered together 16 tractors and within five hours had plowed a 65-acre plot for Bennie. It was the biggest exhibition of mass farming ever seen in that community. The Samuelsons, unaware of the neighborly deed, are expected home soon. After they recover from the pleasant shock, Bennie will be presented with the bill for 112 gallons of fuel used by the 16 tractors. This will be his part of the event, but everyone is sure he won't mind paying for that small portion of his fall work.

Doctors Stress Value of Milk as Important Diet Requisite for All

"General worthlessness" is one of the signs and symptoms which doctors are beginning to lay to diet deficiencies according to a bulletin issued today.

The disturbance to health is relatively minor, says this bulletin from the Minnesota State Medical association's committee on public health education and may be a general inferiority or to "functional neurosis" or to "neurasthenia," when, in a substantial number of cases, the real trouble lies in the fact that the patient in the case has had too little calcium and too few vitamins, especially of the B group of vitamins, over a long period of time.

"Milk should be a staple article in everybody's diet in a dairy state like Minnesota," the doctors point out in this bulletin, "because milk is the best generally available source of calcium and absence of adequate calcium is one of the important contributory factors to the condition that looks like general worthlessness to the casual observer. Calcium is also essential to proper growth and health of bones and teeth."

Nothing can take the place of milk in the diet the bulletin declares; the amount should be at least a quart a day for children and a pint or more for each adult.

"THIS BOOK ISN'T WORTH READING

One bad book doesn't make it a bad library. You wouldn't *destroy* the library to get rid of a *few* bad books.

A similar situation holds in the beer industry. The vast majority of beer retailers operate clean, decent law-abiding establishments. Now and then an occasional "black sheep" retailer turns up who violates the law or permits anti-social conditions.

The Beer Industry is now actively working to eliminate such retailers. We want to protect *your* right to drink good beer and *our* right to make it.

We also want to protect the economic benefits of beer. Right here in Minnesota, beer provides employment for 34,573 persons, supports an annual payroll of $29,866,962 and contributed $1,926,921.61 last year in state taxes.

This state, too, has an important stake in Beer's purchases from more than 100 industries supplying the brewing industry with materials, equipment and services.

You, too, can help the cause of moderation by (1) patronizing only the reputable places where beer is sold, and (2) reporting any law violation you may observe to the duly constituted authorities.

Growing With Your Child

Institute of Child Welfare, University of Minnesota

Two Kinds of Training

My neighbor had just left her four month old baby in his bassinette on the lawn for his morning sunbath when he began to cry lustily. The empty feeling inside him had evidently led him to expect that he was going to be nursed, instead of put down for ten minutes. His mother serenly went into the house.

Before the crying had continued for more than a minute, an older woman next door was out of her house and by the baby's side. Cooing consolingly, she picked him up, patted and caressed him, whereupon, of course, the crying stopped.

This kindly neighbor meant well, but she was destroying, by her interference, the carefully planned training of the baby's young mother. By picking him up when he was crying, she was teaching him that all he needed to do when he wanted attention was to howl for it.

Now babies need attention, love, and caresses in abundance. But the best time to make such offerings is when they will not lead the infant to associate them with his demands for comfort. Pick the baby up to cuddle him when he is not crying or fussing and you will find that when he is awake he will lie for long periods, perfectly contented to look around and listen. As he gets older, he will need things to play with, but a young baby has plenty to occupy him in getting acquainted with his surroundings, waving his arms and kicking his legs.

Perhaps because of the many warnings against spoiling a baby by picking him up when he is crying, a good many young mothers go to the other extreme, and pick him up scarcely at all. A baby needs the stimulation of being held, and carried about the room, and talked to. He should not learn to associate being held only with the satisfaction of his physical needs.

Don't wait until it's almost time to nurse your baby before you pick him up to play with him; you don't want him to be so hungry when you lay him down that his response will be a disappointed howl.

And remember, if you want to encourage habits of self-control in him from the very start, wait until he stops crying for a moment before you pick him up to change his diaper, or to nurse or bathe him. No one single detail of your training will be more effective. It's hard to remember to do this, because one's almost automatic response to a cry is to stop it. But it's very much worth while.

South St. Paul, Minn., Oct. 7, 1941. Buyers did not show interest in slaughter steers scaling above 1200 lbs. and there was a definite drag to that section of the market. Yearlings and light steers however, the Federal State Market News Service says, met good support and sold fully steady. A few strictly choice yearlings reached $12.25, with bulk Good and Choice steers at $10.50 to $12.00. Choice heavy steers hit $11.75. Cows and Heifers were steady, although cows grading Common and above were quite draggy. Some Choice heifers sold at $11.50. Bulk Canner and Cutter cows turned at $6.25 to $6.75 with Common and Medium grades $7.00 to $7.75. Good cows sold up to $8.50. Bulls were steady to 25c lower and vealers sold steady to weak. Stockers and feeders showed no change from late last week. Choice yearling feeders reached $11.75. Choice stock calves hit $12.50. [illegible]

Midget Watermelons

Seed scientists have produced new midget watermelons, no larger than cantaloupes. The new melons are designed for kitchenettes and to make less crowding in refrigerators. The extremely thin rind makes careful handling necessary. They are said to have all the flavor of their standard-sized brothers.

Bemidji Blitzkrieg Swamps Prowlers

Completing numerous passes for long gains, and taking advantage of mental lapses by the locals, the Bemidji Lumberjacks scored touchdowns in every period to swamp the Prowlers, 38 to 0, in a homecoming game played here Friday night. The Prowlers meet the Moorhead Spuds tomorrow night in a game at Moorhead, and judging by the play exhibited in the Bemidji fracas, Coach Newby isn't very optimistic about the outcome.

The Prowlers played fine ball during the first period of Friday's contest, the line being particularly effective in stopping the Lumberjacks running attack. It was not until the final minutes of the quarter that Jack Vinge, on a run from the Thief River 22 yard line, picked up a fumbled lateral and scooted along the south side-line and across the east goal for Bemidji's first touchdown. Tommy Tibbetts return of Fjelstad's punt, from the Bemidji 47 yard line to the Prowler 29 yard line, and Wilbur McClellan's 7 yard gain to the 22 yard line, set the stage for Vinge's touchdown run.

In the second period Vinge intercepted a pass on the Bemidji 25 yard line and returned to the 38 yard line, to start the Lumberjacks on their second touchdown. A long pass, Vinge to Dilley, carried to the Thief River 32 yard line; and after two line plays had gained but a yard, Vinge tossed a pass to left-end Tommy Corrigan, on a "sleeper" play, and Corrigan was downed on the Prowler 11 yard line. Two plays later, after Sid Nelson's plunge into the line and a penalty had put the ball on the Thief River 4 yard line, Vinge passed to right-end Dilley for the touchdown.

And then followed the "gift" play of the game. After Dilley's touchdown the Prowlers chose to receive the kick-off and Jack Vinge booted a long kick that rolled into the end zone, and with Prowlers clustered around the ball Bemidji's center, Wayne Hoberg, fell on the pigskin for the touchdown.

Coach Newby was forced to revamp his backfield during the second half as Orlin Gjernes, who had played an effective game during the first half, suffered a torn muscle in his left arm and had to leave the contest.

Bemidji continued their touchdown parade in the second half, with Vinge taking a lateral from Tibbetts and circling end for the third period's touchdown. The Prowlers made their first serious bid for a score in this period when Orrin Pederson, who recovered three fumbles during the game, fell on a Bemidji fumble on the Lumberjack 13 yard line. "Mouse" Efteland picked up 3 yards on a try at the line, but then three Prowler pass plays failed and Bemidji took over the ball on their 20 yard line.

Bemidji's two touchdowns in the final period were scored by Nelson, their 205-pound fullback, who plowed over from the 2 yard line, and Morry Johnson, who slid off right tackle for a touchdown. Jack Vinge converted the point on Nelson's touchdown when his dropkick split the uprights; and McClellan scored the extra point on Johnson's touchdown, taking a pass from Lindbloom.

In the final minutes of play Don Olson, playing left halfback for the Prowlers, broke around right end and ran [illegible] yards for an apparent Thief River touchdown, but the goal was not allowed and the Prowlers given a 5 yard penalty for "backfield in motion." Just at the game's end Don Olson, on another end run, carried the ball to the Thief River 10 yard line, for a 20 yard gain.

Keeping Score

.... With BUCK OLSON

Everything Happened

I won't complain if I never see another game like that Bemidji vs. Thief River affair Friday night. Everything happened—and most of it to the disgust of Coach Newby. All week he had drilled the boys on pass defense, explaining in detail that the Lumberjacks featured a "sleeper" on most of their pass plays. And what happened? Bemidji completed passes for long gains at least three times on "sleepers", and on the first play of the game Bemidji had a "sleeper" that nearly went into the Thief River end zone and only the fact that Bemidji's quarterback didn't see him kept a touchdown pass from being thrown.

Excepting the first period, the only interesting part of the game was the final minutes of play when the Prowlers, with a revised lineup were having a lot of fun. Here's the lineup, with linemen playing backfield positions: quarterback, Orrin Pederson; halfbacks, Lenny Lorentson and Pete Michalsky; fullback, Doug Snelling; ends, Allen Andre and Don Olson; tackles, Steve Alnes and Marlyn Dorn; guards, Eddie Chommie and Luff Fjelstad; and center, Roman Paulson. And you should have seen the football they played! Especially on offense. Of the backfield men only Lenny and Orrin knew how to shift, Doug and Pete merely stood still and called for the ball. The game's comic relief was furnished by Luther Fjelstad when, in attempting to punt, his foot missed the ball and he booted one of his blockers, Doug Snelling, in the seat of the pants. Doug says that he got quite a kick out of the game.

History Repeats

One thing that the game proved, though, and that is that boys nowadays aren't any smarter than the boys were in 1924. Friday night saw Bemidji score a touchdown by recovering their own kick-off in the Thief River end zone; and the identical play occurred in the Thief River vs. Crookston game in 1924, when Crookston fell on the ball in the Prowler end zone for a touchdown. Mike Parenteau was quarterback and captain that year, and Pinks Penney, Lloyd Bennes, Walt Larson, Cliff Bjorkman, Syl Wengeler, Arne Berg, and Dutch Zeh, among others, were team members. I was a second string back that year so I vividly recall the incident, and I'll never forget the look on "Coach "Lars" Thune's face when the Pirates got that goal! Harry Newby now knows how Thune felt.

No Alumni Game

Cliff Thomas and "J. K." Stadum have organized an alumni football team in the hope that a game with the Prowler varsity could be arranged. But apparently there won't be any game. The Prowlers are to begin basketball drill immediately after the football season is over, and it is possible that some of the basketball prospects would be injured in such a rough-house affair as an alumni game. So it's out. "J. K." said that all the alumni had to do to score on the Prowlers would be to boot the ball into the end zone and then fall on the ball.

Hockey Talk

Reports seem to indicate that there is a possibility that the States-Dominion hockey league will function again this year. Crookston, which had turned cold on hockey, appears to be getting lukewarm, and Grafton, Fargo, and Thief River are favorable to another season of the ice sport. There's a question whether or not Canadian players will be allowed to come into the States for hockey, and manager Art Senstad is engaged in correspondence with the Canadian officials in regard to the possibility of lifting the border restrictions. League president Phil Larson stated that he would issue a call for a meeting of the league directors during the next week or two, and that definite plans for the season would then be formulated.

Rules Changes

League secretary Ed Johnson received notice this week from the Amateur Hockey Association of several hockey rule changes. The rule which received the greatest revision is the one pertaining to the penalty shot. Only in case the goalkeeper makes a penalty that calls for a penalty shot is the shot taken in the usual manner, from the penalty shot line, and this is called a minor penalty, with regard to the other players the rule reads as follows: "An infraction by any other player than a goalkeeper for which a penalty shot is prescribed shall be penalized with a Major Penalty Shot which shall be taken in the following manner: the puck shall be placed at the blue line of the defending team and the player fouled will at the instruction of the referee play the puck from there and shall, without interruption attempt to score on the goalkeeper. The goalkeeper may attempt to stop the puck in any manner except by throwing his stick. When the shot is being taken the puck shall be kept in motion towards the opponent's goal and once it is shot the player has completed his play. There will be no goals scored from a rebound. The attacking player ignores the penalty shot line entirely in this play, if he so desires. Should the player who should have taken the major penalty shot be injured, the procedure prescribed for a minor penalty shot shall be followed. In addition to the above the penalty shot rule is amended that when a goal is scored from a penalty shot, a penalty shall not be given to the offending player, if the offense is in a minor category. If a goal is scored from a penalty shot, the puck shall be faced on a spot midway between the goal post and the side of the rink, fifteen feet out from the goal line in the zone in which the penalty shot had been tried."

Alvarado Youth Killed in Beer Truck Collision North of Grand Forks

The fifth 1941 automobile fatality in Polk county was added to the record Sunday night when Myron Dahlgren, about 20, of Alvarado, was killed in an accident involving two sugar beet trucks.

The mishap occurred five miles north of East Grand Forks on the Northland road at about 10:30 p. m.

Dahlgren was a passenger in a truck which crashed into the rear end of another truck, after the first vehicle had stalled on the highway when lights failed. Both trucks had delivered sugar beets to the factory in East Grand Forks and were enroute back to the Alvarado vicinity. Both were partially loaded with dirt, from the beets being hauled back to the farms.

Bill Mackey of Alvarado was driver of the truck in which Dahlgren was a passenger. He sustained injuries.

Threshing operations had no sooner been resumed last week-end following rains last Thursday than a drizzling rain fell in this locality Monday and Tuesday morning, bringing the precipitation for the past week to a total of .58 inch. Skies cleared again Wednesday, and with bright sunny weather today, prospects favor an early resumption of work by threshing rigs.

UNIVERSITY HEAD SAYS PEOPLE ARE FACING A CRISIS

W. C. Coffey Says Demands of National Defense Affect All

Speaking frankly to the convocation audience which he addressed at the University of Minnesota when he delivered his maiden speech as acting-president, President Walter C. Coffey told the student body that "any student who is not on the campus, because he has fundamental and basic desires to improve himself—that he may better serve his country and his state—should leave the institution."

Too many people in the general public also think today that the demands of defense and national preparedness are quite proper — as demands on the other fellow—President Coffey said.

"I regret to make the observation, but I believe it is true that in spite of the reality of the crisis that confronts us, and in spite of the manifold sacrifices it calls for, large numbers of citizens, though they may utter the words with their mouths, are actually making sacrifice a matter of lip service. We are all quite ready to talk about our privileges and the defense of them, but are we not, as a nation, tending to understress the concomitant obligations, ignoring the truth that privileges cannot exist without obligations? More than aluminum pots and pans is called for from most of us, and the question is, Are we really willing and ready to give more?

The university president called upon faculty, students and public alike to awaken to a realization that they are living in what approximates a state of war "yet resisting the changes in our mode of life that preparation for war on a vast scale inescapably necessitates."

Keep 1941 Plates until End of the Year, Patrol Chief Warns Motorists

Elden Rowe, chief of the Minnesota highway patrol, today issued a warning to Minnesota motorists to keep 1941 license plates on their cars and trucks until the end of this year.

"Despite the repeated warnings of press and radio," he said, "patrolmen have detected many cars already displaying the new 1942 plates. The revised motor vehicle registration law, according to the ruling of Attorney-General J. A. A. Burnquist, demands the retention of 1941 plates until December 31st, with 1942 plates being required January 1st."

"If you are stopped on the highway," Chief Rowe said, "and your car already has 1942 license plates, you will be required to remove them and replace them with proper 1941 plates. If you have destroyed this year's plates, it will necessitate your obtaining duplicate plates at the regular fee for this service. So, to save yourself this inconvenience and expense, please abide by the law and keep your 1941 plates on your car until December 31st."

Ruffed Grouse Hunting Season Will Open Next Saturday, October 11

With the ruffed grouse population nearing the peak of its ten-year cycle, a plentiful supply of that species is indicated when hunters enter the fields Saturday, October 11, for the opening of 20 days of shooting.

The season on sharptail grouse and prairie chickens also will be opened Saturday in the northeastern zone, to continue through October 18.

The ruffed grouse population reaches a high point at ten-year intervals, studies by the department of conservation have revealed, a cycle which apparently operates independent of hunting harvests. The grouse may be taken through October 30 in virtually the entire northern half of the state, excepting only the western tier of counties and a few central Minnesota counties.

The open area is bounded by highways, and lies east and north of a line running roughly south from the Canadian border through Roseau, Greenbush and Detroit Lakes; southeast through Wadena, Motley, Little Falls and St. Cloud and east to Taylor Falls. The specific boundaries are noted in the small game hunting and trapping regulations issued by the Department and hunters are urged to consult these regulations, especially when in border counties.

The bag limit for ruffed grouse is five daily, with ten in possession.

GLASSES FOUND IN TOMB OF CONCRETE

Red Wing.—Workmen in Red Wing who were recently tearing out a wall to permit store alterations chipped out a pair of "glass eyes" from a tomb of concrete. The old fashioned spectacles had evidently been buried under the concrete when it was freshly laid back in 1916. Strangely enough, the lenses were unbroken and probably can be polished and cleaned to their original quality. What those "eyes" haven't seen!

4-H Club Members Now Are Grooming Livestock for South St. Paul Show

Hundreds of 4-H club members from all sections of Minnesota are pointing their market animals for the Junior Livestock Show to be held at South St. Paul late this month. A. J. Kittleson, state 4-H club leader, announced the dates of the twenty-four annual event as October 27-30.

Club members who qualify for the annual show have been selected in competition at local fairs and achievement days during the past two months. As in the past, the show will be sponsored by the Minnesota Agricultural Extension Service and the Minnesota Livestock Breeders' association, with the co-operation of Twin City business groups and livestock marketing organizations at South St. Paul.

While the biggest feature of the show is the auction sale on the last day when all livestock is sold, one of the highlights of this year's show will be a citizenship ceremonial. Club members who are winding up their careers in 4-H market livestock work and are exhibiting for the last time will be publicly recognized during the four-day event.

47 LIVES SAVED IN 13 MONTHS OF SAFETY CAMPAIGN

Newspaper Editors of State Open Second 12-Month Campaign

After 13 months of the Minnesota Editorial Association's campaign to save 100 lives in traffic, the balance sheet of traffic fatalities showed that although the coordinated efforts of some 500 scribes had fallen short of their goal which was to save 100 lives, nevertheless 47 lives had been saved as compared with the death toll of the previous 13 months.

The editors now have launched a second campaign for a 12-month period beginning October 1 and ending on September 30, 1942. The success of their campaign thus far was attributed by the state highway department to the localization of news stories and editorials directed at specific local hazards as well as erroneous driving practices detected by highway patrolmen and other traffic officers throughout the state.

With the start of the new campaign for the next 12 months, Governor Harold E. Stassen and John F. Casey of Jordan, new chairman of the editorial association's "Save 100 Lives" campaign issued appeals calling on all editors and members of safety councils throughout the state to respond to the call of the President of the United States for mobilization of the safety forces of the country in a concerted and intensified campaign against accidents.

"I call upon you, individually and collectively," Governor Stassen said in his message, "to align wholeheartedly and aggressively behind the plans of the Minnesota Safety Council in this national accident reduction movement and so keep Minnesota to the forefront through definitely and lasting reduction of accidents in all fields."

Silver Wedding

Mr. and Mrs. Fred Kraemer have been wedding twenty-five years. Their anniversary was Sunday and a very large group of neighbors and friends did justice to the occasion by gathering at their home for a real fete and feast. The afternoon was devoted to a humorous mock wedding. This wedding solemnized by the minister, Mrs. Robert Rupprecht, who united the bride, Carl E. Olson and the groom, Mrs. Henry Van Altvorst. The bridesmaid was Mr. Orphie Bjerke and the best man was Mrs. Carl Lindholm. Mrs. Orphie Bjerke gave the bride away. Robert Kraemer was a "scream" as the little flower girl. The wedding march was played on the organ by Mrs. Mark Olson. Two vocal solos "When Pa was Courting Ma" and "The Little Dutch Kindergarten". A purse of money was presented to the Kraemer's from the assembled guests. The honor guests plan to purchase a beautiful set of silverware with the much appreciated purse. They responded with many warm words of thanks. A huge lunch was served at the close of the afternoon with a large three-tiered wedding cake as the dominate note.

Dinner guests Sunday at the Al Samuelson home were Mr. Samuelson's mother, Mrs. F. J. Samuelson and his sister Lydie Samuelson, Mr. and Mrs. Cletten Olson and daughters Carole all of Warren. Mrs. Olson is Mr. Samuelson's sister also.

Potato harvest goes on in this vicinity between showers, but work is lagging far behind other years. Very little plowing is done, quite a bit of threshing left and sweet clover almost a failure. Most of the fields have been cut and burned as *there was not seed enough to pay* for threshing.

Mrs. E. Howe and little daughter of Erskine motored here Friday and took our teacher, Miss Iva Howe to her home at Erskine for a week end visit with home folks.

Mrs. Oscar Anderson, son and daughter of Smiley motored to Shakopee the first of the week, where Mrs. Anderson will seek medical aid, having suffered from rheumatism for some time.

More Hot Water

The ordinary household hot water tank can be made to give about a third more hot water if it is wrapped in a thick blanket of mineral wool insulation. The insulation will not only slow down its heat loss, but will enable the tank to heat up faster.

PLUMMER

HARVEST FESTIVAL WAS SUCCESSFUL EVENT

The Plummer Harvest Festival, which was sponsored by the Plummer F.F.A. boys and the Plummer Commercial Club was very successful from several standpoints. First of all, we were fortunate in having the weatherman dish out some rare sunshine and clear weather. Secondly, the attendance was much larger than at previous Festivals. Thirdly, the Festival was a success from the financial standpoint.

The livestock sale under the direction of John Dysart was very well attended. It resulted in many fine rams being exchanged or purchased. One purebred boar was also sold.

The free show in the morning and the band concert after dinner were both well attended and enjoyed.

The football game between Oslo and Plummer ended in a 19-6 defeat for Plummer but our inexperienced team has been making rapid progress under the direction of Mr. Holte.

The grain, vegetable and canned goods exhibits were of excellent quality. The corn and canned goods exhibits were especially outstanding and offered keen competition.

The poultry exhibits were both larger in number and better in quality than last year. The livestock exhibits were very good considering the fact that it was the first show of its kind in Plummer for a long time.

The exhibits were divided about as follows: 210 grains, vegetables and canned goods, 20 poultry and 30 livestock, besides livestock brought in for the sale, making a total of 260 exhibits.

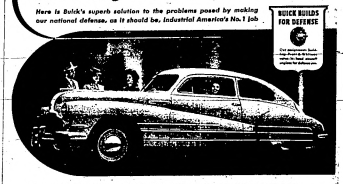
Wondering about the 1942 cars?
Here is Buick's superb solution to the problems posed by making our national defense, as it should be, Industrial America's No. 1 job



IT WAS no time to duck or dodge the facts. So we didn't try.
Instead we said—these being the materials critical in the defense program, we'll do our planning for 1942 with that foremost in mind.
Not merely for an "acceptable" car—certainly not for any "ersatz" number.
We had to have a real and representative Buick. One we could be proud of. One *able* enough, *active* enough, *durable* enough to serve till annual new models are the rule again.
We resolved on a 1942 automobile of such merit as could carry the Buick reputation without fault until other new Buicks, however far off, could come along to refresh it.
Now we're announcing those 1942 cars.
Why waste words telling you how good they are! You can't put language in the gas tank and learn either how many or how enjoyable are the miles you'll get per gallon.
There's a better answer—you drive these cars themselves. Come on, do that! Put your *own* yardstick on their quality.
It would be a shame, for you and for us, to have you miss the dreadnaught Buick we've built to stand up successfully to the toughest job in years.
No other car has ALL THIS FOR YOU IN 'FORTY-TWO
FIREBALL STRAIGHT-EIGHT VALVE-IN-HEAD ENGINE ◆ COMPOUND CARBURETION (standard on most models) ◆ OIL-CUSHIONED CRANKSHAFT PINS AND JOURNALS ◆ STURDI-LITE CONNECTING RODS ◆ STEPON PARKING BRAKE ◆ BROADRIM WHEELS ◆ FULLY ADJUSTABLE STEERING POST ◆ BODY BY FISHER ◆ WEATHERWARDEN VENTI-HEATER (accessory)

COUNCIL ACTS ON VARIETY OF CITY AFFAIRS

Approves $13,000 in Building Permits at Meeting Tuesday

PROVIDE QUARTERS FOR THE GIRL SCOUTS

Take Preliminary Action to Set up New Storm Sewer District

A variety of accumulated items of business were disposed of by the city council at its regular October session Tuesday evening, including approval of building permits calling for the expenditure of more than $13,000, and action on a number of petitions.

Largest of nine building permits approved was one to H. A. Brumund covering the construction of a business block with upstairs apartment on Second st. adjoining the Brumund hotel at an estimated cost of $8,000. The only other project calling for the expenditure of more than $1,000 is a house being erected by the Central Lumber company on Horace av. between Eighth and Ninth sts. at a cost of $3,000.

A delegation of women with Mrs. H. K. Helseth as spokesman appeared at the meeting to ask if some provision could be made to provide a meeting place for the various Girl Scout groups. After a brief discussion it was agreed that the girls and their leaders should have the use of the Civic and Commerce room from 4 o'clock to 5:30 on such afternoons as the room is not otherwise engaged.

When it was pointed out that the state has discontinued levying a $12 cigaret sale license, leaving the matter in the hands of the various municipalities, City Attorney Theodore Quale was instructed to draft an ordinance fixing the license fee at $10, which is approximately the sum the city realised under the state license system.

A petition for street lights on Kenney av. near the west city limits was referred to the council light committee for investigation. Another petition for the installation of a sidewalk on the west side of Main av. near Second st. and west on Second st. was approved subject to obtaining several additional signatures of affected property owners.

An assessment roll was submitted covering the paving of the alley in Block 29 at the rate of $35 a lot, and a hearing was set for Wednesday night, November 12. The proposed ordinance creating a new storm sewer district in the north central area of the city was given its first reading.

GIRL SCOUT NOTES

Scribe Ardis Stoughton reports that at the meeting on Wednesday of Mrs. Bowers' troop plans were made for entertainment for the Girl Scout Hallowe'en party to be given the last of the month. This troop will furnish the songs and will give a play.

Mrs. Bratrud's troop met at her home last Saturday to do woodcraft work. They also enjoyed a picnic. Mrs. Bratrud will begin her Girl Scout knitting classes at 4:30 Thursday afternoon in the Women's Club rooms.

The Girl Scout council met on Tuesday morning with the members of the Boy Scout council and are assisting them in their finance campaign. Mrs. Norbert Holzknecht is Girl Scout chairman of the drive assisted by Mrs. L. D. Hartz and Mrs. H. K. Helseth.

Any girls having old scout uniforms which they wish to sell are asked to launder them and bring them to 902 North Main. Scouts wishing to purchase second-hand uniforms are also asked to call at this address.

The taxpayer is beginning to fear it will cost even more to prime the cannon than it did to prime the pump.

RIVER CAUSES DEPRESSION OF LAND

Hill City.—It is reported that land on Hjalmer Kihlgren's farm near here has sunk several feet. The land, about an acre in area, lies back about thirty feet from the Mississippi River and has sunk straight down. One theory is that because of the great amount of rainfall, the river may be cutting a new channel at this point. Whatever the cause of the depression, it has drawn quite a number of visitors to view it.

PLAN EXPANSION OF SCHOOL LUNCH SETUP IN COUNTY

Surplus Marketing Agency Offers to Supply Foods Without Cost

At a meeting held last Wednesday in Thief River Falls for the purpose of expanding the school lunch program in the rural schools of the county, John Lynskey, executive secretary of the Pennington county welfare board; Miss Judith Jackson, county superintendent of schools; Miss Ruby Goodman, Red Cross nurse; and representatives of the Surplus Marketing Administration were in attendance.

The surplus marketing agency will again furnish an ample variety of foods to the schools at no cost, which are to be used in school lunch projects. Commodities which will be available include flour and other cereal products, fresh fruits, canned pork and beans, peanut butter, concentrated soup, honey, dried fruits and canned fruit items.

The Works Progress Administration is cooperating in supplying cooks on request and providing conditions in the school are such that a cook could be of value.

"The nutritional value of the program", said Miss Goodman, "has proven a great help in improved health, scholastic standing, and better attendance. For these reasons alone the teachers, school boards and parents should back the plan."

Mr. Lynskey stated that his staff would again handle distribution of the commodities to the schools.

Two Traffic Violators Fined in Court This Week

Two men were brought into municipal court on charges of violating traffic laws. Harry W. Sevre, living west of St. Hilaire, who was taken into custody late Saturday night on Horace av. at Ninth st., was fined $35 for reckless driving. Clifford Storholm, charged Tuesday with careless driving on LaBree av., paid a fine of $10.

New taxes are going to make the income tax blank a blankety blank!

TOTAL NUMBER OF WORK SEEKERS IN THIS AREA IS LESS

Jobs Found for 224 Persons in September, Says Sjolander

An indication of the overall effect of increased employment on idle man-power in the area comprising Pennington, Kittson, Roseau, Marshall and Red Lake counties is the fact that the number of persons registered for work at offices of the employment-security division in this area was, at the end of September, appreciably lower than it has been for many months.

The state's employment service in this section is under the supervision of C. J. Sjolander, local manager of the agency's office at Thief River Falls. He also is responsible for the division's itinerant Service at Hallock, Roseau, Warren and Red Lake Falls as well as several volunteer placement offices in the area.

According to the September report to Mr. Sjolander, job registrants in his jurisdiction totaled 560 at the end of September. This number is 10.4 per cent fewer than the total registrants in August, and 69 per cent fewer than in September, a year ago.

The Thief River Falls office's September report showed 224 placements during the month; 124 per cent more than during the corresponding month of last year. New claims for unemployment benefits were only 18; 53.8 per cent fewer than during September, last year.

For Mrs. Ella Olen

C. E. Olen and daughters Marie and Ruth entertained the following at a 1 o'clock chicken dinner Sunday at the Olen home in honor of the former's sister-in-law, Mrs. Ella Olen and daughters Olive and Gertrude, prior to their departure on Tuesday for Bellingham, Wash., where they will make their home: Mrs. A. Anderson, Lawrence Knutson, and Elmer Knutson all of Langdon, N. D., Mr. and Mrs. C. J. Heinze, Mr. and Mrs. Frank Heinze, and Mrs. Clifford Hedeen and son Charles Peter.

SOCIAL ITEMS

Women's Club Notes

Eighty-five women attended the annual guest banquet given in the Community Church basement on Monday evening. Mrs. Carrie B. Simpson of Grand Forks, N. D. spoke to the women on "Women's Clubs in Democracy" and gave the following reasons for the organization of such clubs: First, for self-improvement; second, for reforms both locally and nationally; third, for morale; fourth for sympathy; fifth, to learn to work together; and sixth, to learn to think.

Her talk was illustrated with practical examples. As a local reform the beautifying of lawns and gardens was mentioned, while the national reforms are seen in the Susan B. Anthony clubs for suffrage and the Francis Willard clubs for the control of liquor and vice. The effect of these clubs on the morale of the women was shown by the fact that one of the first things Hitler did when he came into power was to abolish all women's clubs in Germany. The importance of clubs for women was also stressed as a help to understand our nation and foreign nations. Mrs. Simpson closed with a quotation from Thoreau: "We should build our house of life with one chair for ourselves—"to take time out to think—"two chairs for our friends"—there is no one too lowly or too exalted to need friends —"and three chairs for the crowd" —there are many leaders in the world but few who are willing to bring the crowd into their homes.

A patriotic motif was followed in the decorations. Garden flowers and red tapers set in blue stars graced the tables. Favors were tiny flags and programs were in the shape of the map of the United States.

The Current Events group will meet on Tuesday afternoon, Oct. 21 at the home of Mrs. Gunder Legvold, with Mrs. J. Provencher as assisting hostess.

An interesting program was presented at the meeting of the Penates Group held at the home of Mrs. A. L. Williamson on Tuesday evening. "American Composers" was given by Mrs. J. N. Nesse, who also played several recordings. Vocal solos were rendered by H. M. Hitterdal and Miss Grace Omundson, the latter who sang several selections by Carrie Jacobs Bond. Both were accompanied by Mrs. A. Purdy.

Saterdal Luther League

The Saterdal Luther League will meet at 8 o'clock Sunday evening, Oct. 19. The musical part of the program will be furnished by the Elseths of Newfolden. Mr. Goldim of Newfolden will be the speaker. Lunch will be served by the married men of the group.

Auxiliary Notes

If you can sew, knit, mend, quilt, or even play cards, be on hand tonight at 7:30 at the Legion club rooms. Bring your own lunch. Coffee will be served. Also, if you haven't already turned in your dues, do so as soon as possible as all dues must be in by Oct. 24.

Are you a member who attended the rally Saturday night? If not, why not? It is a privilege to belong to an organization such as the American Legion Auxiliary, and when you attend these meetings you display some of your interest as well as your patriotism.

Twenty-nine members attended the 6:30 supper given Saturday evening in the Terrace Room of the Rex Cafe which preceded the joint Legion and Auxiliary rally in the auditorium that night. A short program was given; Mrs. Esther Plough, local president, introduced the district president, Mrs. Claude Carpenter of Crookston, who gave a short talk; Mrs. Frank E. Morse of Mankato, state president, then addressed the group after which Mrs. J. M. Bishop, past state president, presented Mrs. Morse with a gift from the local unit.

The past-presidents' breakfast, which was given at 9 o'clock Sunday morning at the home of Mrs. J. M. WARD THOMPSON WRITES PARENTS OF ALASKAN LIFE

Local Young Man Assumes Position as Teacher in North Region

Ward Thompson, son of Mr. and Mrs. C. T. Thompson of this city, who recently left with his wife and children for Alaska to assume a civil service position as teacher at a school in Koyukuk, Alaska, where a defense project is under way, arrived at his destination early in September, according to word received by his parents this week.

He writes that on the boat trip up from Seattle, stops were made at Ketchekan, Wrangell, Skagway and Seward. Enroute across the territory, he says that at Currie the party paid $1 each for two cold pancakes and a cup of coffee for breakfast, which was typical of the high food prices prevailing.

Reaching Fairbanks by rail they traveled by airplane the rest of the distance to Koyukuk, where they found the school and teacherage equipped with all needed supplies. Residents of that section being extremely nomadic, Mr. Thompson says, the enrollment in the school under his supervision varies from two to fifty children.

There has been no lag in the construction of dwellings in Thief River Falls this year but until recently there has been little activity in building for commercial purposes. Now commercial construction takes the spotlight again with five substantial projects under way. It is significant that all five of these major improvements are being made by business organizations that are already established in the city. That kind of development must be considered as definitely healthy.

Monday is the last day for the filing of candidates for city offices, Tuesday, November 4 being election day. There is going to be a contest for the office of Mayor but so far there has been only one filing from each of the wards and there have been no filings for the two vacancies as Alderman at Large. Something will have to be done about getting candidates into the field or there will be no competition and hence a very dull election. As long as we have to have elections they might just as well be made interesting.

Thief River Falls will truly be a convention city next week. On Monday members of the Production Credit Association, several hundred strong, will assemble here for their annual meeting. On Tuesday and Wednesday it will be the Red River Valley Dairymen; on Thursday and Friday the teachers of northern Minnesota, and on Saturday the bankers. These gatherings will bring several thousand visitors and a number of distinguished speakers. It should be a busy week in the village.

The much talked about federal regulation of installment buying is here and whatever fears we may have had as to bad effects of this sort of thing are now dispelled. We can't see that it has made any material difference in the problem of either buying or selling. The first shock of the new tough sales taxes has also been experienced without too bad effects. The tax applies to but few of those things we look upon as necessities. About the only fellow we can think of who might have reason to complain about them is the merchant who must do the collecting. For him it is a nuisance. But by and large what has happened isn't nearly as bad as we feared it might be. Maybe it will be worse later on—probably will. But the government needs the money — that's *for sure*—and there's only one way the government can get money—by taking it out of our pockets. We might as well like it.

THE FUTURE IS MORE IMPORTANT THAN THE PAST

There seems to be some difference of *opinion as to whether or not we should give* aid to Russia. At any rate there are a few individuals who are very vocal in their opposition. They argue that Stalin is just as bad as Hitler and that we shouldn't take sides in a fight between two scoundrels but rather hope that they will kill each other off.

Well that argument would have some merit if only the interests of Joe and Adolf were involved in the outcome. Unfortunately that is not the situation.

We are now giving aid to Britain, Russia and China, not because we love them particularly but because they are resisting a combination of mad men that is a definite threat to our own safety. The Axis powers are out to conquer the world. They have told us that in no uncertain terms, time and again. They have made their purpose clear both by word and by deed. We give aid to Britain, Russia and China in the hope that the aggressors will be checked in their own neighborhood, and that they thus will not be able to terrorize our neighborhood. The aid we give is not prompted by generosity. It is selfish, self defense.

But aside from these considerations and looking upon Russia and the Russian system as the problem that it is, isn't it possible that we will gain more by a friendly approach than one that is based on demands that they must conform to our standards before we will deal with them?

Possibly the Russians hate and fear us for the same reasons that we hate and fear them. Our ways are not their ways. We think our ways are right and they no doubt are equally sincere in believing their ways are right.

A few Russian leaders may at one time have had notions of world conquest. After four months of defending themselves from another would-be world conqueror it isn't likely the Russians will be a threat to any other nation for a long time to come. They may not be conquered but they already have been badly whipped. Communism may be a threat, that is true, but in the disorders that will follow the present struggle Communism will be a threat regardless of what happens. The seeds of that disease have already been planted in our system.

The present emergency, it seems to us, provides us with an excellent opportunity to establish friendly relations with the Russians that will do much to overcome old prejudices. The burden of our present problems certainly is heavy enough and we will bear this present burden more easily if we lay aside the load of bitterness over past mistakes that too often obscures our vision. We will need clear vision over the rough paths we will have to travel in the future.

SAFE AND DIFFERENT

Company coming for lunch? Of course you want to have something different from the chicken salad or chicken a la king everyone else serves. But when you begin casting about for an inspiration you bump against the question . . . "What will they all like?"

Everybody Likes Chicken

The nice thing about chicken is that just about everybody does like it. It's such a safe food to serve. Well, then, let's make our main dish chicken. But it won't be the same style chicken everybody else is serving.

Ours will be Plantation Shortcake. Delicious creamed chicken served over piping-hot corn bread. It's the rage in lots of tea rooms just now. But we'll go the tea rooms one better. Instead of the plain creamed chicken . . . we'll have Chicken Terrapin over the fluffiest, tenderest, crispiest, most melt-in-your-mouth corn bread your guests ever tasted. Chicken Terrapin, you know, is creamed chicken with mushrooms, peas and pimiento added. So when you serve it over corn bread, your main course is complete . . . except for the garnishes.

The Garnishes

A jewel-like mold of cranberry jelly in a setting of crisp green lettuce and studded with a ripe olive or two.

Here's the complete menu:

Chicken Terrapin Plantation Shortcake Cranberry Jelly
French Apple Pie
Coffee

You see we're playing safe with the dessert, too. The favorite American dessert . . . with a few French flourishes! I'll tell you about these new trappings as soon as I've given you the recipe for Chicken Terrapin and Corn Bread.

CHICKEN TERRAPIN PLANTATION SHORTCAKE

Corn Bread

Beat 1 egg well. Add 1½ cups buttermilk or sour milk and ½ tsp. soda. Sift together ½ cup sifted all-purpose flour, 1½ cups white or yellow cornmeal, 2 tsp. baking powder, 1 tsp. salt and 1 tsp. sugar. Add to the egg and buttermilk mixture. Mix well and blend in ¼ cup melted shortening (part butter). Fill 12 hot well greased muffin cups ⅔ full . . . or pour into a hot well greased 8-inch square pan and bake in a hot oven, 450° F. The muffins will bake in 10 to 15 minutes, and the corn bread in 15 to 20 minutes.

Chicken Terrapin

Melt in saucepan . . . ½ cup butter. Add ½ cup flour mixed with 1 tbsp. salt, ½ tsp. pepper, ½ tsp. paprika. Stir until well blended. Add 3½ cups rich milk and 2½ cups chicken broth. Cook until thickened, stirring constantly. Add cut up mushrooms (contents of 1 No. 2 can), 2 hard cooked eggs (cut into cubes), 1 can small peas (No. 2 can), 4 pods cut up pimiento (1 small can) and cook a few minutes. Add 4 cups cooked chicken (meat from 3½ lb. fowl) (cut into 1 inch pieces). Keep over hot water until time to serve. Just before serving add 1 tbsp. lemon juice. This makes 16 servings. For 8 guests use ½ the recipe.

FRENCH APPLE PIE

To transform a plain American Apple Pie into a French Apple Pie . . . simply leave off the top crust. Make a crumb mixture by creaming together . . . ½ cup softened butter and ½ cup brown sugar. Sift 1 cup of all-purpose flour and work it into the creamed mixture with a pastry blender or spoon. Sprinkle this crumb mixture over the apple filling. Bake as you would a regular apple pie. Serve with plain or whipped cream, if you wish. The crumb mixture gets deliciously crispy in baking. You'll love the way it blends into the soft, cinnamony apples!

University Slumps Ten Per Cent in Enrollment

Approximately final figures on registration at the University of Minnesota show that it will have just about one-tenth fewer students in the grand total this year than last. At the same time, a great variation was evident in the enrollment trend of the different colleges within the university, these ranging from a loss of 21 per cent in the Law School enrollment to a gain of approximately one-third in registration in the School of Dentistry. Both are, relative to some of the others, small colleges, so that small numerical changes make large percentages. Smallest loss in a big unit of the university was that in the Institute of Technology, which declined only from 2389 students last year to 2350 this year, or 1.6 per cent. The largest college in the university, Science, Literature and the Arts, declined from 4700 a year ago to 4218, the latter figure still being equivalent to the enrollment in a good-sized university.

AGED MAN CRAWLS HALF MILE HOME

Wadena—A. F. Skinner, 75, resident of Rockwood township for half a century, spent two days and three nights recently crawling through the woods to reach his farm home a half mile away after suffering a stroke recently. The pioneer, knowing his cries would not be heard from where he had fallen, started to crawl home. The first night he said he didn't mind much because the weather was warm. His strength held out but one arm and leg were paralyzed. The second and third nights he suffered from thirst and cold. Scratches and bruises began to pain him. As he reached his porch a neighbor came along and took him to a hospital.

Shucks, Mr. Wynn, boys haven't changed at all.

As we remember the 1917 Army boys, they wouldn't have gone for a Perfect Fool either. They were an easy-going lot and there was only one thing that they wanted perfect—that was a 36.

Looking Backward

1931—TEN YEARS AGO

The municipal power plant produced a total of 1,380,500 kilowatts of electricity this year to October 1, an increase of 11 per cent over the preceding year. — The John E. Gustafson family moved into their new home, recently completed by Contractor Bert Norby.—With only two days of the filing period remaining, no candidates for mayor or alderman have filed in the city election.—Mrs. Paul A. Lundgren was elected president of the Parent-Teacher association. — Miss Gladys Weeks was named a member of the St. Olaf college choir at Northfield.

1921—TWENTY YEARS AGO

A celebration held in observance of the completion of the first block of paving in Thief River Falls attracted the largest gathering in the history of the city. A pavement dance was a feature.—A reassessment of personal property and moneys and credits in the city increased the assessment rolls from 449 to 629 names, and accounted for a gain of $136,000 in the total listings.—Torjus Haraldson, 91, the city's oldest resident, passed away. — The new deep well drilled by the city is deemed adequate to meet all demands.

THESE GUNS 'KICK' HUNTERS OVERBOARD

Gaylord.—An amusing incident occurred in Gaylord on opening day of hunting season. The informant was standing but a short distance from two hunters when a pair of ducks flew over their boat. The birds were too high for a shot, but the hunters took a chance. They stood up in their small boat and the first hunter fired. The kick of his gun unbalanced him and he went into the lake. The second man fired at the next moment and he too toppled into the lake. The men yelled for help; but soon realizing that they could touch bottom, turned the boat right, fished out their guns and made for shore minus the ducks, but much the wiser.

100 ARE PRESENT AT LEGION RALLY IN CITY SATURDAY

State and District Officers of Legion and Auxiliary are Speakers

More than 100 Legionnaires and auxiliary members from throughout this section of the state assembled in this city Saturday afternoon and evening for a district rally addressed by Roy Anderson of Austin, Minnesota department commander, and Mrs. Frank Morse of Mankato, state president of the auxiliary.

Conferring with former service men during the afternoon were S. V. Russell of St. Paul, veterans' employment representative; and Leslie Welter, Jr., of Moorhead, liaison officer of the Veterans' Bureau. Also present were Ninth District commander Philip R. Monson of Fergus Falls and Mrs. Claude Carpenter of Crookston, district auxiliary president.

J. F. Franklin, state highway patrolmen stationed at Roseau, discussed school patrols as a traffic safety measure, and cited the need of one in this city at Main av. and First st. near Lincoln high school.

A social hour, lunch and dancing followed the evening session.

Moorhead Noses Out Prowler Eleven 13-6

Scoring two touchdowns in the final four minutes of play the Moorhead Spuds edged out the Prowlers, 13 to 6, in a hard-fought game played on the Moorhead field Friday night. The luckless Prowlers will conclude their season's schedule tomorrow when they invade the Warren corral for a game with Coach Lysaker's Ponies.

The first three periods of Friday's hectic contest saw the Spuds and the Prowlers engaged in a kicking duel, with the play ranging between the 30 yard lines. The Spuds did make a threat at scoring in the first quarter when Gordy Monson intercepted a pass on the Prowler 40 yard line and returned to the Thief River 20 yard line. A drive off tackle carried to the Prowler 9 yard line, for a first down; but the locals piled up two running plays and smeared two passing plays, to take the ball on downs on their 5 yard line.

The Prowlers' score came early in the fourth period when fleet-footed Don Olson, running from the left halfback position, and getting fine blocking from his mates, swept around right end for 52 yards and a touchdown. The Prowlers attempt to collect the extra point failed when, from a fake kick formation, a pass into the end zone was dropped.

The Prowlers held the upperhand in the play until the final four minutes of play when the Spuds took to the air to gain their victory. Moorhead received the ball in midfield on a punt. Ted Olson, the Spuds' fullback, flipped a pass to Gordy Monson, who had evaded the Prowler secondary, and Monson made the catch on the Thief River 24 yard line and sped across the goal for a touchdown. The try for extra point was missed, and the game was knotted at 6-all. Moorhead rushed back on the attack after intercepting a pass on their 16 yard line. Two completed passes and a run carried the ball to the Prowler 40 yard line, with seconds of play remaining. Three plays into the line, trying to break across the tackles, netted but 4 yards, and on 4th down the Spuds tossed a pass and, in the most spectacular play of the game Orrin Pederson intercepted the pass and ran 96 yards for an apparent Prowler touchdown. But the play was nullified as the Moorhead backfield had been in motion before the snap of the ball, and a 5 yard penalty was inflicted on the Spuds, bringing the ball to the Prowler 11 yard line, on 4th down. Ted Olson, Moorhead's ace passer, received the ball and just as the gun sounded ending the game, he tossed a pass to right end Jimmy Hertelson, who made the catch in the end zone for the game-winning touchdown. Alvin Lund's place-kick added the extra point.

DEFENSE TRAINING TOPIC AT C. AND C. SESSION THURSDAY

Group Votes No Action on the Matter; Arranges for G. Caldis Gift

At the Civic and Commerce association luncheon last Thursday, Clarence Sjolander requested the opinion of the membership on making a local application of the supplementary training program for defense workers sponsored by the Office of Production Management.

The association, in view of the lack of any local defense industries, went on record as feeling that there is no need for such a project here at the present time.

Named on a special committee to arrange for the presentation of a gift to Gordon Caldis, co-captain of the University of North Dakota football team, were Morris Bye, L. W. Rullen and W. E. Dahlquist.

The presentation will be made Saturday afternoon, October 25, in Grand Forks, and it was indicated that the Junior Chamber of Commerce and local service clubs will share in the gesture of the Civic and Commerce association.

EDUCATION BOARD ELECTS TEACHER MONDAY EVENING

Mrs. Lenore Ulleberg Named Fourth Grade Teacher in Northrop

The local board of education, at its October session Monday evening, elected Mrs. Lenore Jaranson Ulleberg to the position of fourth grade teacher in the Northrop school, succeeding Miss Orpha Gabrielson, who left this fall to assume a position in the schools at Skagaway, Alaska.

Mrs. Ulleberg is a graduate of Crookston high school and of Bemidji state teachers college. She has taught two years at Euclid and two years at Guthrie, Minnesota, in addition to serving as substitute in the Thief River Falls schools.

The board also voted to supply the four school buses with first aid equipment as required by a new state law at a total cost of approximately $120.

Supt. Morris Bye reported that 16 members of the local faculty had been in attendance this year at summer sessions at various institutions of higher learning.

FAVOR ADOPTION OF HOSPITAL PLAN OF FARM BUREAU

Action Taken to Carry out Rural Project at Two Meetings

Considerable interest was shown in the rural hospital service plan discussed in the county last week at two meetings, according to County Agent Ernest Palmer. K. A. Kirkpatrick, hospital service specialist of the Minnesota Farm Bureau Federation, gave two talks on the project at meetings at Highlanding and Thief River Falls on Friday, October 10.

Both groups hearing Mr. Kirkpatrick discuss the plan voted in favor of carrying the plan further and to organize units along the lines required. Community meetings will be held during the first part of November to set the program up in various parts of the county.

According to Mr. Kirkpatrick over 2,000 farm families in Minnesota have already joined up with the hospital service plan with Polk County leading with 200 families belonging. Other counties in this area already under the plan are Red Lake, Norman, Mahnomen, and Beltrami.

Rule Changed This Year

If the Prowlers had played the Moorhead game under last year's rules they would have won a 13 to 6 victory, but because of a rule change they lost by that score. Here's the reason: with a couple of seconds of play remaining in Friday's game, the ball on the Prowlers 6 yard line and in Moorhead's possession, and a fourth down with goal to go, the Spuds attempted a pass, which was intercepted by Orrin Pederson, and Orrin, taking the ball on the 4 yard line, lit out for the Spud goal-line, 96 yards away, and made the run for a touchdown; but then came the awakening, and only after the Prowlers had lined up to try for the extra point. The referee had blown his whistle just as the ball was snapped, having noticed that the Spud backfield was in motion preceding the snap of the ball. Last season's rule would have given the Prowlers the option of accepting the penalty or the down, and they, of course, would have taken the touchdown; But this year the rule calls for a straight 5 yard penalty for the "backfield in motion." The ball was brought back to the Prowlers 11 yard line, and the Spuds, on the game's last play, completed a pass into the end zone for a touchdown. It's tough for the Prowlers to lose games like that.

Play Warren Friday

And the Prowlers will be having themselves a busy week-end. On Friday afternoon they meet the Warren Ponies, and Warren's Lysaker would like nothing better than to upset the Prowlers. That would make the Warren season a success. If the Prowlers play the football of which they are capable they should come through with a two-touchdown win. The locals, though, will have to sharpen their pass defense, for the Ponies, with their weak line, have been stressing an aerial attack; and the Prowlers haven't been too effective in their pass defense play. Warren does have a fine fullback in Chuck Cheney, and a clever halfback in Jack Gilbertson, who's on the receiving end of many of the Pony pass plays.

And immediately following the game on Friday the Prowlers will return home and make themselves ready for the trip to Minneapolis, where they will witness the Minnesota vs. Pittsburgh game on Saturday. The Prowlers, about 22 of them, will leave by bus sometime Friday night.

The Ball Club Finances

Secretary-treasurer Chuck Dostal reported that the ball club, for the second year in a row, finished the season "In the black". All the bills have been paid and there remains a "nest egg" of 21 dollars in the treasury. Chuck made the comment that it would be nice if this sum could be used as a base on which to build a fund to buy suits for next year's team. It's an idea.

Classic League Begins

The Classic league began their season this week, bowling on Wally DuChamp's new alleys. I don't wish to put a "hex" on any team, but come next March, the outfit that will have the championship will be the Palm Garden team. They are managed by Gay Haugen, captained by Jess DuChamp, and piloted by Lenny Helquist, and that's all that's necessary. That Lenny Helquist is the same fellow that made that short trip into the army, being rejected because of injuries to his pedals. Speaking of Lenny gives me a chance to mention that it's quite a treat to hear Lenny, when he's feeling mellow, give out on Clyde McCoy's "Sugar Blues". It's real boogie-woogie, or something.

That's Cleared up

I've often wondered who that Pirate was that fell on the kick-off in the Prowlers end zone and scored a touchdown in that 1924 game. And I've discovered that it was Crookston's halfback, Lyle Francis, who, by the way, is employed by the Tunberg Motor Co., here in town. Lyle remembers the play very well for he was the fellow that made the kick, and then dashed down the field and fell on the ball for a goal.

Hunting Results

Quite a number of duck limits, and several geese, have been brought back from the Ada vicinity; but according to latest reports it appears that the ducks down there have been pretty well shot out. Busher Hallstrom, who had two good shoots down there, said that his last trip, on Saturday, wasn't worth the ride.

The partridge shooting, too, has been spotty. Herb Jung, John Lind, Lloyd Bennes, and Judge Lincoln Arnold, were in the tamarack south of Williams on Saturday and Sunday, and they returned with forty birds. They report that plenty of partridges were in evidence. Cliff Bjorkman was around the Four-town territory, and so was Skoogy Nelson, and by hard hunting they barely scrapped up their limit. There just weren't many partridges around there.

It's odd how some people have such a fine memory about the details of some experience they have had and then fail to remember that they have told us about it two or three times before.

Mrs. William Norton Loses Life East of Crookston Sunday Night

Mrs. William Norton, 50, Red Lake Falls, was killed Sunday night when the car in which she was riding, crashed into the rear of a stalled truck load of oats nine miles east of Crookston on highway No. 2.

The car in which the party was riding was driven by Mr. Norton and was traveling east toward Red Lake Falls.

Driver of the truck was Joseph Lanctot who said the truck became stalled partly on the highway and that he tried to push it onto the shoulder. Unable to do that he was trying to crank the machine when the crash occurred. His brother, James, who had been riding with him, was also out of the truck at the time.

When the crash occurred Mrs. Norton was pinned under the dash of the car and died of internal injuries.

FINDS TRIPLE-YOLK EGG AT WHEATON

Wheaton.—During the 39 years that Charles Wickert has worked in a produce company at Wheaton, he had found two triple-yolk eggs. One was recently found that was not much larger than an ordinary egg, weighing about 3 ounces, and normal in shape. The egg showed three yolks clearly under the candler. This is very rare as only one egg in every two million has three yolks.

These days of sunshine have certainly made a difference in the amount of threshing left. Many farmers are through and more are finishing each day. Albert and Rudolph Hanson and Wallace Tieman have been busy getting the potatoes dug. Some spots in the fields have been impossible to dig. Where it has been too wet, the potatoes have rotted, yet the yield is not bad considering the lateness of planting last spring. The rains then, too, caused extra work, necessitating a replanting for many.

GRYGLA

MRS HANS PETERSON CALLED BY DEATH

The shocking news of the death of Mrs. Hans Peterson reached residents here on Monday. Mrs. Peterson suffered a stroke on Friday morning the day of her husband's funeral, but was able to attend the funeral. In the evening she had another stroke which left her in a coma from which she never rallied. She passed away at a Thief River Falls hospital early Monday morning.

Mrs. Jarand Fladeland Peterson was born at Canby, Lincoln County, Minnesota on October 18, 1874 and passed away October 13, 1941 at the age of 66 years, 11 months, and 24 days. At the approximate age of thirteen she moved with her parents to Montana where they lived for about two years. The family then moved to Crookston, where they remained for one year, moving to Fisher. She was married at Grand Forks in August, 1892 to Hans T. Peterson, who was then a student in that city. They made their home at Fisher until 1898 when they came with their two oldest children to Grygla. She lived at Grygla until her death with four more children added to her family. Mrs. Peterson, like her husband, was a true pioneer and helped to build this community. She was a member of the St. Olaf congregation and a charter member of the St. Olaf Ladies aid which was organized in 1901. She took an active part in this organization, holding several terms of office, even being present at the latest meeting.

She leaves to mourn her passing two daughters, Mrs. Edna Wentz of Grand Forks and Mrs. Hazel Ristau of Mavie; three sons, Ole and Clarence of Grygla and John of LeSueur; two sisters, Mrs. Thone Loyd of Grygla and Mrs. Annie Newton of Thief River Falls; and ten grandchildren. She was preceded in death by her husband, one son, three sisters, and four brothers.

Funeral services were held from the St. Olaf church on Wednesday at two o'clock. Reverend E. O. Sabo of Mavie officiated and Rev. C. I. Ostby sang two songs. Pallbearers were the same as for Mr. Peterson and burial was made in St. Olaf cemetery beside the newly made grave of her husband.

Last Rites for Hans T. Peterson

Funeral rites were held from the St. Olaf Lutheran church on Friday at two o'clock, with Reverend E. O. Sabo of Mavie officiating. Two beautiful hymns were sung by Rev. C. I. Ostby. Burial was made in the church cemetery.

The deceased who was one of Grygla's first settlers was born on April 15, 1868 at Lake Johanna. At the age of twelve years he moved with his parents to Fisher where he lived until 1898 when he came to Grygla. He was married to Josie Fladeland at Grand Forks in 1892.

He is survived by his wife of Grygla, three sons, Ole and Clarence of Grygla and John of LeSueur; two daughters, Mrs. Edna Wentz of Grand Forks and Mrs. Hazel Ristau of Mavie; three brothers, Halvor, Andrew and Christ Petersen all of Fisher, one sister, Mrs. Tom Legvold of East Grand Forks and ten grandchildren. He was preceded in death by one son and one brother.

The deceased was a charter member of the St. Olaf Lutheran church and had been very active in community life. The esteem in which he was held was forcefully testified by the large number of beautiful floral offerings as well as the memorial gifts.

People from a distance who attended the funeral were: Mr. and Mrs. Tom Legvold and family, Mr. and Mrs. Jack Christianson and daughter, and Mr. and Mrs. Oscar Thompson, all of East Grand Forks; Halvor Peterson and daughter, and Christ and Andrew Peterson of Fisher; Mrs. Ale Newton and Bjorgo, Mrs. Leonard Helgeland, Ida Bjorge, Mrs. Lars Erickson, Mr. and Mrs. Ale Johnsrud, Mrs. Gunder Lee, Mrs. J. E. McCoy, Mrs. Gunder Grovum, M. R. Leverson, Mrs. Amund Aase, Mr. and Mrs. Sidney Fladeland and Betty, Mr. and Mrs. John Stewart, Mr. and Mrs. Philip Hawkins, Mr. and Mrs. R. N. Hanson, Irving Hanson and Orvin, and Mrs. Hoffer all of Thief River Falls; Mr. and Mrs. Leonard Newton, Thelma and Ethel Newton, and Mr. and Mrs. Harvey Ristau and family of Mavie, Adelaide Peterson of Bemidji; Mr. and Mrs. John Peterson of Le Sueur; Mr. and Mrs. Russel Wentz of Grand Forks; Mr. and Mrs. Alton Mattson and daughter of Fosston; Mr. and Mrs. Otto Johnson of Warren; Mr. and Mrs. A. The Hyllands were given a purse of money as a farewell token of good will by their assembled friends, the presentation being made by Daniel Tollefson. The party was planned and arranged by Mrs. Harold Nordby and Mrs. Curtis Nordby.

Floyd Wurscher acted as chairman while Thelma Johnson spoke on "The Value of Music"; Viola Berger's topic was "Rhythm in Rural Schools", and A. Bendix Isaacson spoke on "Physical Recreation." Floyd Wurscher then explained how recreation is encouraged by the government and by P. T. A. organizations. After questions by the audience were answered Thelma Johnson gave the summary. Margaret Sersland and Harriet Hahn rendered two Tonette duets after which a social hour followed. Lunch was served by Mrs. Mike Teigland, Mrs. Robert Thorson and Viola Berger.

MAKE PLANS FOR LIVESTOCK SALE AT WINTER SHOW

Red River Valley Sale Slated at Crookston on Feb. 5-6

Two dates, February 5 and 6, 1942 have been selected by the sales committee of the Red River Valley Livestock Association for auctions of pure bred livestock at the forthcoming Winter Shows at Crookston, Minnesota. The sales committee made preliminary arrangements at their meeting at the Northwest School on October sixth for their annual two day sale. Fred Reppert of Decatur, Indiana, a national known auctioneer of pure-bred livestock, has been invited to return to Crookston and conduct the sale. Reports from the livestock breeders of the Red River Valley, indicate that they are giving one-hundred percent support to the Winter Shows sale and that they are holding back outstanding animals for the sale.

According to present plans, breeds of hogs and sheep will be sold on Thursday, February 5, and breeds of beef and dairy cattle will be sold on Friday, February 6. A closing date for consignments for the Winter Shows sale has been set for December first. Present indications point to a larger sale in February than was held in February of this year in which the sale amounted to $8,797.50.

Members of the sale committee present for the meeting included: chairman, Andrew Johnstad, Beltrami; E. E. Carmen, Ada; Gordon Clow, Hallock; J. H. Rosendahl, Warren; Emil Lerud, Twin Valley; A. J. Dexter, St. Paul as Business Manager; A. A. Habedank, Clerk, Ada; president T. M. McCall, and Secretary O. M. Kiser, of Crookston.

Editors Fix New Goal for Halting Traffic Deaths; Appeal for Aid of Clergy

Appealing to the clergy of all faiths and denominations for sustained aid and encouragement throughout their new traffic accident prevention campaign, the "Save 100 Lives" committee of the Minnesota Editorial Association today announced a new month-by-month goal for the reduction of traffic fatalities during the ensuing 12-months period.

The call for renewed efforts in the statewide drive for safer travel on streets and highways was issued by Chairman John E. Casey, editor of the Jordan Independent, in behalf of the Editors' Safety Committee.

"It is lamentable that in a campaign to try to save 100 lives we must still allow for the killing of 475 people in traffic in Minnesota during the next 12 months", Chairman Casey said in announcing the proposed budget. "This committee will not be satisfied so long as even one death occurs in traffic, for we know that every traffic death is one which it was within human power to prevent.

"We are calling upon all of the people in influence in Minnesota to aid in this campaign, and we believe that there exists today no greater potential influence for the encouragement of safer traffic habits than that of the clergymen in every Minnesota community. We are, therefore, appealing to the clergy of every faith and creed to do all that they feel is properly within their power to eradicate the evil of thoughtless, careless, or wanton driving."

The National Youth Association is cooperating with the University of Minnesota in the operation of a resident project on the farm campus in St. Paul, Minnesota, for youths between the ages of 17 to 24 inclusive who are unemployed and out of school and who are interested in agricultural training.

There are two phases to the project: first, the youths will spend 80 hours per month on a farm project to consist of the demolition of farm buildings on the campus. Second, the youths will spend 80 hours in regular classes offered at the university farm in physical education, farm management, animal husbandry, soil, and farm mechanics.

For the work on the project they will earn $30.00 per month and a deduction of $22.00 will be made for their board and room leaving them a balance of $8.00 per month. DRIVERS LICENSE REVOCATIONS HIT RECORD HIGH MARK

Total of 458 Permits Were Revoked in Month of September

The drivers' licenses of 458 Minnesota motorists were revoked outright in September—setting a new all-time record of revocations for a single month to eclipse the previous high of 427 chalked up in August, according to the drivers' license division of the Minnesota highway department.

Three hundred and forty nine other driver's licenses were suspended, for another all-time high of 807 combined revocations and suspensions.

And of these revocations, 411—or all but 47—were invoked following convictions for drunken driving. Twenty-one other drivers lost their permits for driving stolen cars and the licenses of 15 inebriates were revoked upon commitment to institutions.

Drivers in the 25-35 age group bore the brunt of the revocations last month with 118 losing their right to drive. The 36-44 age group suffered 98 revocations and the 45-55 class 81. Young drivers—those under 25 years of age—came up with a comparatively good record for the month, with only 64 of their number losing their permits.

Speeding, reckless and careless driving led to the suspension of 349 drivers licenses—a new high mark for the current year. Excessive speed brought license suspension to 188 motorists and reckless driving deprived 87 of their permits.

Young drivers, in contrast to their record in the matter of revocations, did not fare nearly as well in the field of licenses suspensions, with 224 drivers under 25 years of age losing their permits for periods up to 90 days. Only 125 suspensions were enforced against drivers in all the other age groups combined.

"U" Bulletin Advises Heavy Feeding to Raise 1942 Milk Production

Feeding good quality alfalfa hay to the dairy herd is the best solution to the winter feeding problem for Minnesota dairymen who have an important part in the nation-wide effort to reach record production goals in 1942. Most Minnesota farmers will find it more economical to meet demands for increased production through heavier feeding of home-grown rations and better herd management than through herd expansion.

Because high producing herds will give better returns for added feed, dairymen are encouraged to feed a great deal of legume hay this fall and winter. University Farm specialists point out that the dairy cow will produce most economically when used somewhere near capacity.

To help Minnesota dairymen manage present herds for increased production without sharp rises in feeding costs, Extension Bulletin 218, "Feeding the Dairy Herd" has just been released at University Farm and is available throughout the state. The publication is an up-to-date revision of the experiment station bulletin which has been serving dairymen with feeding information for nearly 50 years.

Deputy Sheriffs Frank Lawn and H. O. Kelly of Crookston were in Fosston to investigate the accident Saturday night.

Making Inventory of Trucks in Minnesota

Because an accurate inventory of commercial vehicles is absolutely essential as a basis for many of the plans that are now being made to meet any serious national emergency, Minnesota truck and bus owners were this week urged to return promptly the questionnaires already received by them in conjunction with the nation-wide truck and bus census. More than 160,000 questionnaires have been distributed from St. Paul to all Minnesota farmers and others who own trucks. The survey has been requested by the War Department and the National Defense Advisory Commission.

MAKE PLANS FOR LIVESTOCK SALE AT WINTER SHOW

Red River Valley Sale Slated at Crookston on Feb. 5-6

Two dates, February 5 and 6, 1942 have been selected by the sales committee of the Red River Valley Livestock Association for auctions of pure bred livestock at the forthcoming Winter Shows at Crookston, Minnesota. The sales committee made preliminary arrangements at their meeting at the Northwest School on October sixth for their annual two day sale. Fred Reppert of Decatur, Indiana, a national known auctioneer of pure-bred livestock, has been invited to return to Crookston and conduct the sale. Reports from the livestock breeders of the Red River Valley, indicate that they are giving one-hundred percent support to the Winter Shows sale and that they are holding back outstanding animals for the sale.

According to present plans, breeds of hogs and sheep will be sold on Thursday, February 5, and breeds of beef and dairy cattle will be sold on Friday, February 6. A closing date for consignments for the Winter Shows sale has been set for December first. Present indications point to a larger sale in February than was held in February of this year in which the sale amounted to $8,797.50.

Members of the sale committee present for the meeting included: chairman, Andrew Johnstad, Beltrami; E. E. Carmen, Ada; Gordon Llow, Hallock; J. H. Rosendahl, Warren; Emil Lerud, Twin Valley; A. J. Dexter, St. Paul as Business Manager; A. A. Habedank, Clerk, Ada; president T. M. McCall, and Secretary O. M. Kiser, of Crookston.

Editors Fix New Goal for Halting Traffic Deaths; Appeal for Aid of Clergy

Appealing to the clergy of all faiths and denominations for sustained aid and encouragement throughout their new traffic accident prevention campaign, the "Save 100 Lives" committee of the Minnesota Editorial Association today announced a new month-by-month goal for the reduction of traffic fatalities during the ensuing 12-months period.

The call for renewed efforts in the statewide drive for safer travel on streets and highways was issued by Chairman John E. Casey, editor of the Jordan Independent, in behalf of the Editors' Safety Committee.

"It is lamentable that in a campaign to try to save 100 lives we must still allow for the killing of 475 people in traffic in Minnesota during the next 12 months", Chairman Casey said in announcing the proposed budget. "This committee will not be satisfied so long as even one death occurs in traffic, for we know that every traffic death is one which it was within human power to prevent.

"We are calling upon all of the people in influence in Minnesota to aid in this campaign, and we believe that there exists today no greater potential influence for the encouragement of safer traffic habits than that of the clergymen in every Minnesota community. We are, therefore, appealing to the clergy of every faith and creed to do all that they feel is properly within their power to eradicate the evil of thoughtless, careless, or wanton driving."

As a prelude to the dedication rites, a banquet for directors of the various affiliated co-ops will be staged Saturday evening at 6:30 in the Grand Forks Country club, with Judge O. R. Knutson of Warren, serving as toastmaster. Principal speakers will be Governor John Moses of North Dakota and Harry Slattery of Washington, D. C., manager of the Rural Electric Administration.

NYA Is Cooperating in New Resident Project at U. of M. Farm School

The National Youth Association is cooperating with the University of Minnesota in the operation of a resident project on the farm campus in St. Paul, Minnesota, for youths between the ages of 17 to 24 inclusive who are unemployed and out of school and who are interested in agricultural training.

There are two phases to the project: first, the youths will spend 80 hours per month on a farm project to consist of the demolition of farm buildings on the campus. Second, the youths will spend 80 hours in regular classes offered at the university farm in physical education, farm management, animal husbandry, soil, and farm mechanics.

The youths will be housed in the dormitories with the regular students. For the work on the project they will earn $30.00 per month and a deduction of $22.00 will be made for their board and room leaving them a balance of $8.00 per month. DRIVERS LICENSE REVOCATIONS HIT RECORD HIGH MARK

Total of 458 Permits Were Revoked in Month of September

The drivers' licenses of 458 Minnesota motorists were revoked outright in September—setting a new all-time record of revocations for a single month to eclipse the previous high of 427 chalked up in August, according to the drivers' license division of the Minnesota highway department.

Three hundred and forty nine other driver's licenses were suspended, for another all-time high of 807 combined revocations and suspensions.

And of these revocations, 411—or all but 47—were invoked following convictions for drunken driving. Twenty-one other drivers lost their permits for driving stolen cars and the licenses of 15 inebriates were revoked upon commitment to institutions.

Drivers in the 25-35 age group bore the brunt of the revocations last month with 118 losing their right to drive. The 36-44 age group suffered 98 revocations and the 45-55 class 81. Young drivers—those under 25 years of age—came up with a comparatively good record for the month, with only 64 of their number losing their permits.

Speeding, reckless and careless driving led to the suspension of 349 drivers licenses—a new high mark for the current year. Excessive speed brought license suspension to 188 motorists and reckless driving deprived 87 of their permits.

Young drivers, in contrast to their record in the matter of revocations, did not fare nearly as well in the field of licenses suspensions, with 224 drivers under 25 years of age losing their permits for periods up to 90 days. Only 125 suspensions were enforced against drivers in all the other age groups combined.

"U" Bulletin Advises Heavy Feeding to Raise 1942 Milk Production

Feeding good quality alfalfa hay to the dairy herd is the best solution to the winter feeding problem for Minnesota dairymen who have an important part in the nation-wide effort to reach record production goals in 1942. Most Minnesota farmers will find it more economical to meet demands for increased production through heavier feeding of home-grown rations and better herd management than through herd expansion.

Because high producing herds will give better returns for added feed, dairymen are encouraged to feed a great deal of legume hay this fall and winter. University Farm specialists point out that the dairy cow will produce most economically when used somewhere near capacity.

To help Minnesota dairymen manage present herds for increased production without sharp rises in feeding costs, Extension Bulletin 218, "Feeding the Dairy Herd" has just been released at University Farm and is available throughout the state. The publication is an up-to-date revision of the experiment station bulletin which has been serving dairymen with feeding information for nearly 50 years.

Polk Co. Sheriff's Car Kills Cyclist Saturday

Donald Nyhus, 16, son of Mr. and Mrs. John Nyhus of Fosston, was fatally injured Saturday afternoon when he was struck by a car driven by Julius Spokely, Polk county sheriff, on the highway a mile and a half east of Fosston.

The accident occurred when Donald, riding a bicycle with two other boys on the highway, swerved out onto the road and the driver of the car was unable to stop, it was reported.

Deputy Sheriffs Frank Lawn and H. O. Kelly of Crookston were in Fosston to investigate the accident Saturday night.

Making Inventory of Trucks in Minnesota

Because an accurate inventory of commercial vehicles is absolutely essential as a basis for many of the plans that are now being made to meet any serious national emergency, Minnesota truck and bus owners were this week urged to return promptly the questionnaires already received by them in conjunction with the nation-wide truck and bus census. More than 160,000 questionnaires have been distributed from St. Paul to all Minnesota farmers and others who own trucks. The survey has been requested by the War Department and the National Defense Advisory Commission.

PLUMMER FFA BOYS ATTEND FARGO MARKETING SCHOOL

On Thursday, Oct. 9, seven FFA boys left Plummer to attend the livestock marketing school at the stockyards in West Fargo. This FFA marketing school was sponsored by commission firms in West Fargo and Fargo business men.

Our trucker was Alfred Bachand of Brooks. He hauled nine head of cattle and one hog for us. Those who went on this trip were Arnold Gulsvig, Harold Norby, Howard Haaven, Daniel Campbell, Joseph Jaeger, Alvin Morle, Vernon Noyes and their Vocational Agricultural Instructor, Elbert Larvick.

None of these cattle topped the market at West Fargo, but the boys gained some first hand information on marketing of livestock. Joseph Jaeger received over $84.00 for his steer which was the most that any of the boys received.

They gave a demonstration on grading cows, steers, and feeder steers in which the boys had the opportunity to grade each animal, guess its weight, and guess the price that the animal was sold for. They also had an opportunity to see purebred rams graded and priced for breeding purposes.

Friday evening the boys were honored at a banquet. The boys were admitted free of charge to the football game between North Dakota Agricultural College and South Dakota agricultural College, which was won by N. D. A. C. 25 to 0.

"WIFE MEETS HUSBAND"

And what a meeting—after a hard day's work to have your wife greet you with a soothing, refreshing bottle of beer. Many happy homes are kept happy by the sensible use of a moderate beverage that brings relaxation from the day's strains and worries.

Dr. H. W. Haggard of Yale University says: "Our findings indicate that beer in reasonable amounts is essentially non-intoxicating". This opinion is shared by many other leading doctors, such as Dr. Henderson of Yale, Drs. Waddell and Haag of Virginia University and Dr. Carlson of the University of Chicago.

"The Brewing of Beer" is also one of Minnesota's leading industries, giving employment to approximately 35,000 people in Minnesota; this includes its manufacture, distribution and sale. In addition, the millions of dollars paid to Municipal, State and Federal Governments serve to lighten your tax burden.

School News

Rosehill school, Dist. 165, began its term September 22. We have an enrollment of sixteen. Vivian Myrom and Clarence Mayer and our new pupils. This is their first year in school.

On Friday morning, Sept. 30, Miss Hortense O'Daugherty, under the auspices of the local W. C. T. U. gave us a very interesting talk on alcohol, its uses and effects. She told us alcohol outside of the body was very useful and showed several of its uses. Alcohol inside of the body isn't useful but dangerous.

We have organized the school into a club but, as yet, haven't decided on a name. We elected the following as officers: Yvonne Walsberg, president; Rene Walsberg, vice president and Fern Hanson, secretary and treasurer. We meet every three weeks. Our next meeting will be held October 31.

Kitty's Komments

"I have lost my best friend", said a dear old lady to me one day.

Wondering what acquaintance of ours had passed on, since I hadn't heard, I asked, "Who died?"

"Old Shep died last night", was her answer. I didn't say anything—only nodded my head in sympathy. I knew what old Shep had meant to her.

"Yes, old Shep has gone now," she went on, "and how I'll miss him. During these last five years, since John passed away, he has been my sole companion in good times and bad, in joys and sorrows."

"Why, I remember it as if it were today, the day John took sick, how Shep missed him—how he would come up to the house to look for John when anything went wrong at the barn. How he'd whine and scratch at the bedroom door; and if he could sneak in, how extremely glad he'd be to see John."

"And the day—that last day," her voice broke and a tear rolled down a wrinkled cheek—"when they came to take John away, how Shep growled and wouldn't let them in until I said it was all right."

"Then the day, John was laid to rest, Shep broke out of the tool shed in which the hired man had locked him, and followed us to the cemetery. Out there on the graveyard, he stood by me. His cold nose under my hand was his way of comforting me, and he did—good old Shep!"

"The night the house burned, it was Shep who awakened me, and led me to safety through the smoke-filled rooms."

"He was always with me, when I worked in the garden, when I fed the chickens—everywhere I went, Shep was sure to go. This last year, he got so stiff, it was hard for him to follow, but then rheumatism bothered me too, so we managed quite well."

A wistful smile shone through the tears. Old Shep was gone. So genuine and heartfelt was her sorrow for her dog, I couldn't say anything to comfort her. Words were inadequate.

Dairymen Hold Big Meeting Wednesday

Valley Dairymen's Association Convention Is Well Attended

CONG. ANDRESEN IS PRINCIPAL SPEAKER

Theme of Meeting Is Opposition to McNutt Oleo Ruling

Before a gathering that tested the capacity of the Lincoln high school auditorium, Congressman August H. Andresen, who came to this city direct from Washington, told members of the Red River Valley Dairymens association Wednesday at their annual convention of the fight being waged by northwest representatives in congress against the recent ruling by Paul V. McNutt, federal security commissioner, relaxing provisions that had restricted the treatment of oleomargarine to make its appearance closely resemble that of butter.

Other features of the afternoon program, over which Stuart McLeod, association president presided, included an inspiring address by John Brandt, president of Land O' Lakes Creameries, and one by R. A. Trovatten, Minnesota commissioner of agriculture, dairy and food.

The oleomargarine situation was graphically presented in a skit, "A Stab in the Back", staged under the direction of Ralph Melbo and W. A. Lindberg of Warren. In a classroom scene the relative merits of butter and oleo were clearly brought out.

The program opened with a welcome by Mayor W. W. Prichard, to which E. M. Evans of Middle River made an appropriate response. Vocal selections were well rendered by a 4-H club quartet from Parley, while two song and dance numbers were supplied by Nancy Kinseth.

In his address Mr. Trovatten criticized Secretary of the Treasury Henry Morgenthau for recently having suggested the release of farm surpluses from storage, as well as the admission of Canadian wheat to the U. S. market. The speaker contended that it is unnecessary to place a ceiling on farm commodity prices to prevent inflation as long as the present huge surpluses exist.

Congressman Andresen, introduced by Mr. Brandt as a champion of the dairy interests, stated that he has observed a gradual encroachment of bureaucracy on the popular will, citing the McNutt oleomargarine ruling as an example.

Calling attention to the action of the department of agriculture in promoting the use of oleo by means of radio programs, he said the department's attitude is a crime against the dairy industry. Pointing out that he does not oppose the use of butter substitutes by low income groups, he said he did object to treating oleo in such a manner

COUNTY GROWERS OF POTATOES WILL VOTE ON AAA PLAN

To Voice Views on Placing Marketing Order on Potato Crop

More than 220 Pennington county potato growers will visit local polling places late this month to vote on the application of a marketing order on their crop for 1941 and to continue until it is no longer necessary, Carl R. Anderson, chairman of the Pennington county AAA committee, stated today.

Any farmer in Pennington County who markets potatoes is eligible to vote, Mr. Anderson said, adding that dates and polling places will be announced as soon as the necessary machinery has been set up.

"Because potatoes are a staple crop for which the demand is very inelastic, and abnormal yields result in a price depressing surplus about 70 percent of the time, the proposed marketing agreement if placed in effect would be a definite asset to both producer and consumers of potatoes," Anderson said.

The proposed program calls for a general cull regulation and would prevent shipment in interstate commerce potatoes below U. S. No. 2 grade, a move designed to eliminate the price depressing effect of culls and small sizes upon the more marketable portion of the State's potato crop.

In urging all eligibles to vote during the referendum Mr. Anderson stated that "This is part of the Farmers' farm program and it is the right as well as the duty of all potato producers in Pennington county to vote on this agreement."

Dates for the potato marketing agreement referendum in Pennington county have been set for October 27, 28 and 29, Mr. Anderson, chairman of the county AAA committee, announced today.

Any farmer who markets potatoes is eligible to vote between 10 a. m. and 4 p. m. at the polling place in the Pennington county agricultural conservation office at Thief River Falls.

Pheasant Not Native Fowl

There is really no native American pheasant, although the ruffed grouse is often referred to in many parts of the country as a "pheasant." This "native pheasant" is the same bird that is sometimes known as a "partridge" in most of the northern states. Our native birds that resemble the pheasant are mostly grouse.

Growing With Your Child

Institute of Child Welfare, University of Minnesota

WHY DON'T THEY READ?

In a recent study of many thousands of young people made by the American Youth Commission, it was found that half of those who had libraries available did not use *them! Such knowledge comes with* a shock to those of us who have taken great pride in our educational system. What can be said for an education whose aim, that of producing literate and thoughtful adults, is so far from being reached that one of the greatest sources of personal enrichment and growth lies unnoticed?

Of course the many millions of young Americans of whom this study is undoubtedly typical do not entirely ignore the printed page. They read newspapers and magazines, they have a few books in their homes. (But how few! A Pennsylvania study found that two out of every five youngsters studied lived in homes possessing not more than fifty books.) But not to know and use the public library means that one's chances of coming in contact with things really worth reading, and suited to one's needs, is very small. It means that instead of continuing to grow in ability to broaden one's interests and add to one's really vital knowledge, hundreds of thousands of young Americans are stagnating, their minds remaining unstirred and unrefreshed. It means that they are open to the probability of becoming stultified, of having their interests progressively narrowed, of falling into opinions that are the result of emotional experiences, rather than of thoughtful exploration of facts.

The American Youth Commission, in the book, TIME ON THEIR HANDS, by Wrenn and Harley, suggest that some changes must be made if the libraries are to function more vividly in the life experience of American boys and girls, young men and young women. For one thing, they point out, the libraries need to be made more attractive to youth. "Too many libraries," the authors say, "are primarily places to store books against the possibility that someone may want to look at them." Instead, they should "sell" themselves to the communities they serve by displacing the books they offer in as exciting a way as other offerings in shops and stores are.

A substantial barrier to the use of many libraries is that they are open only a few days a week, for a few hours. Another reason why many young people do not patronize their local libraries lies in the fact that the hours they are open are often far too few. The early closing hour almost always in effect is a substantial barrier. The library is "often the only place where a young person can go in the evening for free entertainment, yet the common closing hour of nine o'clock is too early to solve the youth's problem of how to spend his time."

Here is a problem for widewake community members to tackle. The Tennessee Valley Authority plan offers one solution. "The library leaves its books all over the community. It places book boxes in schools, in barber shops, in construction, in all manner of places where people are employed or where they congregate during their leisure time."

SON OF WANNASKA WOMAN IS VICTIM OF PLANE WRECK

Carlyle O. Loverud, U. S. Army Pilot, Dies in Georgia Friday

An army pursuit plane, motor wide open, brought instant death to Second Lieutenant Carlyle O. Loverud, 1940 graduate of the University of North Dakota when it crashed in a field near Jackson, Ga. early Friday.

The plane came roaring out of a cloud and struck the ground with such force that only small, charred pieces remained, witnesses reported to the Associated Press.

Loverud was 24 years old. He entered the University in February, 1936, and was graduated in June, 1940. While a student he was an outstanding boxer and won the Northwest Golden Gloves featherweight title and competed in two national collegiate tourneys. Recently he had been stationed at Morrison Field, West Palm Beach, Fla. He took his army air training at Oxnard, Calif., and Kelly and Randolph Fields, Texas.

Surviving is his mother, Mrs. John Cison of Wannaska.

Work Is Now Under Way for New Structure for the Kiewel Products Co.

Pouring of the basement walls was recently completed for a new brick and tile building to house the Kiewel Products company, to be located on West First st., a half-block west of Main av. The new structure, plans for which were prepared by K. Russell Anderson, will have a width of fifty feet and a depth of ninety feet, and the front portion will be two stories in height. Ben Kiewel, proprietor, announced that when the building is completed, the company will move its plant from its present quarters on Main av at the Great Northern tracks.

Two young ladies sang so well he brought them up to the mike and they did a trio number that was easy to listen to. Here they are, Harriet Wilson, Tex and Katherine Schmitz.

In the butter contest, Secretary C. M. Pesek of the dairymen's group presented gold certificate awards in the cultured butter class to H. J. Pollei of Dunnell and R. J. Professor Christianson, introduced by T. M. McCall, superintendent of Northwest School, Crookston, took "Substitutes" for the topic of his address, which was interspersed with numerous humorous highlights. He declared that too many people today are trying to find substitutes for the ideals and virtues that built this nation, and that their eyes are turned to Washington instead of to God. Loyalty to God, to country and to family, he said, are the basis for successful living.

After paying high tribute to Mr. and Mrs. John Brandt as great leaders, Mr. Christianson presented the couple with a beautiful plaque in behalf of the dairymen's association, the plaque being mounted in an attractive setting on the stage, flanked by a little boy and girl. Mr. Brandt voiced his deep appreciation of the gesture.

Julien Bryan, just returned from South America, briefly discussed conditions there, and cautioned American citizens to treat Latin Americans well in an effort to alienate them from the influence of Hitler.

Stuart McLeod, president of the dairymen's association, introduced a group of distinguished guests headed by Congressman August Andresen.

RASPBERRIES IN OCTOBER

Hewitt—The first week in October found raspberry picking in Mrs. Henry Bucholz's garden. It was the fourth time that the patch had yielded berries in the past few weeks, about a quart being picked at a time. Considering the temperature and the amount of rainfall in this territory it was quite remarkable.

Corrugated Containers

Corrugated paper such as is used for containers was invented by A. L. Jones and patented December 19, 1871. Jones assigned his patent to Thompson and Norris company of Brooklyn, N. Y., a few years later. Corrugated fiber boxes came into use about 1900.

Arrangements are being made whereby every school child in the Thief River Falls territory will see this fine big show free of charge, was announced by Paul Lundgren, general chairman of this activity.

CONG. AUG. ANDRESEN SPEAKS TO DAIRYMEN IN CITY WEDNESDAY

as to closely resemble butter. He added that a congressional bloc is seeking to annul the McNutt ruling, but lacks sufficient support at present to accomplish its purpose.

Mr. Andresen also criticized the three-year trade agreement entered into with Argentine last week by President Roosevelt, whereby the import duties on flax, meat and other farm commodities is cut in half. This action, he declared, lays the foundation for a tremendous post-war depression.

Mr. Brandt in his address took congress to task for abdicating many of its powers in recent months in favor of government bureaucrats. He closed his address with the declaration that farmers cannot reasonably be expected to produce for defense while, at the same time, the government is permitting the dumping in the United States of competitive agricultural products from foreign lands.

At the close of the afternoon the association took favorable action on a series of resolutions submitted by E. M. Evans, committee chairman. Included were resolutions opposing the McNutt oleomargarine ruling, others dealing with trade agreements affecting agricultural imports, inflation and price control, opposing diversion of creamery production facilities to meet wartime needs, opposing the dumping of butter at reduced prices, urging aid in securing hired help for dairy farms, advocating a continuation of the national advertising campaign in behalf of butter, and expressing appreciation to all who contributed to make the meeting a success.

Prune Salad Just Right

Toasted chicken sandwiches and a pineapple-prune salad are "just right" for Sunday evening tea. Spiced, pickled or minted prunes are also excellent for Sunday night suppers as a garnish for a platter of cold meats—sliced roast or ham. A dish of assorted dried fruits, stuffed with cheese, is a welcome addition to the buffet table.

HEART IS LOCATED IN THE NECK OF CALF

Slayton—There are monstrosities and monstrosities in animal life but a bull calf on the Erick Priebe farm born last June, according to veterinarians, is a most extraordinary one. Mr. Priebe noticed that the new-born calf's neck was drawn to the side and there appeared to be a good sized lump in its neck. Upon consulting the veterinarian it was learned the lump was the heart. The doctor said he had seen few such cases and had never known one to live more than 24 hours. However, Mr. Priebe has carefully nursed the animal along since June and today it balances the scales at nearly 200 pounds.

Take a tip from the clock—it passes the time by keeping its hands busy.

A communique from our first ward operative states that Emil Griebstein is likely to be re-elected in the coming plebiscite.

Regardless of what the weather forecast is, if we leave town on November 11th we are going to carry with us a compass, a lantern, a case of canned heat, food supplies to last a week and both suits of underwear. Last year's storm might not repeat but we're not going to take any chances.

Japan has reorganized its government again and this time it is headed by what is called a strong pro-Nazi group. The militarists are definitely in the saddle. From now on, they tell us, it is going to be more action and less talk. Real action may be expected to start at any time. We will soon be confronted with the necessity of choosing between letting the Japs rule the Pacific or fighting for our rights on the high seas. Well if that's the deal then let's face the issue squarely and honestly and realistically. Few Americans believe it will be possible to adjust our differences with Japan by peaceful means as long as Japan retains its present form of government and that form of government probably will not be changed until the Japs are taught, the hard way, that their's is not yet the superior race. In recent years we have backed away too many times in our arguments with the Japanese but it is likely that their next bluff will be called.

Axis armies still have many miles to travel before they reach Moscow and judging by the reports on the fighting that has been in progress on this front for many days, each one of those miles will cost the Germans a terrific price in men and materials. The significant thing about Hitler's Russian campaign, as we see it, is the fact that his armies have not been able to maintain heavy pressure on more than one sector of the long battle line at a time. That is not necessarily to the discredit of the German fighting machine, as a machine, for its performance has been remarkable. But it is encouraging to know that even the great German army has definite limitations. Mighty as it is, there still are things which it cannot accomplish. There are limits both to human endurance and to mechanical reserves, and therefore it is not unreasonable to believe that the time will come when even the greatest military organization the world has known will be exhausted. That time may not be near at hand or it may be closer to us than we think but surely it must eventually come to pass.

It is pretty well established that many *of the horror stories of the last war were* invented by propagandists and therefore it is only natural that to be skeptical of some of the reports that are given circulation in the present struggle. But there seems to be no question as to the authenticity of the stories of reprisal killings that are now taking place in several of the countries that have been conquered by Hitler. They are verified by the official statements of the Nazi government itself, which broadcasts them in the hope of suppressing all resistance by the fear of such wholesale murders of innocent people. During the past week two German officers were murdered in France. Unless the murderers are apprehended, 100 innocent Frenchmen will be murdered in reprisal. We can't think of any horror story manufactured by the propaganda machine of the first war that is more brutal than this.

The dairymen have come and gone and today and tomorrow we have the teachers with us, another big convention that brings to our city several notable speakers. Four outstanding authorities on world conditions today will appear on the convention programs, and here and now let us offer a round of cheers to the convention program committee for doing a swell job. People of our section of the country have been accused of having a provincial point of view on world affairs. Such criticism may or may not be justified. Of that we are not greatly concerned. But it is obvious that in the selection of speakers the convention program committee was not influenced by provincial prejudices and those who attend the convention sessions will hear men who are as broad in their viewpoint as the world is round. In behalf of the community we extend a cordial and sincere welcome to the members of an education organization that brings to our city a convention that will be truly educational.

Highlight of the dairymen's gathering was the tribute paid by the organization to John Brandt, president of Land O'Lakes Creameries, Inc., in recognition of the substantial contribution to agriculture made by this great farm leader. Professor J. O. Christianson, superintendent of the school of agriculture of the University of Minnesota, delivered the oration for this occasion. Only thing wrong with his speech that we could think of was that it wasn't broadcast.

100 AGRICULTURE DEFENSE WORKERS ASSEMBLE IN CITY

Meet Friday to Discuss Increased Output of Certain Products

Approximately 100 farm members of the United States department of agriculture defense boards in northwest counties met in the Civic and Commerce Rooms in Thief River Falls on Friday, October 17 to hear representatives from the state agricultural conservation committee and specialists from the University of Minnesota extension division outline the campaign to increase production of milk, eggs, poultry, meat, and pork.

Carl R. Anderson, chairman of the Pennington county defense board, introduced Mayor W. W. Prichard of Thief River Falls who welcomed the delegates to the city. Selvin Erickson, farm field man for the area and chairman of the meeting, then introduced Ralph Childs who represented the USDA Defense Board and who spoke on "Food for Freedom Program." Mr. Childs then gave the defense boards some idea of the big job ahead in Minnesota in the demand for 688 million pounds of milk, fifteen million dozen eggs in 1942 above the estimated production this year.

Other speakers on the program were Skule Rutford, extension representative of the state AAA committee; Cora Cooke, extension specialist in poultry; Henry Zavoral, extension specialist in animal husbandry; H. A. Searles, extension specialist in dairy; and Charles Kelehan, district AAA block man.

These specialists spoke briefly on ways and means of securing increased production in their various lines of work. Each speaker emphasized the importance of economy in meeting this increase and advised the defense boards to ask farmers to make the increase by using available facilities rather than going to the expense of putting up new buildings and thereby going into debt.

Pennington County community committeemen met on Saturday to hear a similar discussion given by Selvin Erickson, district AAA field man, Carl R. Anderson, chairman of the Pennington County USDA defense board, and County Agent Ernest Palmer. Each community committeeman will carry this information back to their own townships during meetings to be scheduled the early part of November.

University Enrollment Down 10 Pct. This Fall

Final University of Minnesota registration figures, released today by True E. Pettengill, recorder, show that the student body as a whole is 10.5 per cent smaller than that of last year and that most of the loss was in men students, as had been anticipated. The number of women at the university dropped only 3.9 per cent, while the number of men fell off 14 per cent.

This disturbs to a small degree the relative percentage of the two sexes in attendance at the university, which has usually been about *two men to one woman. Last year* 65 per cent of all students were men. This year the figure has dropped to 62 per cent.

There are now 8430 men and 5054 women attending classes. Last year at this time there were 9808 men and 5260 women.

Too many people who won't stop at anything are behind the steering wheels of automobiles.

Plans Made for Coming Year at Session Held Last Thursday

The Pennington County Rural Youth group was re-organized for the 1941-42 year at a meeting held in the Civic and Commerce rooms in Thief River Falls on Thursday evening, October 16. T. W. Alton, assistant state 4-H club leader from University farm, assisted in the re-organization work and gave a discussion on the farm and home outlook.

A committee consisting of Mrs. V. C. Noper, Melvin Saugen, Delores Hylden, Joyce Kierk, and Mr. and Mrs. Palmer met during the afternoon with Mr. Alton and drew up the annual program of work. In the election of officers the following were named for the year: President, Morris Engelstad; vice president, Delores Hylden; secretary, Joyce Kierk; treasurer, Marion Larson; reporter, Elfie Hanson; educational chairman, Melvin Saugen; community service chairman, Bert Vigen.

The Rural Youth group will meet the first Wednesday of each month in the Civic and Commerce rooms. In addition to the regular educational meetings to be held each month during the winter the group voted to have an educational tour in June, outdoor social in July, and a banquet during the annual meeting next September.

The lessons to be given boys during the winter will pertain mainly to use of concrete, painting, use of electricity, farm carpentry, and insulation and ventilation of buildings. Girls work will be devoted mainly to room furnishing, furniture selection, curtains, and slip covers.

In Memoriam

In loving memory of our daughter, Luverne Royal, who died a year ago, October 27.

Not silent—just passed out of earthly hearing,
To sing Heaven's sweet new song;
Not lonely — dearly loved and dearly loving,
Amid the white-robed throng.
Oh no, not dead, but past all fear of dying,
And with all suffering o'er
Say not that I am dead when Jesus calls me,
To live forevermore."

The presentation ceremony will take place immediately preceding the homecoming game between the university and North Dakota Agricultural college. The award will be given by Roy Oen, president of the Civic and Commerce association and captain of the University of Minnesota football team in 1923, or by Secretary L. W. Rulien, and the other three participating organizations also will be included in the delegation.

Caldis, a 1938 graduate of Lincoln high school, is the latest of several Thief River Falls young men to star on University of North Dakota football teams, others being Gordon and Richard Dahlow.

Prowlers Defeat the Warren Eleven 20-13

Taking advantage of Warren misplays to score three touchdowns in the first half, the Prowlers staved off a last period rally by the Ponies to win a 20 to 13 victory Friday afternoon. The game, which was played on the Warren field, was the season's finale for the Prowlers, with Coach Newby's boys closing their schedule with a record of two victories, one tie, and three defeats.

Lenny Lorentson, who played a bang-up game at left end, recovered a Thief River punt on the Prowlers 41 yard line to set the locals off on their first touchdown march. The punt, a low swerving spiral, hit Warren's Chuck Cheney making it a "free" ball, and Lenny fell on the ball on Thief River's 41 yard line. "Guernsey" Gjernes swiveled off right tackle for 5 yards; Orrin Pederson, playing at fullback, added 4 yards over right guard; Gjernes, off tackle, made a first down on Warrens' 48 yard line. Don Olson failed to gain on a reverse, but a pass, Gjernes to Lorentson, was good for 7 yards; and after Olson had made a yard around left end, another pass, "Luff" Fjelstad to Gjernes, earned a first down on Warren's 35 yard line. The Prowlers counted a touchdown on the next play when Lorentson nabbed Fjelstad's throw down the middle, on the 15 yard line and shook away from Warren's Gilbertson and went over the goal for the tally. A pass play for the conversion point failed.

Warren received the kick-off, and the Prowlers got a break when Warren's Cheney fumbled the ball, with Thief River recovering on the Ponies 26 yard line. Don Olson circled left end for 7 yards; and then, on a lateral, Fjelstad to Gjernes, "Guernsey" broke off right tackle for 18 yards and a touchdown. Gjernes passed to Lorentson for the extra point.

The Prowlers scored their final touchdown in the early minutes of the second quarter. The first play of the period saw Orrin Pederson intercept a Warren lateral on the Ponies 21 yard line. On two drives over guard, Pederson picked up 4 yards; and, faking a pass, Gjernes sprinted to Warrens' 8 yard line. Fjelstad, on a shove over center, gained 7 yards, and two plays later, went over for the touchdown. Pederson drove over right tackle for the extra point.

Midway into the third quarter the Prowlers made a strong drive for another score, but Warren's Clyde Culver intercepted a Thief River pass on the Pony 20 yard to halt the march. Warren marked up their two touchdowns in the fourth period, scoring their first goal on a sustained advance from the Ponies 45 yard line, with Chuck Cheney and Jack Gilbertson leading the attack, Cheney finally going over from the 1 yard line. With the Prowlers "third string" in the game, and with but a few seconds of play remaining, Warren, on a long pass play, scored their second touchdown. Cheney, from his own 40 yard line, tossed a long pass to right end Henry Hanson, who made the catch on the Prowlers 30 yard line and out-ran the Thief River secondary to score. A pass, Gilbertson to Hanson, added the extra point.

Friday's game saw the following players conclude their high school competition as Prowler football players, being seniors who will be graduated next spring: Lenny Lorentson, Orrin Pederson, John Barry, Doug Snelling, Connie Geston, Don Olson, Roman Paulson, Luther Fjelstad, Orlin Gjernes, John Dablow, Allen Andre, Ralph Hunt, and George Effinger.

Glad It's Over

Coach Harry Newby expressed himself as being glad that the Prowler football season ended Friday, and that he can begin basketball drill next week. Newby was quite disappointed at this season's football results, and especially so in view of the potentialities of the Prowler squad. They were erratic and only in spurts did they go "all out" and play the brand of ball of which they were capable. For instance, they were a fine ball club in the Red Lake Falls games, in the East Grand Forks game, during the first period of the Bemidji game, at times in the Moorhead game, and in the first 15 minutes of the Warren game. But then, there were occasions, too many of them, when the Prowlers appeared satisfied to "coast".

Of course Harry Newby was handicapped considerably by the fact that he was unfamiliar with the material, and then, too, it must be noted that he was installing a new system.

The 20 point lead that the Prowlers established in the first 15 minutes of the game Friday gave Newby an opportunity to test the Prowler reserves. A line-up of the boys that will furnish the bulk of the material for the 1942 edition of the Prowlers, and which was given considerable experience by the Warren game, had Don Berg and Harry Huseth, at the ends; Steve Alnes, Gus Paulson, and Calvin Travers, at the tackles; Norman Furuseth and Marlyn Dorn, at the guards; Bud Eide at center; and with Pete Michalsky, Eddie Chommie, Homer Matheson, and Mouse Efteland, in the backfield. Michalsky at fullback revealed himself as a powerful line-bucker, and with experience he will be the mainstay of the Prowler backfield. Pete's always been a vicious blocker, so he will be valuable in blasting a path for the lighter Prowler backs. I have an idea that next season's team will prove to be a more consistent club than this year's outfit.

Orrin Pederson, Captain

The Prowler lettermen, 20 of them, in a meeting Monday afternoon elected Orrin Pederson captain of the 1941 team. Orrin, who has played football for 4 years, and earned three letters, certainly merited the honor of captain for he has been a stand-out in the Prowler line for the last couple of years. Although he was the most experienced player on the squad, Orrin was one of the most conscientious of the Prowlers in the practice drills. And a check of the season's play will reveal that Orrin recovered one or two of the opponents fumbles per game.

It Tickled Young Furuseth

Norman Furuseth was pretty happy when he learned that he had been awarded a football letter. Norman, who played guard, and who's only a sophomore, should be a regular in his junior and senior years and earn two more letters, making him a three striper. And that would give Norman one more stripe than his older brother Leonard, for "Oats" only won two football letters. And is young Norman ever giving "Oats" the bird.

Were They Surprised!

The Commercial league's Quality Dairy team had to bowl a 986 actual pins game to salvage one game out of their series with the Hub Clothing last week.

The Hub team, composed of high school faculty men, were expected to be "soft pickings" for Walt Petersons' Dairy team, who were then in a tie for the league lead; but with the Hub getting a 130 pin handicap, and with Harry Newby bowling 217-147-162, and Chet Nelson rolling games of 144-144-211, the Quality Dairy were bumped, or dumped, in two games. It was quite a surprise. Rolling that 986 game, the season's high, for the Dairy, found Walt Peterson with 195, Les Boyd, 234; Jim Dryden, 182; Howard Holl, 167; and Al Weber, 206.

Should Decide the Title

That football game at East Grand Forks Friday night, between the Crookston Pirates and the little Green Wave should determine the champion of the football conference. And East Grand Forks, by reason of the fact that they have the district's finest halfback in chunky Ken Kennedy, should come out the winner. Crookston, perhaps, will have the better balanced team and the more versatile attack; but Kennedy will be the margin of the East Siders win.

Coach Newby Announces Football Lettermen

Coach Harry Newby announced Monday that the following members of the Prowler varsity had participated in enough games to qualify as football lettermen: Orrin Pederson, Lenny Lorentson, John Borry, Don Michalsky, Doug Snelling, Connie Geston, John Dablow, Roman Paulson, Luther Fjelstad, Orlin Gjernes, Don Olson, Homer Matheson, Eddie Chommie, Morris Efteland, Don Berg, Marlyn Dorn, Norman Furuseth, Allen Andre, Bud Eide and Harry Huseth. Following Coach Newby's announcement the lettermen honored Orrin Pederson by electing the veteran Prowler captain of the 1941 team.

Lund Going to St. Paul for Fair Board Meeting

R. J. Lund will leave Monday for St. Paul where he will attend a meeting of the state fair board, of which he is a member. While there Mr. Lund, who is supervisor of 4-H club activities at the state exposition, will attend a 4-H banquet Wednesday evening in the St. Paul auditorium in connection with the Junior Livestock Show then in progress.

Homecoming Scheduled at N. W. School Oct. 25

The Home-coming at the Northwest School at Crookston on October 25 will have as its feature attraction the "brown jug" trophy clash between the Northwest Aggies and the North Central Aggies from Grand Rapids. The Homecoming game will decide the championship of agricultural schools for northern Minnesota. The state agricultural school conference title will be decided on Armistice Day when the Northwest Aggies meet the Aggies from Morris. The football game is scheduled for 2:30 in the afternoon.

URGES 20 PCT. CUT IN NON-DEFENSE PUBLIC SPENDING

Gov. Harold Stassen Offers Proposal to National Tax Association

Stressing the necessity of sacrifices to meet problems growing out of the defense program, Governor Harold E. Stassen in an address before the National Tax Association in St. Paul this past week urged that the federal, state and local governments reduce their non-defense expenditures twenty per cent.

"There are times for sacrifice," Governor Stassen said, "and it is not for us of the states or local governments to say, 'The federal government should cut down its non-defense spending,' nor for the federal officials alone to say 'The states and local communities should cut down.' Together we should face this mutual problem and eliminate one dollar out of every five spent for items not essential to the national defense."

Governor Stassen told persons attending the convention that our tax program should not be viewed as one primarily to redistribute purchasing power. Marriner S. Eccles, chairman of the board of governors of the Federal Reserve system, in an earlier talk had discarded the idea that taxation is solely for raising needed revenue and proposed in effect that it be utilized to redistribute wealth. He suggested that heavier levies be imposed on those living in what he called "creditor areas" and the money collected distributed to persons in "debtor areas."

Governor Stassen said such a program would discourage individual initiative.

"As a basic part of the philosophy of our tax policy," the Governor said, "I would rather trust the individual initiative and enterprise of 130 million American individuals than the greatest master plan that could be worked out by all the intellect that could be gathered in one place at one time."

Governor Stassen said the dangers of inflation are real and that direct steps should be taken to meet them. In addition to reducing non-defense public spending, he proposed:

Nation-wide agreement negotiated with leaders of organized labor placing a ceiling on wages.

Nation-wide agreement with leaders of agriculture on a fair ratio of agricultural prices.

On other articles, fixing of a ceiling on prices.

Nation-wide appeals for savings by individuals.

CCC Now Conducting Special Enrollment

The CCC is now conducting a special enrollment of junior applicants. Until Nov. 1, qualified young men between the ages of 17 and 23½, have an opportunity to participate in CCC activities, which include attendance at classes in such defense training as sheet metal, welding, radio, cooking and baking, motor mechanics, and tractor operation.

These classes will open shortly after Nov. 1 in the CCC camps in Minnesota. Wages paid are $30 a month, plus maintenance.

Complete details can be obtained at the office of the county welfare board in the court house in Thief River Falls.

HANDMADE BUGGY IS REAL CURIO

New Richland—Back in the early part of this century Mr. William Michaelis was a wagon maker and blacksmith. He still owns and prizes a one-seated buggy which he made by hand in 1897, nearly 45 years ago. While the model has been out-moded for many years, to the man who made it it hasn't lost much of its beauty. The buggy always had its private spot in the machine shed but with the machine age at its peak it recently had to be hung on the wall.

Farm Security Families Urged to Participate in 'Food for Freedom' Drive

More than 350 farm families of Marshall and Pennington Counties who are borrowers of the Farm Security Administration are being urged to participate as much as possible in the "Food for Freedom" campaign launched by the U. S. Department of Agriculture, but to make 100 per cent production of food for home use their foremost goal, Hilding W. Thelander, County FSA Supervisor, said today.

"Many Farm Security borrowers in these counties are now quite ready to step in and do their part for national defense by increasing production of the needed food commodities, but first they will want to assure an adequate year-around supply of food for themselves, just as we have encouraged them to do in our program for the last six years," Mr. Thelander asserted.

He made his statement in connection with the "all out" goals for a record 1942 production of dairy products, poultry, eggs, hogs and vegetables recently announced by Secretary of Agriculture Claude R. Wickard.

HERE'S A GENUINE WILD GOOSE STORY

Lake Park.—Dewey Herfindal, a farmer near here tells this one. While plowing on his farm, he saw a large flock of wild geese in the field. He jumped from his tractor and ran to get his shotgun, but discovered the gun had been loaned to a neighbor. So he went to the neighbor's and picked up the gun. Then he found he had no shells. He climbed into his car and drove to town for shells. In town he remembered he had no hunting license. So he bought both the shells and a license and returned to his farm. No, it wasn't too late, he was in time to shoot three of the geese.

The limit on pheasants is three per day, six in possession, with one hen allowed in either bag. On partridge the daily limit is four, possession limit eight.

Diphtheria

Diphtheria immunity produced by inoculation is not always permanent and children immunized when very young should be examined about the time they enter school to see if they have retained their protection, according to the University of California medical experts.

Buy Your FARM HOME Now!

Mr. and Mrs. Tenant Farmer:

You and your family have no doubt planned on some day owning your own farm home. You probably have been on the verge of purchasing a farm a number of times in the past, only to wonder if it were the proper time to take this important step.

You have been paying out considerable sums of money year after year as rent, and working and improving the farms you have occupied, without advancing your own future security. In a good many cases the farms are then sold and you are again forced to move. Had you owned a farm home, the careful work and planning that you have done and are doing, plus part of the money you now pay as rent, would have gone directly to the benefit of your own family.

Now is the time to buy your future home. Farm produce prices are now at the highest point in many years, and with the defense program in full swing, the outlook for continued satisfactory prices to the farmer is bright. While this Department has sold 3500 farms since January 1, 1939, we still have a limited number of good farms available for sale.

Do not hesitate longer in making up your mind about buying a farm. Rural Credit farms are reasonably priced, our terms are fair, interest at 4%, with twenty years in which to pay for your home.

For full information call at or write to one of our District Offices located at Brainerd, Detroit Lakes, Thief River Falls and St. Paul, Minnesota.

Yours very truly,

THE DEPARTMENT OF RURAL CREDIT

EXAMS ANNOUNCED FOR MINN. HIGHWAY PATROL POSITIONS

Ten Appointments to State Agency to be Made in Near Future

Men who are neither too tall nor too short, too fat nor too lean, and who are in good physical condition, now have a chance to become a highway patrol officer.

The state civil service this week announced a competitive examination, to be held Nov. 22, with Nov. 5 as the dead-line for filing applications. These jobs pay from $150 to $180 a month.

Application blanks and detailed information as to requirements, can be obtained from any office of the Minnesota division of employment and security or by mailed request, addressed to Kenneth C. Fennebaker, director, civil service department, State Office building, St. Paul.

The purpose of the examination is to select 45 men for attendance at the highway patrol training school, to be conducted subsequent to the examination by the Minnesota highway department. After completion of the course, an estimated ten appointments to the patrol will be made. The names of the other trainees will be added to the eligible register, from which future appointments will be made.

Applicants must be at least 5 feet, 8 inches tall but not more than 6 feet, 4 inches. Persons of the minimum height must weigh at least 140 pounds but not more than 180, and if "six-four", the weight must be at least 165 and not more than 225.

WHO WAS MOST EXCITED THE WOMAN OR THE BEAR?

Two Harbors.—Mrs. Fay Breider, State Road No. 2, was working in her kitchen one day last week when attracted by a noise outside her door. Not for a minute suspecting it was a bear, she rushed out to see what caused the commotion and waked practically into the arms of a huge black bear who had overturned the ice box and was in the act of devouring a pork roast. Lacerations of her left eye and one side of her face and head badly swollen verified her account of the experience. Usually bear will run from a human being and whether the bear became as excited as she was, or really had an evil temper is a question.

Discuss Moving Farmers from Northwest Angle

An interesting meeting was held at Northwest Angle last week when a large number of citizens of that section met with the county board and other officials to discuss a plan of moving away from the Angle and to take farms and other places in Lake of the Woods county says the Baudette Region.

No definite plan was agreed on, but it was pointed out that it would be an advantage to the Northwest Angle residents and to the county as a whole if they would move to the more settled sections of the county. Nothing definite was settled at the meeting, the plan being merely presented.

Northwest Angle, located sixty miles across Lake of the Woods, has an area of about three townships, including mainland and islands, and has a population of about 200. There are about 25 farms in the area, and commercial fishing and timber operations are among the industries.

OLD BEAR WILL STEAL NO MORE

Mahnomen.—For taking goats without the owner's permission, a 200-pound black bear ended up in a trap recently on the George Beattie farm near Roy Lake. The trap was set when tracks and claw marks about the goat shed indicated that a bear was the culprit. Several goats had disappeared from the Beattie herd. Bear are quite numerous in this territory. In a ravine near Bagley, the carcasses of 30 sheep were found, with bear being suspected of the slaughter.

STRANGE HOBBIES

Redwood Falls.—Many women are interested in hobbies—and frequently they are expensive ones. Mrs. George Federly has an interesting and inexpensive hobby. She has 104 hot dish holders, most of them in different patterns. One, made of glass came from the New York world's fair. One is fashioned from pumpkin seeds and one was made by her son when he was four years old. A few are souvenir holders.

WHO SAID LIFE BEGINS AT FORTY?

Granite Falls.—84-year-old Mrs. Maude Jones of Romona, California, a cousin of George Woodley arrived recently from her home, having made the 2175-mile trip all alone. She averaged 415 miles a day. Mrs. Jones was a former native of Magnolia, Minn.

Contributing Cause of War

One of the contributing causes of the World war was the proposed building of two railroads, one by England, the other by Germany. Germany proposed a Berlin-to-Bagdad railroad, while the British plan was for a Cape-to-Cairo railroad.

Necklace Insured for Million

Insured for nearly a million dollars, one of the world's most precious diamond necklaces has been transported in extraordinary ways since its owners arrived here as war refugees from Europe. They are so famous internationally that names cannot be revealed. A big bank has charge of their necklace in New York. Novel precautions are taken each time it leaves the bank's vault. It has been carried through the streets in a Lucky Strike cigarette carton, and in a paper shopping bag from the bargain basement of a popular department store. According to theory, the more commonplace the appearance of the package with the diamond necklace in it, the less risk of a hold-up.

Not Human, Life Saved

A California murderer blinked when told he would not have to mount the scaffold. His conviction was reversed because the indictment did not state the murdered man was a human being. The law held that the victim, then six feet under, was some inanimate object.

Most Useful Plant

The most useful plant in the world is the Palmyra palm. It is employed for more purposes than perhaps any other plant, approximately 800 uses being recorded for its various parts.

Double-Hung Windows

The best way to counterbalance double-hung windows is to use a side overhead or twin sash balance. The twin type does not require box frames, gives narrower mullions and means neater, narrower, more modern inside window castings.

Exact Form of Oath

The President of the United States is the only federal officer for whom the Constitution prescribes the exact form of the oath or affirmation.

Dear friends:

The service we render gives us frequent contact with the ministers of our various churches. These relationships are most pleasant, and we appreciate their helpfulness.

Which brings to mind this question: Would we want to live in this community if there were no churches? We know your answer.

Regardless of one's personal attitudes and beliefs, no one denies that our ministers and our churches perform an indispensible service.

Respectfully,

Carl B. Larson

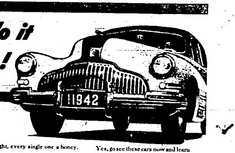
You can do it if you try!



POISED here as if for take-off is the gorgeous new creation which is the Buick SUPER for 1942.

Fresh in line, clean of contour, solid as a combat car but graceful as a plane, it is one of 23 sparkling new models that prove *you can do it if you try!*

For the very things that made some people ready to say there couldn't be anything new in the 1942 cars made Buick engineers resolve that if there were *any* they would be *better* automobiles.

Now they're here. Every one a Buick FIREBALL valve-in-head straight-eight, every single one a honey.

Put foot to treadle in any of them and you find out in a hurry, how little defense conditions hamper men of real skill and alert ingenuity.

Push this beauty, force it through the toughest going — it will take all you can give it with frugal ease — and be fretlessly ready for more.

Yes, go see these cars now and learn how wrong the fellow was who said there could be little new in '42.

Highway Patrolmen Nip 7,316 Traffic Offenders in Month of September

State highway patrolmen corrected traffic law violations on the part of 7,316 motorists during the month of September, according to the report of Chief Elden Rowe to Highway Commissioner M. J. Hoffmann.

Of these transgressors against traffic safety regulations, 1,331 were arrested and taken to court, 941 were given written warning tickets notifying them that a repetition of the offense would bring about arrest, 2,306 were verbally warned for lesser infractions, and 2,738 were issued tags for driving with illegal and unsafe equipment.

During the same 30-day period highway patrolmen gave aid to 3,698 motorists, attended 224 accidents, and gave first aid to the injured in 44 cases. They made minor adjustments for 1,405 stranded motorists, helped 96 cars out of ditches, delivered gasoline to 161 and garage assistance for 93.

Of the 1,371 motorists arrested during the month, and who paid an aggregate of $20,714 in fines through local courts, 226 were convicted of excessive speed, 209 of careless driving, 133 of driving while drunk, 142 of going through stop signs, 118 of improper passing, 32 of driving in the wrong lane, and 229 of operating a motor vehicle with dangerously improper equipment.

BROTHERS MEET FIRST TIME IN HALF CENTURY

Luverne—When Martin Johnson, Ellsmore, arrived in Seattle, Washington, recently he met his brother, Ole C. Wagner, whom he had not seen for 55 years. In 1886 Martin left the family home in Utsire Island, three miles off the coast of Norway to come to America fourteen years later Ole came to this country. Only occasional letters during the past five and one-half decades have kept the brothers in touch with each other. The reason the names of the men fail to reveal their relationship is because Ole Wagner changed his name to avoid being confused with another Ole Johnson.

The Nation Depends on Metals

Defense weapons and telephone lines and equipment contain a great deal of copper, aluminum, zinc and other metals. National defense is taking much of the available supply.

Already the telephone business is using substitutes for some metals but there is no known substitute for copper for telephone wires in cities and between towns and soon we may not be able to get any copper for additional telephone plant except as it is considered essential to national defense.

The situation already is such that, in many localities, it is not possible to provide everyone just the type of telephone service wanted and there may be delays on some long distance calls.

THERE GOES A TIRE!

...but why junk the car?

Any car can have a blowout in a tire. But you wouldn't junk the car. You'd just fix the tire—or replace it.

That's very much like a situation that exists in the retailing of beer. Beer retailing has its "flat tires," too—retailers who disobey the law or who permit unsavory conditions.

To protect your right to drink good beer, we of the beer industry want to eliminate the few "flat tire" retailers. Here's another reason: Right here in Minnesota, beer has provided employment for 34,573 persons, supports an annual payroll of $29,866,962 and paid $1,926,921.61 in state taxes last year.

The state, too, has an important stake in the beer industry's purchases—for material, equipment and services—from more than 100 other industries.

Those benefits are worth preserving. You can help us preserve them by patronizing only the reputable and legal places where beer is sold and by reporting any law violations you may observe to the duly constituted authorities.

'Thumbing' Nose Not Disorderly

In quietly settling a female feud Magistrate Ford in Harlem court set a precedent that may be helpful in problems of apartment house etiquette. "Whether thumbing one's [illegible] constitutes disorderly conduct or not depends upon circumstances. In this case the defendant was at the bottom of the stairs and retreating whereas the one thumbed was at the top of the stairs, or about 10 feet away. Under such circumstances, I do not think nose-thumbing invited a conflict; therefore the summons is dismissed."

Kick the Bucket

"Kick the Bucket," is believed to have originated in the gaol of former centuries. The prison cell contained a bucket and a pallet as the only furnishings. The despondent prisoner who desired suicide circled his neck with his belt, which had been fastened to an upper bar of the door. Then, by kicking the bucket from beneath his feet, he managed to hang himself.

Improving Ventilation in Kitchen

Additional ventilation by means of built-in electric ventilating fans will be the simplest solution to improve the ventilation in a kitchen and bathroom. These fans are available in a number of styles all of which have the combined advantages of fan and blower. The ceiling type can be installed over range, shower or tub to draw off fumes smoke or steam. Where a ceiling installation is not practical, sidewall fans can be used.

The mighty blacksmith becomes still mightier when at the controls of a giant steam hammer. Here, under 4,000-pound blows, he is forging a main rod for a Great Northern locomotive. His was one of some 23,000 jobs which were necessary last year to run the railroad.

One Man's Job

One man with a *wheelbarrow* and a *path* can furnish transportation—and for the job at hand it may be the cheapest.

But for moving crops and livestock, and other heavy, bulky commodities which require long distance transportation, the wheelbarrow gives way to cars and locomotives, while the path becomes substantial roadbeds, steel tracks, bridges and tunnels.

And the operation of these more complex facilities requires depots, shops, machinery and tools, offices and equipment, materials and supplies, and working capital.

Behind every man and woman employed by the Great Northern in 1940 was an average investment, in round figures, of $30,000 per employe.

The traffic handled with this $30,000 worth of facilities and equipment per employe was equivalent to transporting more than one-half million tons of freight and nearly 13,000 passengers a distance of one mile.

The average charge to the users of the railroad for moving each ton of freight per mile was *less than one cent.* For hauling each passenger per mile, the average charge was one and two-thirds cents.

Each employe *plus $30,000 worth of facilities and equipment,* earned, on an average, a little more than $5,000 for the railroad.

About 90 per cent of this $5,000 had to be paid out for various expenses—wages (nearly $2,000 per employe), taxes (more than $600 per employe), replacements, materials, supplies, and interest on borrowed capital.

About $500 per employe was left for improvements, reduction of debt, offsetting deficits incurred during depression years, and for dividends to stockholders.

Of the $5,000 earned for the Company by each employe and the $30,000 investment in his job, *only $63 was paid out in dividends to the stockholders (the owners) of the railroad.*

Patrons of the railroad, it will be observed, were furnished essential transportation services at near-cost; of what they paid the railroad for these services, its employes received about 40 per cent; the tax collectors took 12 per cent, while the investor who, under our American way, *makes possible the transportation services, the jobs and the taxes,* can only hope that the abnormally heavy traffic for which a national emergency is responsible, will afford him something like a fair return on his investment this year.

Acclaimed as one of the most successful meetings in the history of the organization, the fifteenth biennial convention of the Northern Minnesota Education association came to an end in this city last Friday evening after having attracted an attendance of nearly 1,500 teachers from thruout this section of the state.

The programs presented during the two-day session were all of outstanding merit, while the sectional meetings Friday morning, addressed by authorities in various fields, were well attended, as were the luncheon and dinner meetings held in the course of the convention.

Elected to succeed W. G. Claffy as president of the organization was E. O. Olson of Deer River, other officers named including J. A. Hughes, Red Lake Falls, vice president; and A. G. Clark, Bemidji, secretary-treasurer.

Named on the executive committee were T. C. Ulleberg of Bagley and P. W. Chase of Warroad. O. E. Andreen of Deer River was elected alternate delegate to the convention of the National Education association. Other committee appointments include Ruth Brane, Bemidji, publicity; Otto H. Haack, Pine River, legislative; and Edna Murphy, Grand Rapids, National Education Week.

Supt. Morris Bye of this city was honored when representatives from this region to the delegate assembly of the Minnesota Education association at the state capitol in St. Paul November 14 were instructed to place his name in nomination for president of the state association. Mr. Bye is a past vice president, and now represents the Northern division on the state executive board.

Dr. Will Durant Tells of World Revolution

In an inspiring address that highlighted the concluding session of the Northern Minnesota Education association convention Friday evening, Dr. Will Durant, author-philosopher, traced the course of "The World Revolution" since the years following the World War.

The speaker cited five aspects of the revolution: Military changes, the rebellion of the have-nots against the haves, the moral revolt, the political upheaval and the economic revolution.

He discussed the philosophy of Nietzsche, German philosopher who in the 1880s advocated, as the Nazis do today, the rejection of Christianity and democracy, and upheld an aristocracy of force born out of turmoil, as well as the unification of Europe. Nietzsche, said Durant, hoped for the rise of a great leader who would be permitted "to lie, to rob and to kill".

The economic phase of the revolution, Dr. Durant said, is featured by the transfer from private to state capitalism, this trend being hastened by the post-war depression, concentration of wealth and other factors.

Tracing the rise of state capitalism in Russia, Italy and Germany, which, he said, begins with financial control and ends with mental control, Dr. Durant cited the growing control by the United States government over financial institutions, industry, and agriculture, and said the tendency is being encouraged by the present war.

The committee's report stated that the candidates were judged by three standards: Clean character and record, both public and private; expressed attitude in favor of enforcement of dry legislation; and not being run by private or special interests.

Kitty's Komments

Hallowe'en Secrets

Whisps of hurrying gray clouds hid from sight the cold, pale moon that seemed to shudder in horror at what he saw on earth that night.

Naked branches of trees against the chill of a frosty sky were raised in supplication, begging for mercy from what? We do not know.

In the deep, dark forest, strange sounds of doom were heard, weird cries, like screams of agonized souls, accompanied by the wild rushing of the wind in the tree tops.

Deep within the forest in a little clearing stood a ruined building, you couldn't call it a building, just a fallen down hovel.

A weak light crept through dirty windows, outlining the soft lacy webs of countless spiders who had lived there unmolested for years.

The pillars of a once stately porch had crumbled to ruin and lay before the broken down door. If you dared venture further you would see a bent figure, filthy gray hair, hanging over stooped shoulders, and covering a pair of smouldering black eyes, like live coals in the wizened face. Her clothes, only tatters hung around her thin frame like the rags hung on a scare crow.

She was muttering weird incantations as she stirred in a large pot hung in the massive fire place,—the one remaining fixture of a once luxurious home.

A rabbit lay on the floor, dead, but still warm, its throat gashed for the blood to be added to the potion she was brewing.

An enormous black cat arched its back and stealthily stalked the length of the room to fall to on the carcass of the rabbit. Once in a while he would quit his gory feast to spit in anger at imaginary foes he saw in the dark corners of the dimly lit room.

This was the home of the old gypsy crone who had lived on this ruined estate and occupied its fallen down buildings for how long, no one quite knew.

Straight across as the crow flies, about two miles away, the lovely grounds of the Lancaster estate fell away from the wild forest in well kept fields and lawns.

A mansion of a house set like an exquisite jewel in the midst of clipped hedges and velvety lawns, where lived the Lancasters and their charming foster daughter, Elsa.

This night the place blazed with lights from every window and music accompanied the wildly rushing wind that whirled the falling leaves in piles on the broad expanse of lawn.

The sound of merry laughter and gay chatter came from the larger ball room where the neighboring young people and Elsa were having such a gay time this Hallowe'en night.

In every nook and corner were Jack-o-lanterns, showing all the expressions of ghostly goblins from their flame etched features.

FOSSTON WOMAN DIES IN ACCIDENT NEAR CROOKSTON

Mrs. F. J. Johnson Is Death Victim when Two Cars Collide

Mrs. F. J. Johnson, 29, of Fosston, was killed and four persons were injured Sunday afternoon in a headon collision of two cars 6½ miles west of the Northwest School of Agriculture on U. S. highway 2.

Two of the injured, Mr. Johnson, 31, husband of the mishap victim and driver of one of the cars and Joseph Seeley, of Grand Forks, a passenger in the other car, are in St. Vincent's hospital at Crookston. Donald Chalmers, 22, of East Grand Forks, driver of the other car and LeRoy Shabert 21, a passenger in the Chalmers vehicle, were taken to St. Michael's hospital in Grand Forks.

Mrs. Johnson died within a few minutes after reaching the hospital, succumbing to a skull fracture and internal injuries of the chest. Her body will be taken to Cass Lake, her former home, for funeral services and burial.

State highway patrolmen said that the cars had been moved from their positions at the time of the collision when they arrived at the scene of the mishap, but that skid marks and other tracings on the pavement indicated the vehicles had both been near the center of the highway when the crash occurred.

SKELETON FOUND IN GRAVEL PIT

Red Wing.—A human skeleton was unearthed by workers in Red Wing recently who were hauling gravel from a pit near there. John H. Struss of Hay Creek working as a load-checker saw a skull and leg bone fall from a loaded truck. Struss called county officials who found several other bones. The skull was taken to a local dentist and upon examination revealed it to be a man about 50 years old. Due to the high cheek bones the skeleton was presumed to be an Indian buried about fifty years ago. The gravel pit is located near an old Indian Burial Grounds. It has been reburied a short distance from where it was unearthed.
